The British Essayists Alexander Chalmers, 1856 **The British Essayists**, 1827 **The British Essayists: The Looker-on** Alexander Chalmers, 1802 **Cassell's New Biographical Dictionary**, 1893 **A History of Trust in Ancient Greece** Steven Johnstone, 2024-05-31 An enormous amount of literature exists on Greek law economics and political philosophy Yet no one has written a history of trust one of the most fundamental aspects of social and economic interaction in the ancient world In this fresh look at antiquity Steven Johnstone explores the way democracy and markets flourished in ancient Greece not so much through personal relationships as through trust in abstract systems including money standardized measurement rhetoric and haggling Focusing on markets and democratic politics Johnstone draws on speeches given in Athenian courts histories of Athenian democracy comic writings and laws inscribed on stone to examine how these systems worked He analyzes their potentials and limitations and how the Greeks understood and critiqued them In providing the first comprehensive account of these pervasive and crucial systems A History of Trust in Ancient Greece links Greek political economic social and intellectual history in new ways and challenges contemporary analyses of trust and civil society

The Observer Richard Cumberland, 1826 *The Coming of the Terror in the French Revolution* Timothy Tackett, 2015-02-23 Between 1793 and 1794 thousands of French citizens were imprisoned and hundreds sent to the guillotine by a powerful dictatorship that claimed to be acting in the public interest Only a few years earlier revolutionaries had proclaimed a new era of tolerance equal justice and human rights How and why did the French Revolution's lofty ideals of liberty equality and fraternity descend into violence and terror By attending to the role of emotions in propelling the Terror Tackett steers a more nuanced course than many previous historians have managed Imagined terrors as Tackett very usefully reminds us can have even more political potency than real ones David A Bell *The Atlantic* Tackett analyzes the mentality of those who became terrorists in 18th century France In emphasizing weakness and uncertainty instead of fanatical strength as the driving force behind the Terror Tackett contributes to an important realignment in the study of French history Ruth Scurr *The Spectator* A boldly conceived and important book This is a thought provoking book that makes a major contribution to our understanding of terror and political intolerance and also to the history of emotions more generally It helps expose the complexity of a revolution that cannot be adequately understood in terms of principles alone Alan Forrest *Times Literary Supplement*

The British Essayists: Observer James Ferguson, 1819 Ancient Greek Purism Olga Tribulato, Federico Favi, Lucia Prauscello, 2024-12-30 This volume is the first of four devoted to Atticism a form of linguistic purism that sought to preserve the rules of the 5th century Attic dialect against the evolution of Postclassical Greek The series elucidates the origins and development of Atticist thought as well as its impact transmission and legacy from the Byzantine Middle Ages to the Renaissance Although Atticism flourished in the Imperial age its roots are steeped in the previous centuries This volume investigates the broad historical cultural and linguistic factors leading to the emergence of Attic as a prestige variety among the classical Greek dialects the way Attic exclusivity was construed in Athenian literary sources and how Hellenistic scholarship contributed to monumentalising Attic supremacy Atticism can be regarded as the first example of an intellectual movement seeking to promote an extinct variety to the status of linguistic standard reflecting an ideological and nostalgic view of identity This volume traces the roots of this linguistic phenomenon back to factors at work in the construction of Hellenicity in the archaic and classical periods **Cassell's new biographical dictionary.
