Matthew Naughtin provides a practical guide for the professional musician who works with ballet companies whether as a full time staff member or as an independent contractor In this comprehensive work he addresses the daily routine of the modern ballet company outlines the respective roles of the conductor company pianist and music librarian and their necessary collaboration with choreographers and ballet masters and examines the complete process of putting a dance performance on stage from selection or existing music to commissioning original scores to staging the final production Because ballet companies routinely revise the great ballets to fit the needs of their staff and stage audience and orchestra ballet repertoire is a tangled web for the uninitiated At the core of *Ballet Music A Handbook* lies an extensive listing of classic ballets in the standard repertoire with information on their history versions revisions instrumentation score publishers and other sources for tracking down both the original music and subsequent musical additions and adaptations *Ballet Music A Handbook* is an invaluable resource for conductors pianists and music librarians as well as any student scholar or fan of the ballet interested in the complex machinery that works backstage before the curtain goes up
