Berlin Alexanderplatz The Story Of Franz Biberkopf:

Berlin Alexanderplatz Alfred Döblin, 2004-01-01 Alfred Döblin 1878 1957 studied medicine in Berlin and specialized in the treatment of nervous diseases Along with his experiences as a psychiatrist in the workers quarter of Berlin his writing was inspired by the work of Holderlin Schopenhauer and Nietzsche and was first published in the literary magazine Der Sturm Associated with the Expressionist literary movement in Germany he is now recognized as one of the most important modern European novelists Berlin Alexanderplatz is one of the masterpieces of modern European literature and the first German novel to adopt the technique of James Joyce It tells the story of Franz Biberkopf who on being released from prison is confronted with the poverty unemployment crime and burgeoning Nazism of 1920s Germany As Franz struggles to survive in this world fate teases him with a little pleasure before cruelly turning on him Foreword by Alexander Stephan Translated by Eugene Jolas Alexanderplatz, Berlin Alfred Döblin, 1930 *The Politics of Prostitution in Berlin Alexanderplatz* Nicole Shea, 2007 Alfred Döblin's Berlin Alexanderplatz is an examination of the gradual disintegration of Germany in the aftermath of the Great War This study engages the seminal image of the prostitute the commodified woman as a central and dominant motif in Döblin's work **Alexanderplatz Berlin** Alfred Döblin, 1968 Crime Stories Todd Herzog, 2009 The Weimar Republic 1918 1933 was a crucial moment not only in German history but also in the history of both crime fiction and criminal science This study approaches the period from a unique perspective investigating the most notorious criminals of the time and the public's reaction to their crimes The author argues that the development of a new type of crime fiction during this period which turned literary tradition on its head by focusing on the criminal and abandoning faith in the powers of the rational detective is intricately related to new ways of understanding criminality among professionals in the fields of law criminology and police science Considering Weimar Germany not only as a culture in crisis the standard view in both popular and scholarly studies but also as a culture of crisis the author explores the ways in which crime and crisis became the foundation of the Republic's self definition An interdisciplinary cultural studies project this book insightfully combines history sociology literary studies and film studies to investigate a topic that cuts across all of these disciplines

German Literature of the Twentieth Century Ingo Roland Stoehr, 2001
Traces literary developments in the German speaking countries from 1900 to the present This study of German literature in the past hundred years sets its subject clearly in the artistic and political context of developments in Western Europe during the century It begins with the turn of the century aestheticism and visions of decay led by Schnitzler Hofmannsthal and other Austrian writers and the quite different explosion of new artistic energy in the Expressionist and Dada movements These movements are succeeded by the rise of Modernism culminating in the inter war years the poetry of Rilke Brecht's epic theatre and novels by Thomas Mann Kafka Hesse Musil Döblin and Brecht the influence of Nazism on literary production is considered The study of developments after 1945 reflects the struggle to establish a post Holocaust literature and to deal with the questions posed by the political division of Germany Finally the convergence of East and West German literature after unification is addressed Ingo R Stoehr teaches literature at Kilgore College Texas and is editor of the bilingual journal of German literature in English translation *Dimension 2*

Landmarks in the German Novel Peter Hutchinson, 2007
There is a large pool of German novelists in whose oeuvre we may look for works of landmark significance and at certain periods of its history German fiction is particularly rich Yet although the novel begins to assert itself in the seventeenth century we have to wait until the late eighteenth and Goethe's first major prose work *Werther* to see it truly rise to the level of other genres The thirteen novels featured in this collection have all proved milestones in the development of the form and there is heavy prominence given to works by Goethe himself and by Thomas Mann Through these as well as those by such figures as Kafka Hesse and Günter Grass we can trace the development of the novel to its far more self conscious form ranging through the social studies of the nineteenth to works which treat a variety of intellectual psychological and philosophical issues in the twentieth A second volume will cover landmarks published between 1959 and the present day These essays all by specialists in the relevant field were originally delivered as lectures in the University of Cambridge

