Alien Main T. L. Sherred, Lloyd Biggle, 1985-01-01 Fifty years after the nearly total annihilation of Earth by war and disease three agents of the galactic federation set out to reopen contact with the closed world and reestablish trade with the planet's shattered civilization

St. James Guide to Science Fiction Writers Jay P. Pederson, 1996 Concise discussions of the lives and principal works of prominent science fiction authors written by subject experts

Aliens George Edgar Slusser, 1987 How and when does there come to be an anthropology of the alien This set of essays written for the eighth J Lloyd Eaton Conference on Fantasy and Science Fiction is concerned with the significance of that question Anthropology is the science that must designate the alien if it is to redefine a place for itself in the universe according to the Introduction The idea of the alien is not new In the Renaissance Montaigne's purpose in describing an alien encounter was expropriation man kind was the savage because the artificial devices of nature controlled him Shakespeare's version of the alien encounter was in incorporation his character of Caliban is brought to the artificial political world of man and incorporated into the body politic The essays in this volume show in their general orientation that the tribe of Shakespeare still in literary studies at least outnumbers that of Montaigne These essays show the interrelation of the expropriating possibilities to the internal soundings of the alien encounter within the human mind and form This book is divided into three parts Searchings The Quest for the Alien includes The Aliens in Our Mind by Larry Niven Effing the Ineffable by Gregory Benford Border Patrols by Michael Beehler Alien Aliens by Pascal Ducommun and Metamorphoses of the Dragon by George E Slusser Sightings The Aliens among Us includes Discriminating among Friends by John Huntington Sex Superman Sociobiology by Joseph D Miller Cowboys and Telepaths by Eric S Rabkin Robots by Noel Perrin Aliens in the Supermarket by George R Guffey and Aliens R U S by Zoe Sofia Soundings Man as the Alien includes H G Wells Familiar Aliens by John R Reed Inspiration and Possession by Clayton Koelb Cybernauts in Cyberspace by David Porush The Human Alien by Leighton Brett Cooke From Astarte to Barbie by Frank McConnell and An Indication of Monsters by Colin Greenland

Styles of Creation George Edgar Slusser, Eric S. Rabkin, 1992 The impetus behind this collection of original essays is the tension between the aesthetic emphasis on stylistics in science fiction and fantasy writing and the critical limitations imposed by prevailing literary theory From a variety of perspectives the contributors show how a new or expanded set of methods and models can enrich critical exchange within the genre and between it and other types of fiction The focus of the book is not entirely on critical restraints but also on the genre's robustly subversive creative drive its unwillingness or inability to pause for critical validation The essays examine the proliferation of stylistic acts and experiments in science fiction and fantasy writing as assess the genre's revolutionary qualities its reordering of narrative priorities inversion of consecrated categories and elevation of minor devices

Alien

Zone II Annette Kuhn, 1999-12-17 *Alien Zone II* presents some of the exciting new voices in the current debates. It continues to pursue the critical and theoretical issues opened up in the earlier book and energetically explores fresh territory. World Wrecker Richard W. Gombert, 2009-10-01 Known as the World Wrecker for his galaxy smashing space operas Edmond Hamilton wrote intelligent exciting and readable science fiction for over 40 years. This first major bibliography of his work covers his enormous output and numerous reprint editions. All students of Hamilton and all major libraries will want a copy of this bibliographical labor of love. **A Reference Guide for English Studies** Michael J. Marcuse, 1990-01-01 This ambitious undertaking is designed to acquaint students teachers and researchers with reference sources in any branch of English studies which Marcuse defines as all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature. Within each of 24 major sections Marcuse lists and annotates bibliographies guides reviews of research encyclopedias dictionaries journals and reference histories. The annotations and various indexes are models of clarity and usefulness and cross references are liberally supplied where appropriate. Although cost conscious librarians will probably consider the several other excellent literary bibliographies in print such as James L. Harner's *Literary Research Guide* Modern Language Assn of America 1989 larger academic libraries will want Marcuse's volume. *Jack Bales* Mary Washington Coll Lib Fredericksburg Va Library Journal. Brian Aldiss Michael R. Collings, 1986-01-01 A guide to Aldiss's fictional output from the 50s to the 80s. The Cumulative Book Index, 1986 A world list of books in the English language. **The Oxford Handbook of Millennialism** Catherine Wessinger, 2016-07 Seventh Day Adventists Melanesian cargo cults David Koresh's Branch Davidians and the Raelian UFO religion would seem to have little in common. What these groups share however is a millennial orientation the audacious human hope for a collective salvation which may be either heavenly or earthly. The Oxford Handbook of Millennialism offers readers an in depth look at both the theoretical underpinnings of the study of millennialism and its many manifestations across history and cultures. *Galileo*, 1978. *Meanings of Ripley* Elizabeth Graham, 2020-05-22 Ellen Ripley of the Alien Quadrilogy has become an iconic female figure in the male dominated genre of science fiction action horror since her first appearance in 1979. This collection offers readers varied interpretations of Ripley that are grounded in the social context and theoretical perspectives that were dominant prior to and during the time the films were released. Specifically the rise of Second Wave Feminism and the backlash against it provides a backdrop for this collection. Is Ripley a feminist hero? A patriarchal woman and mother? Does she embody de Beauvoir's myth of the feminine? Does she exhibit sexual agency? Does she offer us a glimpse of individual autonomy that moves away from dichotomous gender roles? These are the primary questions explored in this collection. While the focus is clearly on Ripley the arguments go beyond the confines of the films by examining the relationship between the individual and society in which both are product and producer of the other and illustrate that social artifacts such as film can provide insights into the lived experiences of our world. The contributors come from a variety of

