Alien Tatters:

Alien Tatters Clark Coolidge, 2000 Prose Poetry ALIEN TATTERS is a series of prose poem meditations in response to someone's sightings of UFOs and encounters with aliens The writer has been is being abducted The writings are the situation s tatters its tatterings Inevitably funny except perhaps to the true believer the work is also sad and scary Lights came My god blobs A sneaky little rill Bought them a box of shoes made of chocolate Small silver wire challenge kit The Frenchman walks off into the noise with his girl From the bottom of the craft enough darkness to fill replace all our missing nights The Science Fiction of Poetics and the Avant-Garde Imagination Michael Golston, 2023-11-19 How the tropes of science fiction infuse and inform avant garde poetics and many other kindred arts This insightful playful monograph from Golston does exactly what it advertises modeling poetics based on how poetry and some parallel artistic endeavors has filtered through a century plus of science fiction This is not a book about science fiction in and of itself but it is a book about the resonances of science fiction tropes and ideas in poetic language The germ of Golston's project is a throwaway line in Robert Smithson's Entropy and the New Monuments about how cinema supplanted nature as inspiration for many of his fellow artists The movies give a ritual pattern to the lives of many artists and this induces a kind of low budget mysticism which keeps them in a perpetual trance Golston charts how the demotic appeal of sci fi much like that of the B movie cross pollinated into poetry and other branches of the avant garde Golston creates what he calls a regular Rube Goldberg machine of a critical apparatus drawing on Walter Benjamin Roman Jakobson and Gilles Deleuze He starts by acknowledging that per the important work of Darko Suvin to situate science fiction critically the genre is premised on cognitive estrangement But he is not interested in the specific nuts and bolts of science fiction as it exists but rather how science fiction has created a model not only for other poets but also for musicians and landscape artists Golston's critical lens moves around quite a bit but he begins with familiar enough subjects Edgar Rice Burroughs Mina Loy William S Burroughs From there he moves into more alien terrain Ed Dorn's long poem Gunslinger the discombobulated work of Clark Coolidge Sun Ra Ornette Coleman and Jimi Hendrix all come under consideration The result of Golston's restless rich scholarship is the first substantial monograph on science fiction and avant garde poetics using Russian Formalism Frankfurt School dialectics and Deleuzian theory to show how the avant garde inherently follows the parameters of sci fi in both theme and form *Mine* Clark Coolidge, 1982 Poetry A reprint of this 1982 book of prose poetry by the nearly legendary avant garde stalwart Clark Coolidge still exudes freshness A long time master of the jazzy long work Clark Coolidge has this time turned the long poem in prose into a non fiction novel or tomb full of buried things taken with you of the new existence of old logic and present looking all sung by a free man working alone and trapped as one is in cave with finite supply of oxygen food breath luck Bernadette Mayer on MINE Coolidge's many other titles available from SPD include ALIEN TATTERS WAY OUT WEST ON THE NAMEWAYS and ON THE NAMEWAYS VOL 2

Syncopations Jed Rasula, 2004-05-18 An analysis of the sustaining vitality behind contemporary American poetry from

1975 to the 2003 these 12 essays examine both exemplary innovators and the social context in which innovation is resisted acclaimed or taken for granted

The Darkness of the Present Steve McCaffery, 2012-11-19 The Darkness of the Present includes essays that collectively investigate the roles of anomaly and anachronism as they work to unsettle commonplace notions of the contemporary in the field of poetics In the eleven essays of The Darkness of the Present poet and critic Steve McCaffery argues that by approaching the past and the present as unified entities the contemporary is made historical at the same time as the historical is made contemporary McCaffery's writings work against the urge to classify works by placing them in standard literary periods or disciplinary partitions Instead McCaffery offers a variety of insights into unusual and ingenious affiliations between poetic works that may have previously seemed distinctive He questions the usual associations of originality and precedence In the process he repositions many texts within genealogies separate from the ones to which they are traditionally assigned The chapters in The Darkness of the Present might seem to present an eclectic fa ade and can certainly be read independently They are linked however by a common preoccupation reflected in the title of the book the anomaly and the anachronism and the way their empirical emergence works to unsettle a steady notion of the contemporary or new

