the model's reasoning making it easier to debug, validate, and trust. Interpretability and Explainability in AI Using Python takes you on a structured journey through interpretability and explainability techniques for both white box and black box models. You'll start with foundational concepts in interpretable machine learning, exploring different model types and their transparency levels. As you progress, you'll dive into post hoc methods, feature effect analysis, anchors, and counterfactuals—powerful tools to decode complex models. The book also covers explainability in deep learning, including Neural Networks, Transformers, and Large Language Models (LLMs), equipping you with strategies to uncover decision-making patterns in AI systems. Through hands-on Python examples, you'll learn how to apply these techniques in real-world scenarios. By the end, you'll be well-versed in choosing the right interpretability methods, implementing them efficiently, and ensuring AI models align with ethical and regulatory standards, giving you a competitive edge in the evolving AI landscape.

What you will learn:

- Dissect key factors influencing model interpretability and its different types.
- Apply post hoc and inherent techniques to enhance AI transparency.
- Build explainable AI (XAI) solutions using Python frameworks for different models.
- Implement explainability methods for deep learning at global and local levels.
- Explore cutting-edge research on transparency in transformers and LLMs.
- Learn the role of XAI in Responsible AI, including key tools and methods.

Morin, 2020-09-15 Meet the new boss, daughter of the old boss. It was a possibility she'd never considered, and a friend she'd thought long gone. But when Tanny Rucker came to Esper for help overthrowing her father's criminal empire, it was an offer she couldn't refuse. Armed with Tanny's loyalists from her father's syndicate and the magical might Esper brings, the pair embark on a course to rewrite galactic history. To win, they might ruin countless innocent lives, and even some of their friends. But convinced they're going to do more good, they press forward with their ambitious plan to rid the galaxy of the Rucker Syndicate.

Mission 13: The Girls Are Back in Town Esper and Tanny join forces to topple the Rucker Syndicate. Their first move: rescuing hostages so that no one can be forced to betray them.

Mission 14: Stuck in the Astral With You To undermine the financial power of the Rucker Syndicate, Tanny and Esper go after their largest legitimate business front.

Mission 15: Lair of the Dog When Tanny is forced to flee from battle, she brings her crew to the harshest, most unforgiving planet with a breathable atmosphere: Kubu's homeworld.

Mission 16: Empathy for the Devil It's the final showdown for control of the Rucker Syndicate. What price will Tanny and Esper be forced to pay to realize their vision of a galaxy without its largest criminal empire?

Bonus short story: Kubu's First Date When the opportunity arises to travel from his birth planet to his adoptive home, Kubu asks a friend to join him for the trip. But without a common culture to guide them, the two megalodogs fumble their way to a unique and unexpected idea for a first date.
