The Mystery of Evolutionary Mechanisms Robert F. Shedinger, 2019-06-28 Is Darwinian evolution really the most successful scientific theory ever proposed or even the best idea anyone has ever had as Daniel Dennett once put it *The Mystery of Evolutionary Mechanisms* provides a comprehensive critical reading of the literature of evolutionary biology from Darwin to Dobzhansky to Dawkins revealing this popular account of evolution to be a grand narrative of Darwinian triumph that greatly overstates the empirical validity of modern evolutionary theory The mechanisms driving the evolutionary process truly remain a mystery more than one hundred fifty years after *Origin of Species* a fact that can free religion scholars to think in more creative ways about the positive contributions religious reflection might make to our understanding of life's origin and diversity *The Mystery of Evolutionary Mechanisms* calls for an embrace of mystery understood not as an abdication of the scientific quest for truth but as a courageous and humble acknowledgment of the limits of human reason and an openness to a fundamentally religious orientation toward life

Gold: How it Shaped History Alan Ereira, 2024-11-30 Gold is not what we think It is usually discussed in the

context of wealth and art but this book has a broader subject so fundamental that it has been largely unremarked Informed by a mass of recent discoveries and a South American indigenous perspective it offers a new way of understanding the history of civilization Gold has been coinage treasure and adornment But it has been much more as the hidden driver of wars and revolutions the rise and fall of empires and the transformation of societies As the sun traveled east to west across the sky gold incorruptible and corrupting flowed west to east hand to hand across the world That flow has brought empires to grow and collapse and driven plunder conquest and colonization It brought about wars and revolutions empowered new forms of arts and science and created the capitalist consumer economy that dominates us now All the gold people ever shaped still exists shining as new it can be mislaid but never decays Right from its first appearance on the west shore of the Black Sea long before the rise of Egypt and Mesopotamia gold crowned the first proto king Ever since it has been regarded as value incarnate with transcendental power The quantity we take has been increasing steadily for 6 500 years Now extraction accelerates Our gold mountain has doubled in the last fifty years Yet its price increases faster While the quantity doubled its buying power multiplied by six What does gold do that makes us want it so much As Alan Ereira reveals in this skilfully woven narrative gold is the hidden actor that shapes our story *Better Living Through Alchemy* , The Mystery of Human Relationship Nathan Schwartz-Salant,2003-09-02 By analogy with the ancient system of alchemy Jungian analyst Nathan Schwartz Salant shows how states of mind can undermine our relationships both private and public but when brought to consciousness can become positive factors *World History and the Mysteries* Rudolf Steiner,2021-05-17 In this landmark series of lectures Rudolf Steiner challenges the notion that human consciousness has in essence remained the same throughout history On the contrary we can only see the past in its true light when we study the differences in human souls during the various historical eras Consciousness he says evolves constantly and we can only comprehend the present by understanding its origin in the past Delivered in the evenings during the course of the mystery act of the Christmas Foundation Meeting when Rudolf Steiner not only re founded the Anthroposophical Society but for the first time took a formal role within it these lectures study world history in parallel with the ancient mysteries of initiation showing how they are intimately linked Steiner describes consciousness in the ancient East and follows the initiation principle from Babylonia to Greece up to its influences in present day spiritual life He also discusses Gilgamesh and Eabani the mysteries of Ephesus and Hibernia and the occult relationship between the destruction by fire of the Temple of Artemis and the burning of the first Goetheanum in Dornach Switzerland Published for the first time with colour plates of Steiner s blackboard drawings the freshly revised text is complemented with an introduction notes and appendices by Professor Frederick Amrine and an index Mystery of the White Lions Linda Tucker,2010-06-01 The inspiring firsthand account of one woman s journey into African shamanism and the mysteries of the most sacred animal on the continent the legendary White Lion In 1991 Linda Tucker was rescued from a pride of lions in the Timbavati game region by a medicine woman known as the Lion Queen So began Linda s
