

Bakunin The Father Of Anarchism

James Goodwin

Bakunin The Father Of Anarchism:

Bakunin, the Father of Anarchism Anthony Masters, 1974 Bakunin was gay John O'Brien **Mikhail Bakunin** Paul McLaughlin, 2002 McLaughlin is concerned not so much with an explication of Bakunin's anarchist position as such as with the basic philosophy which underpins it. He focuses on two central components: a negative dialectic or revolutionary logic and a naturalist ontology: a naturalistic account of the structure of being or reality. Bakunin scholarship, he notes, falls into two camps: Marxist and liberal. Both, he says, tend to be hostile. McLaughlin discredits one by one the analyses published usually as part of a work on Marx et al. by Francis Wheen: schoolboy wit, idiocy of tone, poverty of content. George Lichtheim completely misreads Bakunin and Oxbridge scholar Aileen Kelly's personality assassination is perverse, slanderous while upholding Eric Voegelin. Perhaps this book will spark a small revolution of its own. Scholars interested in Bakunin have had few resources available in English and none of them until now presented a credible study of the man's philosophy. Karl Marx and the Anarchists Paul Thomas, 1985 Karl Marx and the Anarchists examines Marx's disputes with the anarchist theoreticians he encountered at various stages of his career as a revolutionist. Marx's attacks on Stirner, Proudhon and Bakunin are shown to be of vital importance to the understanding not only of the subsequent enmity between Marxists and anarchists but also of Marx's own interpretation of revolutionary politics. **Karl Marx and the Anarchists Library Editions: Political Science Volume 60** Paul Thomas, 2013-04-15 This study examines Marx's disputes with and attacks upon those anarchist theoreticians he encountered at various stages of his career. Marx's attacks on Stirner, Proudhon and Bakunin are shown to be of vital importance to his career as a theorist and revolutionist. The formative influences upon Marx's writings and his political activity are discussed and analyzed. The author re-situates Marx's thought in the context of the 19th century when Marxism was not an unchallenged orthodoxy but a doctrine and method that needed to be defended against rival revolutionary impulses. **Anarchists of Andalusia, 1868-1903** Temma Kaplan, 2015-03-08 Andalusian anarchism was a grassroots movement of peasants and workers that flourished in Cádiz Province, the richest sherry-producing area in the world from about 1868 to 1903. This study focuses on the social and economic context of the movement and argues that traditional interpretations of anarchism as irrational, spontaneous or millenarian are not justified. The extensive archival research undertaken for this book leads Temma Kaplan to a major reinterpretation of the nature of anarchism. Using the police reports in local archives to reconstruct the lives of more than three hundred rank and file anarchists, Temma Kaplan shows that the Andalusian movement was highly organized and dedicated to defending the interests of workers and peasants through a wide variety of organizations. These included trade unions, workers' circles and women's societies, all of which favored general strikes and insurrections rather than terrorism. Originally published in 1977, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting

them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Philosophers and Religious Leaders Christian von Dehsen,2013-09-13 Philosophers and Religious Leaders provides a synopsis of the lives and legacies of 200 men and women from the areas of religion and philosophy who have changed the world These individuals have developed extended or exemplified ideas fundamental to the way human beings perceive the meaning and purpose of their own lives and of their societies Some have challenged prevailing convictions and worked for immediate change during their lifetimes others have proposed new modes of thinking that have flourished only after their passing

Bakunin Mark Leier,2011-01-04 The spellbinding story of both the man and the theory Bakunin chronicles one of the most notorious radicals in history Mikhail Bakunin the founder of anarchism here revealed as a practical moral philosophy rooted in a critique of wealth and power Mark Leier corrects many of the popular misconceptions about Bakunin and his ideas offering a fresh interpretation of his life and thoughts Bakunin is an insightful read for all those who wish to better understand the fundamental basis of modern radical movements

