Alienation Ethnicity And Postmodernism:

Alienation, Ethnicity, and Postmodernism R. Felix Geyer, 1996-11-30 The essays in this volume offer the reader a broad interdisciplinary perspective on the ways in which theories of alienation are influencing current debates in psychology psychiatry sociology and social philosophy In his introductory essay Felix Geyer discusses how classical notions of alienation have been put to use to describe the dysfunctions within societies that are becoming sharply divided along racial lines and according to the disparities in power described by postmodernism The essays that follow Geyer's introduction then take up the problems of alienation ethnicity and postmodernism in the contexts of increasing economic globalization and renewed racial hostility in communities both in the United States and abroad

Karl Marx's Writings on Alienation Marcello Musto, 2021-05-07 The theory of alienation occupies a significant place in the work of Marx and has long been considered one of his main contributions to the critique of bourgeois society Many authors who have written on this concept over the 20th century have erroneously based their interpretations on Marx's early writings In this anthology by contrast Marcello Musto has concentrated his selection on the most relevant pages of Marx's later economic works in which his thoughts on alienation were far more extensive and detailed than those of the early philosophical manuscripts Additionally the writings collated in this volume are unique in their presentation of not only Marx's critique of capitalism but also his description of communist society This comprehensive rediscovery of Marx's ideas on alienation provides an indispensable critical tool for both understanding the past and the critique of contemporary society

After Postmodernism Richard Smith, Philip Wexler, 2005-09-27 This work presents a set of thematic essays aimed at clarifying the educational problems and paradoxes of postmodern educational conditions and theory The major concerns of the book are the possibility of achieving substantive political objectives and of theorising such possibilities These concerns arise from a dissatisfaction with the organisational and political conditions of postmodern educational practice The seeming inability of academics to intervene in the public sector especially in matters of equality provides a driving force to the book For individuals who care about the future of education and its role in social reconstruction the pessimistic nature of postmodern theories of society and education is an additional impetus for the book All the chapters exemplify the issues that confront lecturers in contemporary university teacher education contexts A notable

feature of the book is a theme that current theorisation about education and society are historically outmoded and that the future lies in post postmodern theories **Fragments of Tragedy in Postmodern Film** Sezen Kayhan,2014-10-16 Despite the theories about the death of tragedy this book explores fragments and reflections of tragedy in postmodern film Tragedy has changed and evolved with human society and its continuous chain from Ancient Greece to modern times has been broken by postmodernism However certain aspects of tragedy have continued to be used by literature and film in particular films with themes of chaos violence popular culture paranoia virtual reality and alienation often use aspects of tragedy The focus of this study is on these facets adopted by postmodern film **Lefebvre, Love and Struggle** Rob Shields,2005-07-22 Lefebvre Love and Struggle provides the only comprehensive guide to Lefebvre s work It is an accessible introduction to one of the most significant European thinkers of the twentieth century Rob Shields draws on the full range of Lefebvres writings including many previously untranslated and unpublished works and correspondence Topics covered include Lefebvre s early relationship with Marxism his critique of the rise of fascism as well as his Critique of Everyday Life and the significant work on urban space for which he is best known today The Philosophy of the Beats Sharin N. Elkholy,2012-04-27 The phrase beat generation introduced by Jack Kerouac in 1948 characterized the underground nonconformist youths who gathered in New York City at that time Together these writers artists and activists created an inimitably American cultural phenomenon that would have a global influence In their constant search for meaning the Beats struggled with anxiety alienation and their role as the pioneers of the cultural revolution of the 1960s The Philosophy of the Beats explores the enduring literary cultural and philosophical contributions of the Beats in a variety of contexts Editor Sharin N Elkholy has gathered leading scholars in Beat studies and philosophy to analyze the cultural literary and biographical aspects of the movement including the drug experience in the works of Kerouac and Allen Ginsberg feminism and the Beat heroine in Diane Di Prima s writings Gary Snyder s environmental ethics and the issue of self in Bob Kaufman s poetry The Philosophy of the Beats provides a thorough and compelling analysis of the philosophical underpinnings that defined the beat generation and their unique place in modern American culture **Encyclopedia of Community** DAVID LEVINSON,KAREN CHRISTENSEN,2003-06-30 Click Additional Materials for downloadable materials and samples Incredibly this is the first encyclopedia to focus on community as concept and experience so stands alone in its field as the one title any library must buy to cover this topic Essential for all readerships CHOICEA timely comprehensive and very welcome overview of a rich and rapidly growing field of inquiry Robert D Putnam Professor at Harvard University and author of Bowling Alone With every passing minute it becomes more and more apparent that our world is one community The Encyclopedia of Community serves as recognition of this trend and as a needed resource The four volume set not only explains the emerging buzz words of community such as social capital or civic engagement but also tells many stories of community institutions that work such as public libraries Sarah Ann Long Past President 1999 2000 American Library Association As we yearn to connect with our fellow citizens during these uncertain