Pasolini, Fassbinder and Europe Fabio Vighi, 2010-08-11
The present collection of essays brings into dialogue Pier Paolo Pasolini 1922-1975 and Rainer Werner Fassbinder 1945-1982 by comparing their cultural and intellectual legacy Pasolini and Fassbinder are amongst the last radical filmmakers to have

emerged in Europe Born in Italy and Germany they inherited a traumatic social and political past which is reflected in their works through a number of similarly articulated and unresolved tensions high and popular cultures theatre literature and cinema ideology and narration major and minor codes of expression The essays in this book examine the uncompromising character of Pasolini's and Fassbinder's films Constantly oscillating between utopia and nihilism these works invite us to reconsider subjective and collective questions which from today's perspective seem lost forever German Expressionism in the Audiovisual Culture / Der deutsche Expressionismus in den Audiovisuellen Medien Paloma Ortiz-de-Urbina, 2022-12-19 Zu Beginn des 20. Jahrhunderts machte zeitgleich mit dem Expressionismus eine neue Kunstform ihre ersten Schritte die Bildsprache und Musik in sich vereinte der Kinofilm In Deutschland hatte die expressionistische Ästhetik einen enormen Einfluss auf dieses neue Medium der sich in Filmen wie *Das Cabinet des Dr. Caligari* 1920 *Der Golem* 1920 *Nosferatu* 1922 oder *Metropolis* 1927 zeigt und bis heute seine Spuren hinterlassen hat Dieser Band analysiert wie Themen Motive Mythen und Ästhetik des expressionistischen Kinos der 1920er Jahre in den audiovisuellen Medien bis ins 21. Jahrhundert fortwirken und welchen Einfluss sie auf Mythoskritik oder auf populäre Gattungen wie Fantasy Horror oder Science Fiction nach wie vor ausüben **German Film. Volume 4: 1930-1939** Deutsche Kinemathek – Museum für Film und Fernsehen, 2024-10-23 This book is part of a twelve volume series documenting the history of German film from its beginnings in 1895 to the present day using the collection holdings of the Deutsche Kinemathek Each volume in ePUB format focuses on a decade and offers a concise overview of the cinematic masterpieces and milestones of that era highlights famous films and films to be rediscovered and pays tribute to the cinema its audience and the creative minds behind the diversity of German film The complete work which comprises over 2 700 objects from all areas of the collection and spans 130 years is also available as a printed book and as a PDF in German and English The DEUTSCHE KINEMATHEK is one of the world's leading institutions for the collection preservation and presentation of audio visual heritage Hundreds of thousands of objects are permanently preserved in its archives and are available for research into film and television history In addition to scripts photos posters costumes and designs the collection also includes film equipment The Kinemathek curates film series and exhibitions and restores and digitizes films Its diverse activities including installations publications educational formats and conferences encourage visitors to discover the world of moving images **A History of Modern Germany Since 1815** Frank Tipton, 2003-01-01 Germany continues to fascinate us into the twenty-first century because unlike the history or national existence of other European states its very being has been posed as a question Why was there no unified German state until late in the nineteenth century How did Germany become an industrial power What responsibility does Germany bear for the two World Wars This accessible but authoritative study attempts to answer these and other fundamental questions through looking at the economic social political and cultural forces which have created modern Germany The 1848 revolutions ushered in an age of Realism which saw rapid economic development and the creation of the Bismarckian empire However

by the early twentieth century Germany's economic expansion and position as a world power began to fracture and growing internal economic social and political contradictions led it with disastrous results into the First World War and the subsequent Weimar Republic Hitler and the Nazi movement proposed a revolution and the creation of a German style and the Second World War Holocaust is arguably the defining event of the twentieth century The Americanization of the German economy and society the economic miracle and euphoria of reunification have in recent years rapidly given way to disillusionment as the major political parties have failed to master outstanding social and environmental problems The German question Germany's place within the European Union continues to be unanswered even within an EU where it is the dominant economic power

A Companion to the Works of Alfred Döblin Roberta L. Krueger, Roland Dollinger, Wulf Koepke, Heidi Thomann Tewarson, 2010 A volume of carefully focused essays illuminating the works of one of the leading 20th century German writers Alfred Döblin 1878-1957 was one of the great German Jewish writers of the 20th century a major figure in the German avant garde before the First World War and a leading intellectual during the Weimar Republic Döblin greatly influenced the history of the German novel his best known work the best selling 1929 novel *Berlin Alexanderplatz* has frequently been compared in its use of internal monologue and literary montage to James Joyce's *Ulysses* and John Dos Passos's *Manhattan Transfer* Döblin's oeuvre is by no means limited to novels but in this genre he offered a surprising variety of narrative techniques themes structures and outlooks Döblin's impact on German writers after the Second World War was considerable Günter Grass for example acknowledged him as my teacher And yet while *Alexanderplatz* continues to fascinate the reading public it has overshadowed the rest of Döblin's immense oeuvre This volume of carefully focused essays seeks to do justice to such important texts as Döblin's early stories his numerous other novels his political philosophical medical autobiographical and religious essays his experimental plays and his writings on the new media of cinema and radio
