Algerian Diary:

On Diary Philippe Lejeune, 2009-04-30 *On Diary* is the second collection in English of the groundbreaking and profoundly influential work of one of the best known and provocative theorists of autobiography and diary. Ranging from the diary's historical origins to its pervasive presence on the Internet from the spiritual journey of the sixteenth century to the diary of Anne Frank and from the materials and methods of diary writing to the question of how diaries end, these essays display Philippe Lejeune's expertise, eloquence, passion, and humor as a commentator on the functions, practices, and significance of keeping or reading a diary. Lejeune is a leading European critic and theorist of diary and autobiography. His landmark essay *The Autobiographical Pact* has shaped life writing studies for more than thirty years, and his many books and essays have repeatedly opened up new vistas for scholarship. As Michael Riffaterre notes, Lejeune's work on autobiography is the most original, powerful, effective approach to a difficult subject. His style is very personal, lively. It grabs the reader as scholarship rarely does. Lejeune's erudition and methodology are impeccable. Two substantial introductory essays by Jeremy Popkin and Julie Rak place Lejeune's work within its critical and theoretical traditions and comment on his central importance within the fields of life writing, literary genetic studies, and cultural studies.

Algerian Diary Gerald Davis (Filmmaker), 2016 Frank Kearns was the go-to guy at CBS News for dangerous stories in Africa and the Middle East in the 1950s, 60s, and early 70s. By his own account, he was nearly killed 114 times. He took stories that nobody else wanted to cover and was challenged to get them on the air when nobody cared about this part of the world. But his stories were warning shots for conflicts that play out in the headlines today. In 1957, Senator John Kennedy described America's view of the Algerian war for independence as the Eisenhower Administration's head in the sand policy. So CBS News decided to find out what was really happening there and to determine where Algeria's war for independence fit into the game plan for the Cold War. They sent Frank Kearns to find out. Kearns took with him cameraman Yousef Joe Masraff and 400 pounds of gear, some of which they shed, and they hiked with FLN escorts from Tunisia across a wide no-man's-land and into the Aures Mountains of eastern Algeria where the war was bloodiest. They carried no passports or visas. They dressed as Algerians. They refused to bear weapons. And they knew that if captured, they would be executed and left in unmarked graves. But their job as journalists was to seek the truth, whatever it might turn out to be. This is Frank Kearns's diary.

The Private Life Of Islam Ian Young, 2011-04-30 Ian Young spent a summer as a medical student in a provincial maternity unit in Algeria. This book is taken from the diary he began on arrival when he found himself the privileged witness of the insides, not just of Kabyl women but also some much trumpeted ideology. The immediate villains are a couple of expatriate Bulgarian gynaecologists. Dr Vasilev, at the closing stages of a career of fathomless incompetence, forms a bond of affection with the author, and they spend many hours in the office over an old route map of Bulgaria, discussing mileages and motorcycles as Maternity drifts beneath them like an abandoned ship. Dr Kostov packs a powerful bedside punch and saves his humanitarian feelings for the health of the Deutschmark. The two form

a macabre comic team as they take the reader through a series of medical nightmares But their lot is scarcely more enviable than that of their female victims the foreign doctors are the unhappy executors working in blood excrement and death of the most respected attitudes in Algeria The Private Life of Islam is a ruthlessly clear sighted view of a particular place at a particular time It is also a classic in the art of story telling A real achievement personal as well as literary David Pryce Jones The Times A parable of the reality behind a vast amount of modern social and political fantasy even in the most developed of countries David Holden Sunday Times

Algerian Languages in Education Salim Bouherar, Abderrezzaq Ghafsi, 2022-01-03 This book examines the role of foreign languages and cultures in the Algerian educational system highlighting how cultural imperialism and supremacy persist through damaging language ideologies and the privileging of colonial languages such as French and English The authors challenge the claim that the Algerian educational system can be considered neutral arguing instead that it was and still is the outcome of a conflict between Arabised and Francophone elites serving strategic and ideological objectives rather than cultural or pedagogical goals This book will be relevant to students and scholars of language education language policy and planning and the history and politics of the Arab and Muslim world especially those interested in the influence of Western languages and cultures and the democratisation of educational systems
