A History of the Mediterranean Air War, 1940-1945, Volume 5

Christopher Shores, Giovanni Massimello, Russell Guest, Frank Olynyk, Winfried Bock, Andrew Thomas, 2021-12-03 This international collaboration between air war historians is simply fantastic a deep dive on the operations in a vast and very important theater of war Air Classics During the final year of World War II the defending Axis forces were steadily driven from southern skies by burgeoning Anglo American power This was despite the steady withdrawal of units to more demanding areas This fifth volume of the series describes in detail the activities of the Allied tactical air forces in support of the armies on the ground as their opponents were steadily extracted from northern Italy and the Balkans for the final defense of the central European homeland The book commences with coverage of the final fierce air sea battles over the Aegean that preceded the advance northward to Rome and the ill conceived British attempt to secure the Dodecanese islands following the armistice with Italy The authors also deal fully and comprehensively with the advance northward following the occupation of Rome and the departure of forces to support the invasion of France from the Riviera coast coupled with the formation of a new Balkan Air Force in eastern Italy to pursue the German armies withdrawing from Yugoslavia and take possession of newly freed Greece The effect of the creation within the same area of the US and RAF strategic forces to join the Allied Combined Bombing Offensive is also discussed Includes photographs Reflects the scope of a remarkable research effort and provides valuable detail that the reader is not going to find between two covers elsewhere The NYMAS Review

Flying Magazine, 1975-10

Terrorism Donald J. Hanle, 2006 Part of the problem of dealing with terrorism is in its definition it is often depicted as something new and totally alien a phantom enemy that cannot be understood But by employing a sophisticated analysis soundly based on an encyclopedic knowledge of military history Donald J Hanle shows that three major forms of terrorism Military Revolutionary and State Sponsored qualify as the newest forms of war The author s in depth investigation reveals that these kinds of terrorists operate in the same basic manner as military forces employed in traditional warfare and have the same basic capabilities and weaknesses He argues convincingly that countermeasures against these types of terrorist organizations should be based upon classical principles of war and combat and suggests countervailing strategies Terrorism The Newest Face of Warfare is a starting point for a sensible and coherent counterterrorism strategy one that enlists a valuable but heretofore neglected Western arsenal the study of military history in the battle against terrorism

A History of the Mediterranean Air War, 1940-1945. Volume 2

Christopher Shores, Giovanni Massimello, Russell Guest, Frank Olynyk, Winfried Bock, 2014-07-19 This second volume in the seminal series on aerial combat pilots and tactics in Libya and Egypt in the middle of World War II In volume two of this series historian Christopher Shores begins by exploring the 8th Army s movements after Operation Crusader when they were forced back to the Gazala area in northeastern Libya as well as their defeat in June 1942 the loss of Tobruk and the efforts of Allied air

forces to protect their retreating troops Shores continues with the heavy fighting that followed in the El Alamein region This features the Western Desert Air Force and the arrival of the first Spitfires The buildup of both army and air forces and the addition of new commanders on the ground aided the defeat of Rommel s Deutsche Afrika Korps at Alam el Halfa after which came the Second Battle of El Alamein With the arrival of the United States Army Air Force the Allied air forces gained dominance over the Axis Shores recounts the lengthy pursuit of the Italo German forces right across Libya including the capture of Tripoli and the breakthrough into Southern Tunisia This allowed a linkup with other Allied forces in Tunisia whose story appears in Volume 3 Included with the action are stories of some of the great fighter aces of the Desert campaign such as Jochen Marseille and Otto Schulz of the Luftwaffe Franco Bordoni Bisleri of the Regia Aeronautica and Neville Duke Billy Drake and Eddie Edwards of the Commonwealth air forces Finally Shores touches on the Allied and Axis night bombing offensives and the activities of the squadrons cooperating with the naval forces in the Mediterranean

BLANKETS OF FIRE WERRELL KENNETH P,1996-04-17 When the focus of World War II shifted to the Pacific in 1944 the Army Air Forces AAF equipped with the new longer range B 29 bomber tried to shift strategic bombing tactics as well Blankets of Fire describes the adjustments necessary to target Japan and places them in the context of overall AAF and wartime strategy 58 photos

A History of the Mediterranean Air War, 1940-1945 Christopher Shores,Russell Guest,2025-09-30 In 1943 Allied bombers from Italy launched strategic attacks on Axis oil fields factories and Danube supply routes Following the inter Allied Casablanca Conference in January 1943 the outline for the Combined Bomber Offensive was agreed and resulted in early February with the Casablanca Directive This required the progressive destruction and dislocation of the German military industrial and economic systems and the undermining of the morale of the German people to a point where their capacity for armed resistance is fatally weakened This directive was clarified in June when the Combined Chiefs of Staff issued the Pointblank Directive that stated that the highest priority targets were the fighter aircraft factories to ensure that in the coming invasion of France the enemy would not have air superiority When these directives were issued it was envisaged that as well as attacks by RAF Bomber Command and the US 8th Air Force based in England the strategic bomber forces in Italy would begin operations once suitable bases were available After the Allied landings in Italy and resulting collapse of the Italian fascist regime a network of bomber bases was hastily developed Thus on 1 November 1943 the US 15th Air Force was formed to conduct the daylight bombing offensive against strategic targets in southern Germany and across southeastern Europe Key among these were the Rumanian oilfields and traffic along the River Danube This new formation was joined by the smaller but highly effective 205 Group RAF that was trained and equipped for night bombing so mirroring their equivalent British based formations The damaging attacks on the Reich s oil supplies and the highly effective Danube mining campaign conducted at night by 205 Group delivered huge strategic effect The latter reduced vital oil and goods traffic into the Reich to a trickle but also dislocated the supply and logistics train into the southern part of the Eastern

Front so giving manifest support to the Soviets In this volume the early months of this hugely significant air campaign are described in minute and original detail and are accompanied by hundreds of hitherto unpublished photographs In combating these attacks Germany s Axis allies such as Hungary Rumania Bulgaria and Slovakia were encountered for the first time by the Western Allies

Air Power in the Falklands Conflict John Shields,2021-11-24 A Royal Air Force veteran of the Falklands Conflict presents a comprehensive myth busting study of the air campaign In the spring of 1982 Argentina and the UK engaged in tense combat over control of the Falkland Islands The ten weeks of fighting are often portrayed with a decidedly one sided narrative either heroic Argentine pilots relentlessly pressing home their attacks or the Sea Harrier force utterly dominating its Argentine enemies In *Air Power in the Falklands Conflict* RAF veteran John Shields presents a detailed and even handed analysis of the Falkland Islands air war As an RAF officer John Shields spent two and a half years in the Falklands as an air defense navigator Using recently released primary source material Shields looks at the air campaign at the operational level He develops a considered view of what should have occurred and contrasts it with what actually happened In so doing John Shields has produced a comprehensive account of the air campaign that has demolished many of the enduring myths of this Cold War conflict
