Negative Actions Jonathan D. Payton, 2021-02-25 Negative actions intentional omissions refrainments etc seem to be genuine actions The standard metaphysical theories of action are event based they treat actions as events of a special kind But it seems that many and perhaps all negative actions are not events but absences thereof In this book I provide a comprehensive treatment of this problem and its solution I trace the appearance that negative actions are mere absences to the widely assumed view that negative action sentences sentences which describe an agent as omitting refraining etc are negative existentials reporting the non occurrence of an event of a certain kind I argue on the contrary that such sentences report the occurrence of an event not the absence of one Moreover I show how these events can be identified with ordinary positive events of the sort we should already have in our ontology In developing these views I provide a comprehensive picture of the metaphysics of negative actions the nature of our thought and talk about them and their place in a theory of action and agency

The Nursery "Alice" Lewis Carroll,1889 Probabilistic Knowledge Sarah Moss,2018 Sarah Moss argues that in addition to full beliefs credences can constitute knowledge She introduces the notion of probabilistic content and shows how it plays a central role not only in epistemology but in the philosophy of mind and language Just you can believe and assert propositions you can believe and assert probabilistic contents Security Protocols XVII Bruce Christianson,James A. Malcolm,Vashek Matyáš,Michael Roe,2013-01-12 This book constitutes the thoroughly refereed post proceedings of the 17th International Workshop on Security Protocols SP 2009 held in Cambridge UK in April 2009 The 17 revised full papers presented together with edited transcriptions of some of the discussions following the presentations have gone through multiple rounds of reviewing revision and selection The theme of this workshop was Brief Encounters In the old days security protocols were typically run first as preliminaries to and later to maintain relatively stable continuing relationships between relatively unchanging individual entities Pervasive computing e bay and second life have shifted the ground we now frequently desire a secure commitment to a particular community of entities but relatively transient relationships with individual members of it and we are often more interested in validating attributes than identity The papers and discussions in this volume examine the theme from the standpoint of various different applications and adversaries *Women and New Hollywood* Aaron Hunter,Martha Shearer,2023-05-12 The 1970s has often been hailed as a great moment for American film as a generation of New Hollywood directors like Scorsese Coppola and Altman offered idiosyncratic visions of what movies could be Yet the auteurist discourse hailing these directors as the sole authors of their films has obscured the important creative roles women played in the 1970s American film industry *Women and New Hollywood* revises our understanding of this important era in American film by examining the contributions that women made not only as directors but also as screenwriters editors actors producers and critics Including essays on film history film texts and the decade s film theory and criticism this collection showcases the rich and varied cinematic products of women s creative labor as well as the considerable barriers they faced It considers both women working within and beyond the Hollywood film industry reconceptualizing New Hollywood by bringing it into dialogue with other American cinemas of the 1970s By valuing the many forms of creative labor involved in film production this collection offers exciting alternatives to the auteurist model and new ways of appreciating the themes and aesthetics of 1970s American film *Menopausal Musings & Other Stories* Elias Sassoon,2012-03-11 *Menopausal Musings* is a collection of small novellas Each novella follows the inner world of one

character's contorted thoughts as they cope with the crisis of middle age. We observe these afflicted people as they exist at different times of day. All are urban characters who live alone in New York City. All are trapped within the walls of their apartments and trapped in their minds and unable to escape. We listen and observe as their minds twirl with hopes, dreams, bitterness, and anger. We cringe as we watch their souls cringe because of isolation from family, friends, and the rest of humanity. They're humans set adrift in a unforgiving world with its billions of unmarked faces. Yet their pain is our pain; their longing is our longing. And that is the whole point.

A Companion to Martin Scorsese Aaron Baker, 2021-05-04

A Companion to Martin Scorsese This valuable book brings the exceptional scale of Martin Scorsese's film work into clear view. His achievements are monumental and the essays collected in this work provide wonderfully detailed and vivid analyses of his oeuvre. A comprehensive study of the most exciting filmmaker working today.

Robert Burgoyne, University of St Andrews

A Companion to Martin Scorsese: Revised Edition is a comprehensive collection of original essays assessing the career of one of America's most prominent contemporary filmmakers. The first reference work of its kind, this book contains contributions from influential scholars in North America and Europe. The essays use a variety of analytic approaches to study numerous aspects of Scorsese's work from his earliest films to his place within the history of American and world cinema. They consider his work in relation to auteur theory, the genres in which he has worked, his use of popular music, and his recent involvement with film preservation. Several of the essays offer fresh interpretations of some of Scorsese's most influential films, including *Mean Streets*, *Taxi Driver*, *Raging Bull*, *GoodFellas*, *Gangs of New York*, *Hugo*, and *The Irishman*. Others take a broader approach and discuss the representation of violence, ethnicity, religion, sexuality, gender, race, and other themes across his work. With insights that will interest film scholars as well as movie enthusiasts, this is an important contribution to the scholarship of contemporary American cinema.

Contemporary Film Theory Antony Easthope,2014-07-22 During the twentieth century the medium of film has developed as a means of understanding the complexity of modern life Since 1968 film theory has concentrated not so much on theme or content but on the deeper question of how the medium works on its viewer Film theory has been profoundly influenced by the writings of such modern thinkers as Saussure Freud Lacan Anthusser Derrida and Kristeva It combines modes of textual analysis relating to linguistics and semiology a Marxist reading of ideology and theories of subjectivity the spectator and gender redefined by psychoanalysis This judicious selection from key work by Stephen Heath Fredric Jameson Laura Mulvey Mary Ann Doanne and others represents some of the most important contemporary writing about film It provides a consistent and developing analysis that will be of interest to students concerned with film and film studies as well as students of cultural media and communication studies
