Hostile Aliens, Hollywood and Today's News Melvin E. Matthews,2007 1950s Cold War era monsters meet 21st century terrorists Matthews provides a thoughtful interpretation of sci fi movies that examines the similarities and differences between the political environment and popular culture of two eras This well researched examination and appreciation of science fiction films includes behind the scenes tales about their

production and many quotes from those who produced and starred in the films The book will tantalize not only fans of the science fiction genre but also sociologists film historians and politicians The author draws parallels between the Cold War fears of the 1950s and 60s and the constant terrorism alerts of the September 11th era exploring how the politics and the psychological climate of the times influences and is reflected in this vehicle of popular culture This book is the first of its kind studying the pop culture genre in the wake of the September 11th tragedy The alien invaders of the 1950s signified a Russian invasion of America while other films of the genre such as Invaders from Mars depicted aliens utilizing mind control to manipulate humans to commit acts of sabotage signifying Communist enslavement If such a film were made now such invaders could be seen as terrorist masterminds using human slaves to commit terrorist acts Them the 1954 atomic mutation classic is the spiritual ancestor of the 2002 film Eight Legged Freaks Finally several 1950s films depicted the end of the world at a time when Americans expected a nuclear war with Russia Godzilla the only 1950s era monster to remain a movie star beyond that era can be fashioned to reflect whatever issues dominate the times nuclear war in the 1950s environmental pollution in the 1970s Conceivably a Godzilla for the age of terrorism is soon to be released The immediate pre September 11th era witnessed films presenting galactic threats to mankind s existence Independence Day Armageddon Deep Impact while the early 2000s witnessed the popularity of the Left Behind Christian films dramatizing the Tribulation period in the Book of Revelation It seems that whatever the era and whatever the challenges and crises confronting America many entertainment themes remain the same reflecting their respective times and the relevant issues Melvin E Matthews Jr is a freelance writer and a horror movie aficionado who has been studying the genre for thirty years In this work he shares his personal correspondence with film and television star Beverly Garland and brings together a wealth of detail about the fun and the challenges of the costumes stunts and special effects as well as the actors and producers thoughts on the meaning **Directed by Steven Spielberg** Warren Buckland, 2006-05-02 Although the blockbuster is the most behind the stories popular and commercially successful type of filmmaking it has yet to be studied seriously from a formalist standpoint This is in opposition to classical Hollywood cinema and International Art cinema whose form has been analyzed and deconstructed in great detail Directed By Steven Spielberg fills this gap by examining the distinctive form of the blockbuster The book focuses on Spielberg's blockbusters because he is the most consistent and successful director of this type of film he defines the standard by which other Hollywood blockbusters are judged and compared But how did Spielberg attain this position Film critics and scholars generally agree that Spielberg's blockbusters have a unique look and use visual storytelling techniques to their utmost effectiveness In this book Warren Buckland examines Spielberg's distinct manipulation of film form and his singular use of stylistic and narrative techniques The book demonstrates the aesthetic options available to Spielberg and particularly the choices he makes in structuring his blockbusters Buckland emphasizes the director's activity in making a film particularly such a powerful director as Spielberg including visualizing the scene on paper via storyboards

staging and blocking the scene selecting camera placement and movement determining the progression or flow of the film from shot to shot and deciding how to narrate the story to the spectator Directed By Steven Spielberg combines film studies scholarship with the approach taken by many filmmaking manuals. The unique value of the book lies in its grounding of formal film analysis in filmmaking Becoming Aware of Aliens by learning to recognize them - Vol. 1 Angel Jeanne, 2016-07-19 The real question is not whether Aliens exist or not They exist Rather we should ask ourselves how they are manipulating us and what we can do in order to defend ourselves. These are the thoughts of a writer who has shared her personal experiences in three profound and intense books Each volume is supplemented with illustrations and profiles of the most important alien races and in particular with pictures of real Alien Chips which the author has extracted from her own body It's a book that will blow you away and one that will make you recognize a truth mirrored in your own experience that which you never dared tell anyone In this trilogy the author shares her terrifying experience but also the experiences that filled her with joy It's the beginning of an evolution a howl of rebellion against alien abductions and manipulations a roar in the face of all those who allow this to happen **The Threat** David M. Jacobs, 2012-12-11 After fifty years of widespread speculation about UFOs and abductions by aliens a distinguished historian and UFO researcher presents the first evidence based explanation of alien intentions Based on over thirty years of personal research Professor Jacobs exposes the aliens profoundly alarming agenda to create a breed of alien human hybrids who will eventually colonise and control Earth He explains why aliens are here what they want and why their agenda has been kept secret In doing so he presents a disturbing picture of a profoundly changed future in which humans will be relegated to inferior status. This incredible story is all the more remarkable because every account of an alien abduction is thoroughly documented and is corroborated by independent testimony This book answers in astonishing depth some of the most important guestions about the UFO phenomenon that researchers have been asking since the beginning of the controversy V4.
