Bernard Devoto A Preliminary Appraisal:

Bernard DeVoto Garrett Mattingly, 1938 The Letters of Bernard DeVoto Bernard DeVoto, 1975 **The Politics of Hope** Arthur Meier Schlesinger, 2008

The Politics of Hope and The Bitter Heritage brings together two important books that bracket the tempestuous politics of 1960s America. In *The Politics of Hope* which historian Arthur Schlesinger Jr published in 1963 while serving as a special assistant to President Kennedy Schlesinger defines the liberalism that characterized the Kennedy administration and the optimistic early Sixties. In lively and incisive essays most of them written between 1956 and 1960 on topics such as the basic differences underlying liberal and conservative politics the writing of history and the experience of Communist countries Schlesinger emphasizes the liberal thinker's responsibility to abide by goals rather than dogma to learn from history and to look to the future. Four years later following Kennedy's assassination and the escalation of America's involvement in Vietnam Schlesinger's tone changes. In *The Bitter Heritage* a brief but penetrating appraisal of the war that nobody wanted he recounts America's entry into Vietnam the history of the war and its policy implications. *The Bitter Heritage* concludes with an eloquent and sobering assessment of the war's threat to American democracy and a reflection on the lessons or legacies of the Vietnam conflict. With a new foreword by Sean Wilentz the James Madison Library edition of *The Politics of Hope and The Bitter Heritage* situates liberalism in the convulsive 1960s and illuminates the challenges that still face liberalism today.

Utah Historians and the Reconstruction of Western History Gary Topping, 2003

Among historians of Utah and the American West few names have greater resonance than Bernard DeVoto, Dale Morgan, Juanita Brooks, Wallace Stegner, and Fawn Brodie. Each of these writers made enduring contributions not only to our knowledge of the American West but also to our view of the region and its history. In many ways their writing set the standard for scholarship and interpretation and their influence is still felt today. Yet they were not flawless. As Gary Topping explains in this the first comprehensive appraisal of their work each had serious shortcomings. DeVoto and Stegner, master storytellers, distorted their histories with excessive use of literary and artistic techniques. Morgan, the thorough researcher, failed to see larger contexts and interpretive possibilities. Brooks, courageous in finding damning new information on the Mountain Meadows massacre, stopped short of drawing conclusions that might alienate her from her fellow Mormons. And Brodie, psychobiographer extraordinaire, nonetheless succumbed to reading too much into the lives of her subjects based on her own emotions and conflicts. All five writers experienced Mormon Utah in the formative stages of their lives and whether they wanted to or not fashioned their work on the American West under that indelible influence. Topping shows ultimately how, despite weaknesses, each created exemplary models of diligent research and narrative.
