Imagining Global Amsterdam gaat over het beeld van Amsterdam in film literatuur visuele kunst en in het moderne stedelijke discours in het bijzonder in de context van de mondialisering De essays gaan onder andere dieper in op Amsterdam als een lieu de mmoire van de vroeg moderne wereldhandel Wat betekent deze herinnering in de hedendaagse cultuur Waarom verwijzen zo veel contemporaine films en romans naar dit verleden terug Ook het internationale imago van Amsterdam als een multicultureel en ultra tolerant %x global village %x komt aan bod Waarom is dit beeld zo persistent en hoe heeft het zich in de loop van de laatste decennia ontwikkeld Tot slot wordt ingegaan op de vraag hoe mondialiseringsprocessen ingrijpen in de stadscultuur zoals in het prostitutiegebied op de Wallen en via de erfgoedindustrie Hoe manifesteert de mondialisering zich in de stad en welke rol speelt beeldvorming daarbij Deze bundel vormt een rijk geschakeerd onderzoek naar de relatie tussen Amsterdam mondialisering en stedelijke beeldvorming Marco de Waard is als docent

Spirit of Resistance Jeroen Dewulf, 2010

The first book to offer a complete story of the extraordinary proliferation of Dutch clandestine literature under the Nazi occupation Clandestine literature was published in all countries under Nazi occupation but nowhere else did it flourish as it did in the Netherlands This raises important questions What was the content of this literature What were the risks of writing printing selling and buying it And why the Netherlands Traditionally the combative Dutch spirit of resistance has been cited a reaction not only to German oppression but to German propaganda while the Germans hoped to build bonds with their Germanic Dutch brothers clandestine literature insisted on their incompatibility However when reading clandestine literature one should not forget that this spirit of resistance came rather late and did not prevent the transportation of seventy three percent of the Netherlands Jewish population to Nazi death camps the largest percentage in Western Europe The Dutch case is complex while the country proved to be remarkably resistant to Nazi propaganda little was done to prevent the actual execution of Nazi policies The complete story of Dutch clandestine literature therefore combines resistance and complicity victory and defeat pride and shame Jeroen Dewulf is Queen Beatrix Professor of Dutch Studies in the Department of German at the University of California Berkeley

Avant-Garde and Criticism, 2015-06-29

Avant Garde and Criticism sheds new light on the complex aims functions practices and contexts of art criticism in relation to the European avant garde Although many avant garde works and the avant gardes of various countries have been analyzed considerably less attention has been given to the reviews in newspapers and journals on avant garde literature art architecture and film This volume of Avant Garde Critical Studies will look at how art critics operated in a strategic way The strategies of avant garde criticism are diverse Art critics especially when they are artists themselves attempt to manipulate the cultural climate in their favour They use their position to

legitimize avant garde concepts and to conquer a place in the cultural field But they are also markedly influenced by the context in which they operate The position of fellow critics and the ideological bias of the papers in which they publish can be as important as the political climate in which their criticism flourishes The analysis of avant garde art criticism can also make clear how strategies sometimes fail and involuntarily display non avant garde characteristics On the other hand traditionalist criticism on the avant garde offers new insights into its status and reception in a given time and place This volume is of interest for scholars teachers and students who are interested in the avant garde of the interbellum period and work in the field of literature art film and architecture

Romantic Modernism Wim Denslagen, 2009 In the world of architectural conservation there is little tolerance for reconstructing or even protecting historic facades when everything behind is modern and even less for reconstructing a building that has been completely destroyed These offenses are considered lies against history In this thoughtful revealing work conservation expert Wim Denslagen traces this predilection for honesty to the legacy of Functionalism a Romantic era movement that denounced the building of pseudo architecture in favor of a new rational form of building With detailed analyses of headline making restoration projects from Bruges to Berlin Denslagen shows that the adoption of these romantic values by conservationists gave rise to a new wave of modern additions and transformations
