Algeria The Fundamentalist Challenge:

Algeria James Ciment,1997 Algeria is a nation at war with itself Civil strife has engulfed the country since early 1992 when a secular military government called off a national election after its Islamic opponents won the first round Since then the militant Islamic opposition has employed suicide bombings assassinations and death threats to make the country ungovernable The most secularized of nations in the region Algeria would not seem to have been the most vulnerable to disorder involving Muslim fundamentalists and Islamists However as in other postcolonial societies the lack of democracy since independence has nurtured the growth of religious populism as the only available form of political resistance to corrupt government authority *Algeria The Fundamentalist Challenge* lucidly untangles the roots of this conflict in the colonial era and after and examines it in the context of local regional and international politics It is written for students and other readers who need a clear introduction to one of the more significant struggles of our era

The Islamist Challenge in Algeria

Michael Willis,1997 In recent years like many countries caught between the tides of fundamentalist religion and secular culture Algeria has been rocked by social upheaval protest spasmodic violence and terrorist activity Middle East scholar Michael Willis here charts the meteoric rise of one of the largest and most powerful Islamist movements in the Muslim world

Fatal Future? Richard M. Pearlstein,2009-06-03 The nature and goals of terrorist organizations have changed profoundly since the Cold War standoff among the U S Soviet and Chinese superpowers gave way to the current polyplex global system in which the old rules of international engagement have been shattered by a new struggle for power among established states non state actors and emerging nations In this confusing state of global disorder terrorist organizations that are privately funded and highly flexible have become capable of carrying out incredibly destructive attacks anywhere in the world in support of a wide array of political religious and ethnic causes This groundbreaking book examines the evolution of terrorism in the context of the new global disorder Richard M Pearlstein categorizes three generations of terrorist organizations and shows how each arose in response to the global conditions of its time Focusing extensively on today s transnational i e privately funded and internationally operating terrorist organizations he devotes thorough attention to the two most virulent types ethnoterrorism and radical Islamic terrorism He also discusses the terrorist race for weapons of mass destruction and the types of attacks including cyberterrorism that are likely to occur in coming years Pearlstein concludes with a thought provoking assessment of the many efforts to combat transnational terrorism in the post September 11 period

France and Algeria Phillip Naylor,2024-06-11 An examination of the complicated history between France and Algeria since the latter s independence While most related studies concentrate on the colonial era and Algeria s War of Independence *France and Algeria* details the nations postcolonial relationship Phillip Naylor provides a philosophical approach contending that France reformulated rather than repudiated essential strategic values during decolonization It thus continued to pursue grandeur and independence especially with regard to the Third World and Algeria an essentialism that

expedited France's postcolonial transformation. But as a new nation, Algeria needed to pursue the existential project of self-definition. It became involved in state building while also promulgating socialism and it recognized how French oil concessions in the Sahara impeded its independence, leading to the industry's postcolonial decolonization. Finally, the postcolonial relationship has featured a human dimension involving immigrants, pieds noirs, colonial settlers, and harkis. Algerian soldiers loyal to France, all of them central to bilateral relations. In this revised and updated edition of his seminal work first published over twenty years ago, Naylor expands his coverage of the decolonization era, drawing on new information while continuing to study the ever-evolving relationship between the two countries. These new additions expose the continually shifting relations of power, perception, and identity between the two states. *The Challenge of*

Brief illustrated presentation of the physical and political geography of Algeria. *A Soldier and a Woman* Gerard J. De Groot, 2014-07-30. The question of women's role in the military is extremely topical. *A Woman and a Soldier* covers the experiences of women in the military from the late mediaeval period to the present day. Written in two volumes, this comprehensive guide covers a wide range of wars: The Thirty Years War, the French and Indian Wars in Northern America, the Anglo-Boer War, the First and Second World Wars, the Long March in China, and the Vietnam War. There are also thematic chapters including studies of terrorism and contemporary military service. Taking a multidisciplinary approach, historical, anthropological, and cultural, the book shows the variety of arguments used to support or deny women's military service and the combat taboo. In the process, the book challenges preconceived notions about women's integration in the military and builds a picture of the ideological and practical issues surrounding women soldiers. **A Clean Sweep?** T. David Curp, 2006. An examination of how the Polish state and its people worked together to ethnically cleanse and colonize eastern Germany after 1945. *A Clean Sweep: The Politics of Ethnic Cleansing in Western Poland, 1945-1960* examines the long-term impact of ethnic cleansing on postwar Poland, focusing on the western Polish provinces of Poznań and Zielona Góra. Employing archival materials from multiple sources, including newly available Secret Police archives, it demonstrates how ethnic cleansing solidified Communist rule in the short term while reshaping and nationalizing that rule. The Poles of Poznań played a crucial role in the postwar national revolution in which Poland was ethnically cleansed by a joint effort of the people and state. A resulting national solidarity provided the Communist-dominated regime with an underlying stability while it transformed what had been a militantly internationalist Polish Communism. This book addresses the legacy of Polish-German conflict that led to ethnic cleansing in East-Central Europe, the ramifications within the context of Polish Stalinism's social and cultural revolutions, and the subsequent anti-national counterrevolutionary effort to break the bonds of national solidarity. Finally, it examines how the Poznań milieu undermined and then reversed Stalinist efforts at socioeconomic and cultural revolution. In the aftermath of the Poznań revolt of June 1956, the regime's leadership re-embraced hyper-nationalist politics.

Alliance Formation in Civil Wars Fotini Christia, 2012-11-12 Some of the most brutal and long lasting civil wars of our time involve the rapid formation and disintegration of alliances among warring groups as well as fractionalization within them It would be natural to suppose that warring groups form alliances based on shared identity considerations such as Christian groups allying with Christian groups but this is not what we see Two groups that identify themselves as bitter foes one day on the basis of some identity narrative might be allies the next day and vice versa Nor is any group however homogeneous safe from internal fractionalization Rather looking closely at the civil wars in Afghanistan and Bosnia and testing against the broader universe of fifty three cases of multiparty civil wars Fotini Christia finds that the relative power distribution between and within various warring groups is the primary driving force behind alliance formation alliance changes group splits and internal group takeovers
