McKinsey Company this reliable resource takes a much more qualitative approach to what the authors consider a lost art Discusses the four foundational principles of corporate finance Effectively applies the theory of value creation to our economy Examines ways to maintain and grow value through mergers acquisitions and portfolio management Addresses how to ensure your company has the right governance performance measurement and internal discussions to encourage value creating decisions A perfect companion to the Fifth Edition of Valuation this book will put the various issues associated with corporate finance in perspective **ASTRA, on becoming pride of nation (Ed. Bahasa Inggris)** Yakub

Liman,2017-11-17 The vast enterprise known as Astra has now entered its sixth decade From the earnest and precise efforts of a young William Soeryadjaya to capture business opportunities Astra has incredibly developed into a Company that deserves to be known as a pride of the nation Behind the challenging journey of Astra to continuously stand as the pride of the nation are the core values and modern management which go hand in hand to produce excellence the theme of this book It is exemplified in the Latin phrase per aspera ad astra Reach for the stars through diligence Mega Transport Infrastructure Planning Sandro Fabbro,2015-09-10 Based on the work of Poly5 or the Mediterranean Corridor mega transport infrastructure project this ground breaking reference explains how and why traditional top down government defined transport planning policies are failing due to their tendency to eschew acknowledgement of profoundly multifarious local and regional issues The authors use cognitive reports from the Mediterranean Corridor experience as a learning platform unpacking the tangled sources of the challenges faced to find firm ground from which to embark upon future projects They propose the replacement of the current fragmented and unbalanced implementation efforts across various territories with a bottom up holistic inclusive approach in which individual territories and regions have buy in from the outset a chance to bring their strengths to bear on the broader infrastructural planning an ongoing communication channel to report and tackle difficulties and clear strategic directives to drive sustainable future growth of environmentally desirable and practical mega transport systems *Socioeconomic Evaluation of Megaprojects* Markku Lehtonen,Pierre-Benoît Joly,Luis Aparicio,2016-11-22 The governance and evaluation of megaprojects that is large scale complex high stakes infrastructure projects usually commissioned by governments and delivered through partnerships between public and private organisations is receiving increased attention However megaproject evaluation has hitherto largely adopted a linear rationalist perspective to explain the frequent failure of such projects to meet the iron triangle of performance criteria delivering on time within budget and according to specifications This approach recommends greater control and accountability to remedy megaproject pathologies Drawing on empirical examples mainly from the transport sector and radioactive waste disposal this book offers new perspectives to megaproject evaluation Comprising contributions from leading experts in project evaluation and appraisal this collection opens up new avenues by suggesting two ways of improving megaproject evaluation 1 approaches that go beyond the dominant linearrationalist notion of policy processes and

emphasise instead the objective of opening up appraisal processes in order to enhance learning and reflexivity and 2 approaches that extend evaluative criteria beyond the iron triangle to cover the various socioeconomic impacts and preconditions for project success This volume will be of great relevance to scholars and practitioners with an interest in megaprojects energy and climate policy radioactive waste management urban design and project planning and management

Business and Dynamic Change Keith D. Swenson, Frank F. Kowalkowski, Michael G. Miller, William Ulrich, Gil Laware, Brian K. Seitz, Martin Klubeck, Dr Michael Poulin, Jude Chagas Pereira, Michael Blaha, J. Bryan Lail, Patrik Maltusch, Darius Silingas, David Rice, Michael S. Connor, 2019-10-23 The chapters in this book are contributed by visionaries who see the need for business leaders to define their organizations to be agile and robust in the face of external changes The goal is to build something knowing that it will be changed so that you have no need to go back to the metaphorical drawing board for every market condition change In his Foreword Keith Swenson asks you Consider what it means to say that the business will adapt in the face of external changes The business architecture is not simply a model that specifies how to run the business for now and the next few years The people making the architecture cannot know the pressures that will be faced Instead it must support leaders and executives within the organization to make consistently good decisions on how to adapt their practices The architecture is not a plan that anticipates all the decisions instead it embodies a set of core guiding principles that enable decision making Understand that the term business used this way is not limited to for profit enterprises but includes all forms of organizations that have a strategic need to accomplish goals Pragmatically speaking business architecture is the conceptual understanding that people have on why particular choices were made in forming the organization in a particular way This book will help you understand your options and how to relate them to your own organization *McKinsey & Company*, 2001 **Corporate Finance**, 1999 [IDeaLs \(Innovation and Design as Leadership\)](#) Joseph Press, 2021-08-16 Inspired by the actual transformation journeys of multinational companies IDeaLs explores how re framing our traditional theories reveals a more integrated approach to engaging people for systemic change
