Camels in the Biblical World Martin Heide, Joris Peters, 2021-10-26 Camels are first mentioned in the Bible as the movable property of Abraham During the early monarchy they feature prominently as long distance mounts for the Queen of Sheba and almost a millennium later the Gospels tell us about the impossibility of a camel passing through a needle's eye Given the limited extrabiblical evidence for camels before circa 1000 BCE a thorough investigation of the spatio-temporal history of the camel in the ancient Near and Middle East is necessary to understand their early appearance in the Hebrew Bible Camels in the Biblical World is a two part study that charts the cultural trajectories of two domestic species the two humped or Bactrian camel *Camelus bactrianus* and the one humped or Arabian camel *Camelus dromedarius* from the fourth through first millennium BCE and up to the first century CE Drawing on archaeological camel remains iconography inscriptions and other text sources the first part reappraises the published data on the species domestication and early exploitation in their respective regions of origin The second part takes a critical look at the various references to camels in the Hebrew Bible and the Gospels providing a detailed philological analysis of each text and referring to archaeological data and zoological observations whenever appropriate A state of the art evaluation of the cultural history of the camel and its role in the biblical world this volume brings the humanities into dialogue with the natural sciences The novel insights here serve scholars in disciplines as diverse as biblical studies zoo archaeology history and philology

The Qur'an Oliver Leaman, 2006-05-02 A RUSA 2007 Outstanding Reference Title The Qur'an is the source of inspiration for one of the world's major religions followed today by over a billion people It plays a central role in Islam and ever since it appeared fourteen hundred years ago has been the subject of intense debate Some of this has been carried out by Muslims and some by those hostile or indifferent to Islam producing a very wide range of views Authored by forty three international experts the objective of The Qur'an An Encyclopedia is to present this diversity of thought approach and school without priority in order to give a strong

appreciation of the range of response that the text has provoked throughout its history and providing students and researchers with a powerful one volume resource covering all aspects of the text and its reception Islam and the Qur'an are much in the news today and there is a public debate going on in which things are said about the Qur'an without much knowledge or understanding of the book Every effort has been made to help the reader use the Encyclopedia as an investigative tool in Quranic studies The volume assumes no previous knowledge of the Qur'an Islam or Arabic Technical terms are explained in the text itself and the style of each entry is designed to be as self contained as possible Entries are cross referenced and many include a brief bibliography At the end of the work there is a substantial annotated bibliography providing a detailed guide to the most significant books journals and articles in Quranic Studies There is a full index The readership will include those seeking basic information on the Qur'an however the substantial number of longer entries means that it will also be used by specialists

An Engraved Landscape: Rock carvings in the Wadi al-Ajal, Libya Tertia Barnett, 2023-02-23 An Engraved Landscape is a contextual analysis of a substantial new corpus of engravings from the Wadi al Ajal situated in the Central Saharan region of south west Libya The wadi is renowned as the heartland of the Garamantian civilization which emerged from local mobile Pastoral communities in the 1st millennium BC and dominated trans Saharan trade and politics for over a thousand years Extensive archaeological and palaeoenvironmental investigations in recent years have provided detailed insight into the later prehistory and protohistory of the wadi and surrounding areas However prior to the fieldwork detailed in this work only a handful of carvings had been recorded in the wadi This work is based on systematic survey conducted between 2004 and 2009 which recorded around 2 500 previously unknown or unpublished engraved and inscribed rock surfaces All forms of engraving whether figurative or surface markings were viewed as significant residues of human interaction with the rock surface and were recorded The resulting database provides an opportunity to analyze the engravings in relation to their changing physical and cultural contexts and the discussion offers a fresh interpretation of Saharan rock art based on this substantial new evidence An Engraved Landscape also captures in detail a unique heritage resource that is currently inaccessible and threatened This record of the fragile engravings provides an important source of information for researchers and students