On the Nameways Clark Coolidge, 2000 Poetry I began writing these poems in an empty moment when I thought maybe I'd run out and had no more to do Snap I found lines coming to me on waking in the morning insisting I follow them into odd short poems strange to see indicating what I knew not Eventually I began writing them while watching movies from Hopalong Cassidy Enters to Last Year At Marienbad on satellite TV a practice reminding me of DeKooning drawing with his left hand Guston pen in hand watching the Watergate coverage and of course Kerouac scribing his Blues The point Freedom An overcoming of the obstacles erected by any conceptions of the poem A glee here I hadn't felt since writing the first poems of my own 1965 A casting off into the day's winds feeling light and lit knowing I still have a long way to go a lot more to lose

Preface *Architectures of Poetry*, 2021-09-06 Architectures of Poetry is the first comprehensive accounting of the currently intense dialogue between the sister arts of poetry and architecture Refusing to take either term in a metaphoric sense the eleven essays collected in this volume exemplify an exciting methodological direction for work in the humanities a literal wager that is willing to take the unintended suggestions of language as reality At the same time they also provide close readings of the work of a number of important writers In addition to a suite of essays devoted to the team of Arakawa and Madeline Gins chapters focus on figures as diverse as Francesco Borromini Rainer Maria Rilke Stéphane Mallarmé Friedrich Schlegel John Cage and Lyn Hejinian

Contemporary Poetics Louis Armand, 2007 Exploring the boundaries of one of the most contested fields of literary study a field that in fact shares territory with philology aesthetics cultural theory philosophy and even cybernetics this volume gathers a body of critical writings that taken together broadly delineate a possible poetics of the contemporary In these essays the most interesting and distinguished theorists in the field renegotiate the contours of what might constitute contemporary poetics ranging from the historical advent of concrete poetry to the

current technopoetics of cyberspace Concerned with a poetics that extends beyond our own time as a mere marker of present day literary activity their work addresses the limits of a writing practice beginning with Stéphane Mallarmé in the late nineteenth century that engages concretely with what it means to be contemporary Charles Bernstein's Swiftian satire of generative poetics and the textual apparatus together with Marjorie Perloff's critical historical treatment of writing after Bernstein and other proponents of language poetry provides an itinerary of contemporary poetics in terms of both theory and practice The other essays consider precursors recognizable figures within the histories or prehistories of contemporary poetics from Kafka and Joyce to Wallace Stevens and Kathy Acker conjunctions in which more strictly theoretical and poetical texts enact a concerted engagement with rhetoric prosody and the vicissitudes of intelligibility cursors which points to the open possibilities of invention from Augusto de Campos's concrete poetics to the codework of Alan Sondheim and transpositions defining the limits of poetic invention by way of technology

Alien Intrusion Gary Bates,2004 Most people at one time or another have probably been curious to know What could account for all of those strange objects in the sky that many credible witnesses see Or what about the modern mystery of alien abductions and stories of visitations by beings claiming to be from other planets or star systems Are aliens really making contact with human beings Is it important anyway At last an easy to understand book traces the history of this strange phenomenon utilizing the research of many of the heavyweights of UFOlogy and it's been making sense to a lot of people This is a book for everyone The author's research and conclusions will surprise you and challenge your thinking not just about UFOs but about the nature of life itself This is a landmark volume that brings together the most important evidences coming to conclusions far more sinister yet profound than most could imagine Publisher *Thomas Edward Brown* Arthur Quiller-Couch,2014-08 Originally published in 1930 this book contains recollections from the friends of the Manx poet and theologian Thomas Edward Brown on the occasion of the centenary of his birth The volume includes a preface from the then Lieutenant Governor of the Isle of Man Sir Claude Hill as well as some unpublished letters written by Browne and a brief biography written by Sir Arthur Quiller Couch This book will be of value to anyone with an interest in Manx literature and the history of Manx thought