Designs for Alienation Devorah Kalekin-Fishman,1998 Centering on studies of alienation in varieties of institutional milieus as well as on current theoretical debates this volume explains how social institutions concretely frame and foster alienation legitimizing the creation of others who are disempowered manipulated and marginalized Among the writers are researchers from all around the globe Thus the book presents a panoramic view of how alienation is brought about in different cultures including the cultures which are generated by computers

A Postmodern Reader Joseph Natoli,Linda Hutcheon,1993-06-29 These readings are organized into four sections The first explores the wellsprings of the debates in the relationship between the postmodern and the enterprise it both continues and contravenes modernism Here philosophers social and political commentators as well as

cultural and literary analysts present controversial background essays on the complex history of postmodernism The readings in the second section debate the possibility or desirability of trying to define the postmodern given its cultural agenda of decentering challenging even undermining the guiding master narratives of Western culture The readings in the third section explore postmodernism's complicated complicity with these very narratives while the fourth section moves from theory to practice in order to investigate in a variety of fields the common denominators of the postmodern condition in action

Marx for Today Marcello Musto, 2013-09-13 Since the onset of global crisis in recent years academics and economic theorists from various political and cultural backgrounds have been drawn to Marx's analysis of the inherent instability of capitalism The rediscovery of Marx is based on his continuing capacity to explain the present In the context of what some commentators have described as a Marx renaissance the aim of this book is to make a close study of Marx's principal writings in relation to the major problems of our own society and to show why and how some of his theories constitute a precious tool for the understanding and critique of the world in the early twenty first century The book brings together varied reflections on the Marxian oeuvre drawing on different perspectives and fields and argues its case in two different parts The first will encompass such diverse areas and themes as political thought economics nationalism ethnicity post capitalist society freedom democracy emancipation and alienation showing in each case how Marx has still today an invaluable contribution to make The second presents a complete and rigorous account of the dissemination and the reception of Marx's work throughout the world in the last decade Both parts make a significant contribution to the current research on Marx and Marxism This book was originally published as a special issue of *Socialism and Democracy* *Goffman Unbound!* Thomas J. Scheff, Bernard S Phillips, Harold Kincaid, 2015-11-17 Thomas Scheff demonstrates why Goffman remains such a key figure for social scientists Goffman may have been cautious about recognizing the role of emotions in social life but Scheff boldly and creatively shows why the sociological and the psychological are necessarily intertwined This is certainly a book for all serious analysts of social behaviour Michael Billig Nottingham University Scheff's critical eye is equal to his subject shrewdly appreciating Goffman's many virtues while also showing where and how Goffman's thinking needs revision and development This original and provocative book offers a fresh interpretation of Goffman and will become a benchmark for all subsequent commentary Greg Smith University of Salford One of the seminal sociologists of the twentieth century Erving Goffman revolutionized our understanding of the microworld of emotions and relationships We all live in this world every day of our lives yet it is virtually invisible to us Goffman's genius was to recognize and describe this world as no one had before The book synthesizes prior scholarly commentary on Goffman's work and includes biographical material from his life untangling some of the many puzzles in Goffman's work and life Scheff also proposes ways of filling gaps and false starts One chapter explores the meaning of the emotion of love another of hatred These and other new directions could facilitate the creation of a microsocial science that unveils the emotional relational world The Search for Arab Democracy Larbi

