*Abduction: Human Encounters with Aliens* Mack, 2009-12-15 A Harvard psychiatrist the author of *A Prince of Our Disorder* presents accounts of alien abduction taken from the more than sixty cases he has investigated and examines the implications for our identity as a species These mesmerizing and thought provoking stories of alien encounters from a Harvard professor take you through actual case studies of people from all walks of life and ages who have had challenging sometimes disturbing and in every case life changing experiences of alien abduction John Mack explores evidence of nonhuman intelligence like an attorney preparing for the trial of the century interviewing witnesses examining physical evidence consulting with experts in related fields constantly questioning his own assumptions As a story of one man's determination to bear witness to cosmic mysteries with extraordinary implications for the human future *Abduction* is bound to become a modern classic Keith Thompson author of *Angels and Aliens*      **UFO Religions** Christopher

Partridge, 2012-11-12 The spectre of the UFO as popularized by shows such as *The X Files* has brought an astonishing slant to the face of modern religious practice But what motivates the fantastical and sometimes sinister beliefs of UFO worshippers *UFO Religions* critically examines some of the fascinating issues surrounding UFO worship abduction narratives UFO based interpretations of other religions the growth of pseudo sciences purporting to explain UFOs and the responses of the core scientific community to such claims Focusing on contemporary global UFO groups including the Raelian Movement Heaven's Gate Unarius and the Ansaaru Allah Community it gives a clear profile of modern UFO controversies and beliefs      **Alien**

**Experiences** Nadine Lalich, Barbara Lamb, 2020-09-03 Many current and ancient sources suggest that UFOs and extraterrestrial beings have been visiting the earth and interacting with humans for thousands of years If this is true monumental implications arise regarding the origin and evolution of humanity and the future of our planet This book discusses the highly controversial subject of alien contact and abduction recounting twenty five cases of close encounter The cases included have been selected from the files of psychotherapist Barbara Lamb who has been working with abductees since 1991 In her work with 560 individuals more than 1 800 regressions have revealed encounters with what appear to be non human life forms Although extraterrestrial contact is difficult to prove scientifically the events described in this book are accurate in that they have been presented as they were described by the individuals who experienced them These are normal men and women living average responsible lives who have been subjected to extremely unusual events These individuals display such a compelling sincerity and marked emotional response to their strange experiences there can be no doubt they have experienced some kind of extraordinary event As a reader you may be curious about the subject or you may be a confirmed skeptic You may also be someone who is investigating unusual occurrences in your own life Whatever the case may be if with an open mind you will simply consider the possibilities inferred by the cases described herein you might find yourself on the road to a greater vision of reality      The UFO Phenomenon Robert Davis, 2015-02-28 A comprehensive

perspective of evidence and future directions associated with the UFO phenomenon Includes review and analysis of studies evidence theories and research needs involving UFO topics Extensive scientific endnotes

**Contact with Extraterrestrial Intelligence and Human Law** Michael Bohlander, 2023-08-07 It is statistically unlikely that humans are the only intelligent species in the universe Nothing about the others will be known until contact is made beyond a radio signal from space that merely tells us they existed when it was sent That contact may occur tomorrow in a hundred years or never If it does it will be a high risk scenario for humanity It may be peaceful or hostile Relying on alien altruism and benign intentions is wishful thinking We need to begin identifying as a planetary species and develop a global consensus on how to respond in either scenario
