Tepper, 1992 *Resources in Education* ,1998 *Bowker's Law Books and Serials in Print* 1993 Bowker Editorial Staff, 1993-02 The New Walford Ray Lester, 2005 Covers 15 broad subject groupings social sciences generic psychology sociology social work politics government law finance accountancy industries business education sport media information and tools for information professionals **EU Competition Law, Data Protection and Online Platforms: Data as Essential Facility** Inge Graef, 2016-10-17 All are agreed that the digital economy contributes to a dynamic evolution of markets and competition Nonetheless concerns are increasingly raised about the market dominance of a few key players Because these companies hold the power to drive rivals out of business regulators have begun to seek scope for competition enforcement in cases where companies claim that withholding data is needed to satisfy customers and cut costs This book is the first focus on how competition law enforcement tools can be applied to refusals of dominant firms to give access data on online platforms such as search engines social networks and e commerce platforms commonly referred to as the gatekeepers of the Internet The question arises whether the denial of a dominant firm to grant competitors access to its data could constitute a refusal to deal and lead to competition law liability under the so called essential facilities doctrine according to which firms need access to shared knowledge in order to be able to compete A possible duty to share data with rivals also brings to the forefront the interaction of competition law with data protection legislation considering that the required information may include personal data of individuals Building on the refusal to deal concept and using a multidisciplinary approach the analysis covers such issues and

topics as the following data portability interoperability data as a competitive advantage or entry barrier in digital markets market definition and dominance with respect to data disruptive versus sustaining innovation role of intellectual property regimes economic trade off in essential facilities cases relationship of competition enforcement with data protection law and data related competition concerns in merger cases The author draws on a wealth of relevant material including EU and US decision making practice case law and policy documents as well as economic and empirical literature on the link between competition and innovation The book concludes with a proposed framework for the application of the essential facilities doctrine to potential forms of abuse of dominance relating to data In addition it makes suggestions as to how data protection interests can be integrated into competition policy An invaluable contribution to ongoing academic and policy discussions about how data related competition concerns should be addressed under competition law the analysis clearly demonstrates how existing competition tools for market definition and assessment of dominance can be applied to online platforms It will be of immeasurable value to the many jurists business persons and academics concerned with this very timely subject

Subject Guide to Books in Print, 1996 Enabling Deep Negative Rates to Fight Recessions: A Guide Ruchir Agarwal, Miles Kimball, 2019-04-29 The experience of the Great Recession and its aftermath revealed that a lower bound on interest rates can be a serious obstacle for fighting recessions However the zero lower bound is not a law of nature it is a policy choice The central message of this paper is that with readily available tools a central bank can enable deep negative rates whenever needed thus maintaining the power of monetary policy in the future to end recessions within a short time This paper demonstrates that a subset of these tools can have a big effect in enabling deep negative rates with administratively small actions on the part of the central bank To that end we i survey approaches to enable deep negative rates discussed in the literature and present new approaches ii establish how a subset of these approaches allows enabling negative rates while remaining at a minimum distance from the current paper currency policy and minimizing the political costs iii discuss why standard transmission mechanisms from interest rates to aggregate demand are likely to remain unchanged in deep negative rate territory and iv present communication tools that central banks can use both now and in the event to facilitate broader political acceptance of negative interest rate policy at the onset of the next serious recession

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1970 **Books in Series, 1876-1949** R.R. Bowker Company, 1982 Selectivity in State Aid Law and the Methods for the Allocation of the Corporate Tax Base Jérôme Monsenego, 2018-06-05 High profile cases before the European Commission and the EU courts have intensified

scrutiny of the link between State aid law and the taxation of multinational enterprises Certain decisions have raised questions about fiscal sovereignty and the interpretation of the rules on State aid in particular the notion of selectivity which have not been addressed in detail by existing research The combination of the evolution of the notion of selectivity in State aid law on the one hand and the need to adapt the rules for the taxation of the profits of multinational enterprises to the modern economy on the other hand makes it necessary to assess whether existing as well as alternative rules for the allocation of the corporate tax base might entail a selective treatment This book responds to the need of research in the area of State aid law applied to the taxation of the income of multinational enterprises focusing on the crucial concept of selectivity The analysis proceeds with a detailed investigation of the theoretical issues that arise when applying the selectivity test in State aid law to three methods for the allocation of the corporate tax base between the members of multinational enterprises the arm's length principle transfer pricing safe harbours and systems of formula apportionment This research project is conducted at a theoretical level without considering national provisions or particular tax treaties The author suggests an analytical framework on the application of the selectivity test to the three allocation methods It is concluded that these methods are likely to have certain selective features with varying possibilities to be justified by the inner logic of a corporate income tax system It is also demonstrated that selectivity occurs for different reasons due to the different rationales of the three allocation methods This book is intended at contributing to the academic literature on the impact of State aid law on the principles for the taxation of the income of multinational enterprises The outcome of this research project is also relevant for lawmakers who need to reconcile the imperatives of State aid law with the design of rules that match their tax policies as well as for judges or lawyers who apply the rules on State aid to tax provisions

