Aliens in Woodford Mary Labatt, 2000 Sam Dog Detective a junk food loving canine sleuth and her best friends Jennie and Beth get to the bottom of the strange things happening at Woodford's abandoned airfield *Jonny Jakes Investigates the Hamburgers of Doom* Malcolm Judge, 2016-01-01 Twelve year old Jonny Jakes is an undercover reporter for a banned school newspaper The Woodford Word and right now he has the story of a lifetime the new principal is an alien he does not even try and hide it Jonny is sure he is planning something nefarious and it is up to the Word's star really the only reporter to find out what it is *Children's Books in Print, 2007*, 2006 **Canadian Book Review Annual** Joyce M. Wilson, 2001 *Alien Bodies* Ramsay Burt, 2002-09-11 *Alien Bodies* is a fascinating examination of dance in Germany France and the United States during the 1920s and 1930s Ranging across ballet and modern dance dance in the cinema and Revue Ramsay Burt looks at the work of European African American and white American artists Among the artists who feature are Josephine Baker Jean Borlin George Balanchine Jean Cocteau Valeska Gert Katherine Dunham Fernand Leger Kurt Jooss Doris Humphrey Concerned with how artists responded to the alienating experiences of modern life *Alien Bodies* focuses on issues of national and racial identity the new spaces of modernity fascists uses of mass spectacles ritual and primitivism in modern dance the New Woman and the slender modern body *The Citizenship Revolution* Douglas Bradburn, 2009-07-13 Most Americans believe that the ratification of the Constitution in 1788 marked the settlement of post Revolutionary disputes over the meanings of rights democracy and sovereignty in the new nation In *The Citizenship Revolution* Douglas Bradburn undercuts this view by showing that the Union not the Nation was the most important product of independence In 1774 everyone in British North America was a subject of King George and Parliament In 1776 a number of newly independent states composed of American citizens began cobbling together a Union to fight their former fellow countrymen But who was an American What did it mean to be a citizen and not a subject And why did it matter Bradburn's stunning reinterpretation requires us to rethink the traditional chronologies and stories of the American Revolutionary experience He places battles over the meaning of citizenship in law and in politics at the center of the narrative He shows that the new political community ultimately discovered that it was not really a Nation but a Union of States and that it was the states that set the boundaries of belonging and the very character of rights for citizens and everyone else To those inclined to believe that the ratification of the Constitution assured the importance of national authority and law in the lives of American people the emphasis on the significance and power of the states as the arbiter of American rights and the character of nationhood may seem strange But as Bradburn argues state control of the ultimate meaning of American citizenship represented the first stable outcome of the crisis of authority allegiance and identity that had exploded in the American Revolution a political settlement delicately reached in the first years of the nineteenth century So ended the first great phase of the American citizenship revolution a continuing struggle to reconcile the promise of revolutionary equality with the pressing and sometimes competing demands
