Alien Conscious Sixty Years Of Abduction Experien:

Alien Conscious: Sixty Years of Abduction Experiences Leonard Diamond, 2004-11 In *Alien Conscious* Dr Leonard Diamond provides a fascinating and wonderful look at human alien interpersonal contact. He follows four individuals who have given him permission to discuss their life experiences experiences they shared with Dr Diamond during hundreds of hours of discussion spanning sixty years. The book offers readers a dramatic longitudinal picture of these four children from the age of four to the age of sixty five as they establish and maintain regular contact with a benevolent race of aliens. These aliens from the planet Dollockinos, a small green planet in the Milky Way Galaxy, help the children to achieve and contribute to society. The Dollockians promote the children's uniqueness and very atypical creativity utilizing a special chemical process which was unknown to the children for most years of their contact. All four children succeed with the Dollockian Plan and make exceptional changes in society through their education, their special intellectual qualities, and the manner in which they utilize their skills. Once their contributions to society were apparent, the Dollockians learned their work had been fruitful and they continued to enrich the society of humans. In *Alien Conscious*, the Dollockians also clear up many puzzling questions and issues for humanity, including the UFO crash at Roswell. Dr Diamond also addresses areas such as junk science, prediction, skills, mediums, and various other activities associated with alien contactees. He provides us with an excellent literature search as well as explanations and discussions of many of the aspects of human alien contact. The four contactees freely offer their information, and Dr Diamond gives us an intimate view of their relationships with the Dollockians as well as their rich and varied experiences on Dollockinos.

The Second Attempt Bob G. Stidham, 2005-03 It began as a calculated but desperate attempt to survive in a cruel world and time. *The Second Attempt* is a last gasp effort to avoid execution. Rob Winslow and two robots arrive from the future back to the year 1844. Their time lab is additionally staffed with a super intelligence unit called U 326. Rob is in this era to avoid a death sentence from the Cruel Committee. If he performs as a Transmitter of live action and is accepted by the people of the earth year 3753, his sentence will be withdrawn. In a twist of fate, the people grow to love Winslow as he succeeds in his mission. In gaining popularity with the people, though he becomes a threat to the powerful Committee. Can Rob evade the Regulators whom he correctly expects the Committee to send? Can he elude the terminator that is sent with the sole purpose of ending Winslow's life? Once again, Bob G. Stidham weaves a story that draws you in. It is a splendid mix of science fiction and old time western. You can almost smell the dust, taste the coffee, and hear the creak of the leather saddle.

Touchstone for Change Ann Valentin, 2005-02 Think global. The world is quickly changing. These are quotes that you hear or read frequently these days. They are true. The world is changing so quickly that it can be overwhelming. Are you wondering how you fit in? Are changes necessary in your life? What's going on? The groundwork for the future lies within the past and present. What was done yesterday affects today, and today will shape tomorrow. The theory is one of a continuum in which isolation of events simply does not exist. Accepting such a philosophy can be comforting.