Canadiana, 1989 *Routledge Handbook of Socio-Legal Theory and Methods* Naomi Creutzfeldt, Marc Mason, Kirsten McConnachie, 2019-08-13 Drawing on a range of approaches from the social sciences and humanities this handbook explores theoretical and empirical perspectives that address the articulation of law in society and the social character of the rule of law The vast field of socio legal studies provides multiple lenses through which law can be considered Rather than seeking to define the field of socio legal studies this book takes up the experiences of researchers within the field First hand accounts of socio legal research projects allow the reader to engage with diverse theoretical and methodological approaches within this fluid interdisciplinary area The book provides a rich resource for those interested in deepening their understanding of the variety of theories and methods available when law is studied in its broadest social context as well as setting those within the history of the socio legal movement The chapters consider multiple disciplinary lenses including feminism anthropology and sociology as well as a variety of methodologies including narrative visual and spatial psychological economic and epidemiological approaches Moreover these are applied in a range of substantive contexts such as online hate speech environmental law biotechnology research in post conflict situations race and LGBT lawyers The handbook brings together

younger contributors and some of the best known names in the socio legal field It offers a fresh perspective on the past present and future of sociolegal studies that will appeal to students and scholars with relevant interests in a range of subjects including law sociology and politics Chapter 7 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Financial Advice and Investor Protection Booyesen, Sandra, 2021-12-07 This comprehensive book offers a rigorous analysis of the legal debates approaches and practice related issues surrounding financial advice and investor protection Despite widespread recognition of the importance of financial inclusion more broadly construed recent financial crises have highlighted deficits in retail investor protection this book informs the development of robust yet adaptable frameworks to protect investors including effective enforcement and dispute resolution The Role of the Court of Justice in EU Labour Law Silvia Rainone, 2023-05-17 In an unresolved ongoing debate the Court of Justice of the European Union CJEU is often included among the institutional actors responsible for the declining condition of labour law in Europe Has its case law been more protective of employers interests than of workers rights This innovative book greatly enhances the discussion by bringing to light the judicial lawmaking logic other than those pertaining to the balancing of social and business values that drive the CJEU's reasoning in its interpretation of the labour law provisions enshrined in the European Union EU law with particular attention to the directive on transfer of undertakings Addressing fundamental issues such as uneven bargaining power labour as a commodity coexistence of workers rights and the market economy in the context of judicial lawmaking the author clearly defines the tensions at work What normative models underlie the approaches of EU institutional policymakers with respect to labour law Does the CJEU have its own vision of the socioeconomic model to which the Union should adhere How does the CJEU's interpretative approach stand in relation to the transformation processes that regulators impose on labour law Is the CJEU particularly attentive to the preferences expressed by national governments especially those from the most politically influential states or rather reflect the political pressure of the European Commission What is the role of trans judicial dynamics in shaping the CJEU's reasoning in labour law cases The study is extraordinarily thorough drawing on a wide range of policy documents scholarly and doctrinal research and the entire body of the CJEU's case law on transfer of undertakings The legal arguments that the CJEU has developed over the years are mapped and classified according to their affinity with the labour law functions that underlie them With its comprehensive assessment of the normative implications of EU policymaking in the labour and social domains its thorough exploration of the CJEU's judicial lawmaking dynamics and its extensive empirical legal analysis of the CJEU's case law on transfer of undertakings the book has no peers in revealing the forces that guide the CJEU's decisions in the realm of labour law Of particular value to scholars and researchers interested in EU social policies and constitutional law the book will also prove of immeasurable value to labour law practitioners aiming to use the case law of the CJEU as well as to in house counsel industrial relation specialists and trade unionists The Legal
