money per capita than any other state and uses the money to create more government It needs to build a road to Nome like was planned during WWII to allow citizens access to resources A ferry system to Russia would boost tourism and trade We need to give up that childish Cold War and stop pointing nukes at each other Mutually assured destruction is insane Why keep on spending billions to maintain old junk that probably to rusty to detonate Ask yourself what are we and our grandchildren going to do after the state destroys all the renewable resources and sells off the rest Their track record of management of renewable resources speaks for itself **The Chautauquan** ,1881 *Merchant Vessels of the United States...* United States.