backgrounds including Literature Cinema Studies Gender and Women s Studies Philosophy Sociology Theatre History and reside in Canada and the United States They represent a range from junior to senior scholars While science fiction is clearly an interest of all these individuals it is not the primary area of research for most of them By bringing voices from multiple disciplines into the discussion about Ripley this collection offers readers perspectives that deviate from and yet complement the current trend in film criticism and thus contributes to opening up discussions about such characters and the genre to a wider audience Library Journal, 1991 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately Dictionary of Literary Biography Yearbook, 1992 George Garrett, 1993 Updates entries already published and supplements the Dictionary of Literary Biography series with entries on newly prominent writers *If the Universe Is Teeming with Aliens ... WHERE IS EVERYBODY?* Stephen Webb, 2015-05-18 Given the fact that there are perhaps 400 billion stars in our Galaxy alone and perhaps 400 billion galaxies in the Universe it stands to reason that somewhere out there in the 14 billion year old cosmos there is or once was a civilization at least as advanced as our own The sheer enormity of the numbers almost demands that we accept the truth of this hypothesis Why then have we encountered no evidence no messages no artifacts of these extraterrestrials In this second significantly revised and expanded edition of his widely popular book Webb discusses in detail the for now 75 most cogent and intriguing solutions to Fermi s famous paradox If the numbers strongly point to the existence of extraterrestrial civilizations why have we found no evidence of them Reviews from the first edition Amidst the plethora of books that treat the possibility of extraterrestrial intelligence this one by Webb is outstanding Each solution is presented in a very logical interesting thorough manner with accompanying explanations and notes that the intelligent layperson can understand Webb digs into the issues by considering a very broad set of in depth solutions that he addresses through an interesting and challenging mode of presentation that stretches the mind An excellent book for anyone who has ever asked Are we alone W E Howard III Choice March 2003 Fifty ideas are presented that reveal a clearly reasoned examination of what is known as The Fermi Paradox For anyone who enjoys a good detective story or using their thinking faculties and stretching the imagination to the limits Where is everybody will be enormously informative and entertaining Read this book and whatever your views are about life elsewhere in the Universe your appreciation for how special life is here on Earth will be enhanced A worthy addition to any personal library Philip Bridle BBC Radio March 2003 Since gaining a BSc in physics from the University of Bristol and a PhD in theoretical physics from the University of Manchester Stephen Webb has worked in a variety of universities in the UK He is a regular contributor to the Yearbook of Astronomy series and has published an undergraduate textbook on distance determination in astronomy and cosmology as well as several popular science books His interest in the Fermi paradox combines lifelong interests in both science and science fiction *Freakery* Rosemarie Garland-Thomson, 1996-10 A groundbreaking anthology that probes the disposition towards the visually different Giants

Midgets Tribal non Westerners The very fat The very thin Hermaphrodites Conjoined twins The disabled The very hirsute In American history all have shared the platform equally as freaks human oddities their only commonality their assigned role of anomalous other to the gathered throngs For the price of a ticket freak shows offered spectators an icon of bodily otherness whose difference from them secured their own membership in a common American identity by comparison ordinary tractable normal Rosemarie Thomson's groundbreaking anthology probes America's disposition toward the visually different The book's essays fall into four main categories historical explorations of American freak shows in the era of P T Barnum the articulation of the freak in literary and textual discourses contemporary relocations of freak shows and theoretical analyses of freak culture Essays address such diverse topics as American colonialism and public presentations of natives laughing gas demonstrations in the 1840's Shirley Temple and Tom Thumb Todd Browning's landmark movie Freaks bodybuilders as postmodern freaks freaks in Star Trek Michael Jackson's identification with the Elephant Man and the modern talk show as a reconfiguration of the freak show In her introduction Thomson traces the freak show from antiquity to the modern period and explores the constitutive political and textual properties of such exhibits Freakery is a fresh insightful exploration of a heretofore neglected aspect of American mass culture

The Seven Beauties of Science Fiction Istvan

Csicsery-Ronay, 2012-10-01 This major critical work from one of the preeminent voices in science fiction scholarship reframes the genre as a way of understanding today's world As the application of technoscience increasingly transforms every aspect of life science fiction has become an essential mode of imagining the horizons of possibility Though the broad scope of science fiction may vary in artistic quality and sophistication it shares a desire to imagine a collective future for the human species and the world A strikingly high proportion of today's films commercial art popular music video games and non genre fiction are what Csicsery Ronay calls science fictional stimulating science fictional habits of mind We no longer treat science fiction as merely a genre engine producing formulaic effects but as a mode of awareness which frames experiences as if they were aspects of science fiction The Seven Beauties of Science Fiction describes science fiction as a constellation of seven diverse cognitive attractions that are particularly formative of science fictionality These are the seven beauties of the title fictive neology fictive novums future history imaginary science the science fictional sublime the science fictional grotesque and the Technologiade or the epic of technoscience's development into a global regime

Societies in Space Gary

Westfahl, 2024-08-29 Science fiction films and television programs about space travel have undergone a significant transformation since their inception In contrast to the early depictions of small spaceship crews on exploratory missions recent film and television portrayals depict much larger societies in space as well as the obstacles that arise with them This collection of essays examines many aspects of making space travel films from the process of screenwriting to the impact of Greek myth on modern film with illuminating commentary on contemporary problems including class distinction racism and sexism Contributors to this volume including several extensively published scholars and science fiction writers analyze a

wide variety of relevant science fiction films and television programs ranging from Star Trek Silent Running the Alien films and Japanese anime to more recent works like Battlestar Galactica Avatar Elysium The Martian Passengers and Ad Astra