Sadiki,2004 Larbi Sadiki deploys the conceptual tools of contemporary Western political philosophy and theory to articulate some provocative theses Her book challenges Eurocentric conceptions of democracy that frequently display a lack of concern for specificity and context analyzes and interrogates Orientalist and Occidental discourses on democracy and considers justifications for democracy in the global arena giving space for self representation by women and Islamists among others

Psychiatry, Mental Institutions, and the Mad in Apartheid South Africa Tiffany Fawn Jones,2012-05-23 In the late 1970s South African mental institutions were plagued with scandals about human rights abuse and psychiatric practitioners were accused of being agents of the apartheid state Between 1939 and 1994 some psychiatric practitioners supported the mandate of the racist and heteropatriarchal government and most mental patients were treated abysmally However unlike studies worldwide that show that women homosexuals and minorities were institutionalized in far higher numbers than heterosexual men Psychiatry Mental Institutions and the Mad in Apartheid South Africa reveals how in South Africa per capita white heterosexual males made up the majority of patients in state institutions The book therefore challenges the monolithic and omnipotent view of the apartheid government and its mental health policy While not contesting the belief that human rights abuses occurred within South Africa s mental health system Tiffany Fawn Jones argues that the disparity among practitioners and the fluidity of their beliefs along with the disjointed mental health infrastructure diffused state control More importantly the book shows how patients were also to a limited extent able to challenge the constraints of their institutionalization This volume places the discussions of South Africa s mental institutions in an international context highlighting the role that international organizations such as the Church of Scientology and political events such as the gay rights movement and the Cold War also played in shaping mental health policy in South Africa **Symbolic Movement**

Philip Wexler,2008-01-01 This is a book about sociology of education past present and future In the first section the author chronicles and specifies the changes in the field in a reflexive sociology of education tracing the path out of liberalism through radicalism and postmodernism to an emergent new age stance in understanding education in society Section two looks in more detail how these movements have actually worked in education and society The third section places the historical macrosocial analysis of education and society on the smaller more everyday screen of school life Based on the author s studies in high school the question of identity and education is the fulcrum for a series of concrete studies or school portraits which connect public social change and more personal everyday life and identity with the social process of schooling The final section probes the new age theme Questions of spirituality rationality magic mysticism and sublimation are related to changes both in education and in sociology of education What does it mean to do educational research in a re sacralized mystical society And does a new theory of sociology of education emerge on a Weberian rather than Durkheimian functionalist or Marxist radical view of the directions and reversals that begin in modernity and become more evident in our times **African Immigrants in Contemporary Spanish Texts** Debra Faszler-McMahon,Victoria L. Ketz,2016-03-09

Around the turn of 21st Century Spain welcomed more than six million foreigners many of them from various parts of the African continent How African immigrants represent themselves and are represented in contemporary Spanish texts is the subject of this interdisciplinary collection Analyzing blogs films translations and literary works by contemporary authors including Donato Ndongo Equatorial Guinea Abderrahman El Fathi Morocco Chus Guti rrez Spain Juan Bonilla Spain and Bahia Mahmud Awah Western Sahara the contributors interrogate how Spanish cultural texts represent idealize or sympathize with the plight of immigrants as well as the ways in which immigrants themselves represent Spain and Spanish culture At the same time these works shed light on issues related to Spain s racial ethnic and sexual boundaries the appeal of images of Africa in the contemporary marketplace and the role of Spain s economic crisis in shaping attitudes towards immigration Taken together the essays are a convincing reminder that cultural texts provide a mirror into the perceptions of a society during times of change