Nationalism and the International Labor Movement Michael Forman,2007-06-05 The resurgence of nationalism accompanying the decline of Communism has been taken to indicate the failure of socialist theory to grasp the nature of this phenomenon Against both those who argue that the radical tradition has ignored and underestimated nationalism and those who accuse it of economic reductionism this careful analysis of the idea of the nation as it was developed in the work of the major thinkers of the international labor movement reveals evidence of how seriously they grappled with nationalism Each of the main sections of the book focuses on the most influential theorists of the international labor movement as it became organized and grew Bakunin Marx and Engels and the concern of the First International 1864 Lenin Luxemburg and Bauer and the preoccupation of the Second International 1889 1914 with socialism in ethnically plural societies Stalin and Gramsci in relation to the substitution by the Third International 1919 1943 of nation building and national liberation for the old class project In the conclusion the author examines the relationships among ethnic and civic nationality national self determination republican institutions and the process of globalization from the perspective of the post Soviet era and in the light of social theory and Kant s ideas about cosmopolitan right

Political Economy from Below Rob Knowles,2017-07-05 Communitarian anarchism is a generic form of socialism that denies the need for a state or any other authority over the individual from above and which requires absolute belief that the individual cannot exist outside of a community of others This book suggests that the communitarian anarchists of the nineteenth century developed and articulated a distinct tradition of economic thought The period of this study begins with the first major writing of the French communitarian anarchist Pierre Joseph Proudhon in 1840 and ends with the temporary burial of anarchist theorizing at the beginning of the First World War in 1914 However the tradition of communitarian anarchist economic thought did not end in 1914 The economic thought explored in this book provides a fresh perception of

the fragmentation evident in many societies today especially where there is a substantial informal economy

Confronting Dostoevsky's Demons James Goodwin, 2010 Although criticized at one time for its highly tendentious spirit Dostoevsky's Demons 1871 1872 has proven to be a novel of great polemical vitality Originally inspired by a minor conspiratorial episode of the late 1860s well after Dostoevsky's death 1881 the work continued to earn both acclaim and contempt for its scathing caricature of revolutionists driven by destructive anarchic aims The text of Demons assumed new meaning in Russian literary culture following the Bolshevik triumph of 1917 when the reestablishment and expansion of centralized state power inevitably revived interest in the radical populist tendencies of Russia's past in particular the anarchist thought of Dostoevsky's legendary contemporary Mikhail Bakunin 1814 1876 Confronting Dostoevsky's Demons is the first book to explore the life of Dostoevsky's novel in light of disputes and controversies over Bakunin's troubling legacy in Russia Contrary to the traditional view which assumes the obsolescence of Demons throughout much of the Communist period 1917 1991 this book demonstrates that the potential resurgence of Bakuninist thought actually encouraged reassessments of Dostoevsky's novel By exploring the different ideas and critical strategies that motivated opposing interpretations of the novel in post-revolutionary Russia Confronting Dostoevsky's Demons reveals how the potential resurrection of Bakunin's anti-authoritarian ethos fostered the return of a politically reactionary novel to the canon of Russian classics

God and the State Mikhail Bakunin, 2021-01-08 God and the State called by its author The Historical Sophisms of the Doctrinaire School of Communism is an unfinished manuscript by the Russian anarchist philosopher Mikhail Bakunin published posthumously in 1882 The work criticises Christianity and the then burgeoning technocracy movement from a materialist anarchist and individualist perspective It has gone on to become Bakunin's most widely read and praised work

Anarchism A.M. Buckley, 2011-01-01 This title examines anarchism in world history from the writings of Greek philosophers through the Age of Enlightenment the Spanish civil war World Wars I and II to today Influences such as Howard Zinn Murray Bookchin Jean Jacques Rousseau Denis Diderot Gustav Landauer are examined Notable leaders of the movement such as Pierre Joseph Proudhon Mikhail Bakunin Peter Kropotkin Francisco Ferrer Emma Goldman Max Stirner and Nestor Makhno are introduced as are prominent authors such as Richard Sonn Alexander Berkman Herbert Read and Guy Debord Important institutions such as the International Working Men's Association Institute for Social Ecology Second Socialist International Ferrer Center and Modern School and Situationist International are also introduced Important events such as the Paris Commune Haymarket Square riots and the trial of Nicola Sacco and Bartolomeo Vanzetti are covered Exploring World Governments is a series in Essential Library an imprint of ABDO Publishing Company

Anarchist Portraits Paul Avrich, 2020-11-10 From the celebrated Russian intellectuals Michael Bakunin and Peter Kropotkin to the little known Australian bootmaker and radical speaker J W Fleming this book probes the lives and personalities of representative anarchists

