## **Alfonso Mercurio Research Form Technology:**

*Alfonso Mercurio*, 2005 Alfonso Ivencuno's work is marked by its most distinctive features: stylistic clarity, strong spatial functional layout and clear cut design guidelines. This applies both to the industrial structures of his firm's core business as well as to housing complexes. The simplicity and perfect balance of the functional layout that underpins these complexes are the architect's main interest as he strives to rationalize the building's components and keep down costs. A.M.A. Group, Alfonso Mercurio Associates. A.M.A. Group, 2002 Alfonso Mercurio Associates' architecture stands out for its distinctly industrial connotations and for the technologically cutting edge nature of the activities for which it provides spaces, environments and structure. Each work of this Italian firm combines its own architectural vocabulary with functional responses to the most demanding aspects of elaborate scientific technological research. *Handbook of Research on Emerging Technologies for Architectural and Archaeological Heritage* Ippolito, Alfonso, 2016-08-27 Cultural heritage is a vital multifaceted component of modern society.
