Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day, including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate. Additionally, the Encyclopedia includes some 200 essays treating the development of national, regional and topical historiographies from the Ancient Near East to the history of sexuality. In addition to the Western tradition, it includes substantial assessments of African, Asian and Latin American historians and debates on gender and subaltern studies.

*Raymond Williams and Education* Ian Menter, 2023-07-27 Raymond Williams's major contributions to intellectual progress are usually categorised within cultural theory, media studies or neo-Marxist studies. Serious analysis of his contributions to education as a field of practice as well as a field of study have been relatively neglected. This is the first book to redress that omission, focusing on how his writing and thought have helped us to understand education in Britain and also provide analytical tools that have helped to shape educational studies in the USA and internationally. Ian Menter draws on Williams's several novels, including *Border Country*, as well as on his seminal contributions to cultural theory, including *Culture and Society*, *The Long Revolution*, *Keywords* and *Marxism and Literature*. Menter also examines how Williams's life shaped his understanding of education, including his early involvement in adult education and his deeply ambivalent relationship with the academy. Public education is positioned as a key arena of social struggle where decisions shaping the nature of our futures are crucial to creating a democratic and just society. The book includes a foreword by Michael Apple, who is John Boscom Professor Emeritus of Curriculum and Instruction at the University of Wisconsin-Madison, USA, which makes reference to the importance of Williams's work in relation to education in the USA.