Myth of the Nation and Vision of Revolution Ignaz Goldziher, 2017-09-29 In what may well rank as the finest political and intellectual history of the

twentieth century the late J L Talmon explores the origins of the schism within European society between the totalitarians of Right and Left as well as the split between an acceptance of the historical national community as the natural political and social framework and the vision of a socialist society achieved by a universal revolutionary breakthrough This the third and final volume of Talmon s history of the modern world brings to bear the resources of his incisive scholarship to examine the workings of the ironies of totalitarianism as well as the resources of democracy Karl Marx's Theory of Revolution Vol IV Hal Draper,1990 Much of Karl Marx s most important work came out of his critique of other thinkers including many socialists who differed significantly in their conceptions of socialism The fourth volume in Hal Draper s series looks at these critiques to illuminate what Marx s socialism was as well as what it was not Some of these debates are well known elements in Marx s work such as his writings on the anarchists Proudhon and Bakunin Others are less familiar such as the writings on Bismarckian socialism and Boulangism but promise to become better known and understood with Draper s exposition He also discusses the more general ideological tendencies of utopian and sentimental socialisms which took various forms and were ingredients in many different socialist movements Aesthetics and Radical Politics Gavin Grindon,2008-12-18 There has always been a strong connection historically between aesthetics and radical politics and this is no less true for the global justice movement s current preoccupation with cultural approaches to political action The essays collected here seek to engage with past and present convergences between the theories and practices of artists and writers and the theories and practices of movements for radical social change There is already a massive amount of literature on Marxist approaches to aesthetics art and literature and whilst recognising the usefulness of such approaches the essays collected here attempt to engage with culture from other radical critical positions whether they be anarchist autonomist ecological or otherwise Such perspectives have often been overlooked historically but it is arguable that they now more centrally influence the activities of radical artists and activists As such the perspectives of these essays which are often drawn from or inspired by the practices of the current global justice movement exhibit an exhilarating political and generational break with the suppositions of earlier radical theoretical approaches to cultural critique Toward a United States of Russia Dimitri Sergius Von Mohrenschildt,1981 A comprehensive survey of the federal regional trend in nineteenth century Russian political and social thought and action The author shows conclusively that the decentralizing federal democratic trend in the nineteenth century was stronger than is generally realized A World to Win Sven-Eric Liedman,2018-05-01 Epic new biography of Karl Marx for the 200th anniversary of his birth In this essential new biography the first to give equal weight to both the work and life of Karl Marx Sven Eric Liedman expertly navigates the imposing complex personality of his subject through the turbulent passages of global history A World to Win follows Marx through childhood and student days a difficult and sometimes tragic family life his far sighted journalism and his enduring friendship and intellectual partnership with Friedrich Engels Building on the work of previous biographers Liedman employs a commanding knowledge of the nineteenth century to create a

definitive portrait of Marx and his vast contribution to the way the world understands itself He shines a light on Marx's influences explains his political and intellectual interventions and builds on the legacy of his thought Liedman shows how Marx's masterpiece Capital illuminates the essential logic of a system that drives dizzying wealth grinding poverty and awesome technological innovation to this day Compulsively readable and meticulously researched A World to Win demonstrates that two centuries after Marx's birth his work remains the bedrock for any true understanding of our political and economic condition

Karl Marx's Theory of Revolution Hal Draper, 1977 *The Basic Bakunin* Mikhail Aleksandrovich Bakunin, 1992

The three years covered by this anthology represent the only time in Mikhail Bakunin's life when he was able to concentrate on his work and sustain a consistent output of speeches and writings Only one of these texts has appeared before in an unabridged English translation All dating from the period of Bakunin's propaganda on behalf of the First International they thus belong to a period central to Bakunin's anarchism and mark the height of his influence during his lifetime Robert M Cutler's introduction traces the development of selected themes in Bakunin's pre-anarchist thought beginning with his acquaintanceship with German idealist philosophy through his anarchist period In this way it reconstructs Bakunin's concept of the role of the International in the revolutionary movement and provides a new interpretation of his theory and practice of revolutionary organization The chronology and annotated bibliography make this collection an ideal introduction to Bakunin and a useful reference work for specialists
