## **Bertrand De Jouvenel:**

**The Nature of Politics** Jack D. Douglas, 2019-11-14 Bertrand de Jouvenel 1903-1987 was one of the great political thinkers of the twentieth century but he left few disciples. The essays contained in this volume have been selected because they serve to clarify, elaborate, and expand upon the themes of his three masterworks: *On Power*, *Sovereignty*, and *The Pure Theory of Politics*. De Jouvenel's thought stands apart from the main branches of twentieth-century political philosophy and is largely independent of schools and ideologies. By drawing on an older, more persuasive philosophical tradition stretching from Plato to Rousseau, de Jouvenel sought to restore political science to its ancient function: the explanation of political things. With directness and originality, his work addresses questions that go to the heart of the political science enterprise: exploring its nature, its mission, and its attitude to theory, facts, and values. In the realm of political practice, de Jouvenel shares common ground with his contemporaries while remaining essentially independent. He shares with the left a deep concern for reducing human misery and ecological depredation and a belief in the need for government-directed economic planning. On the other hand, he shares the right's abiding suspicion of state power and its belief in the superiority of the market as the presumptive method for economic decision making. De Jouvenel's refreshing freedom from ideological blinders makes him worthy of comparison to Orwell, but his ambition stretches beyond the novelistic in that he attempts to develop a theory of the good state resting upon a clear-sighted understanding of the true nature of political behavior. Graced with a brilliant introduction by Dennis Hale and Marc Landy, this volume serves as an ideal introduction to de Jouvenel's thought. It will be of interest to political scientists, historians, and sociologists.

**Fascism's Return** Richard Joseph Golsan, 1998-01-01 The past fifteen years have witnessed the renewed presence of fascism in European political and cultural life. In addition, there have been scandals surrounding the fascist pasts of numerous renowned intellectuals, including Martin Heidegger, Paul de Man, and Maurice Blanchot. In *Fascism's Return*, eleven leading American and European scholars examine the resurgence of fascism from many angles, providing an essential and timely view of this troubling moment in European political, cultural, and intellectual history. Intellectual and public scandals surrounding the fascist past, including the highly publicized Barbie and Touvier trials in France, are addressed. Other writers focus on controversial efforts to revise the historical representation of fascism in Germany and France. The reemergence of the new fascist movements and ideologies in various European nations is also examined. A final essay considers the controversial U.S. support during the 1980s of Central American dictatorships. As editor Richard J. Golsan notes, the essays in this volume illustrate a multitude of ways in which fascism continues to make its presence felt in western democratic societies, erupting with disturbing frequency as a return of the repressed in judicial and artistic scandals as well as in historical, critical, and political debates.

*Bertrand De Jouvenel* Daniel J. Mahoney, 2023-09-26 In his effort to detach the indispensable notion of the common good from its historical identification with the more closed, homogeneous, and static societies of the premodern past, the French political philosopher Bertrand de Jouvenel (1903-87)

pointed the way towards a viable conservative liberalism So argues Daniel J Mahoney in this compelling introduction to the life and work of Jouvenel one of twentieth century France's most profound philosophers and political essayists Although he vigorously defended the historical achievement of liberal society against its totalitarian critics Jouvenel also challenged the modern conceit that man is an autonomous being beholden neither to the moral law nor to the humanizing inheritance of the past Mahoney's study focuses on Jouvenel's three masterworks *On Power* 1945 *Sovereignty* 1955 and *The Pure Theory of Politics* 1963 and on his broader effort to defend civility and social friendship against rationalist individualism and its logical fruit collectivist politics Mahoney explores Jouvenel's affinities with and debts to Aristotle Burke Rousseau and Tocqueville and he contrasts Jouvenel's signal theoretical achievements with the twists and turns manifested in his sometimes questionable practical political engagements from the 1930s until his death Mahoney's characteristically engaging appraisal of this important political philosopher the fifth entry in the Library of Modern Thinkers series is the first book on Jouvenel to appear in the English language

*The Study of the Future* Edward Cornish, 1977-01-01 This unique reference work the companion volume to *The Study of the Future* is designed to make the tools of future studies accessible to the general public as well as to professional futurists Here for the first time in a single convenient format are the organizations individuals books and periodicals current research projects educational programs films audio tapes and other resources that can help anyone concerned with exploring alternatives for the future

*The Art of Conjecture* Bertrand De Jouvenel, Daniel J. Mahoney, 2012 Reprint of *Art of conjecture* Translated from the French by Nikita Lary New York Basic Books 1967

**A Study of Authority** Michael Richard Dillon, 1984

*Economics and the Good Life* Gary Becker, Bertrand de Jouvenel, 2017-11-15 Bertrand de Jouvenel 1903 1987 was known in the United States primarily as a political scientist His best known works *On Power* *Sovereignty* and *The Pure Theory of Politics* all made distinctive contributions to our understanding of the modern state and to the creation of a political science capable of civilizing that state His work in the field of economics is relatively unknown in the United States but like many writers in the contemporary field of political economy de Jouvenel is not interested in expanding the claims of economy at the expense of polity On the contrary his thinking is governed by the oldest and most fundamental of political concerns the definition of the good life The good life is not a product of the marketplace but of deliberate and collective decision that is a task for thoughtful citizens and statesmen and not simply the sum of millions of separate and amoral consumer preferences De Jouvenel is well known for his opposition to the distended state but he was no anarchist His eloquent warnings to keep the state in its proper sphere were accompanied by a richly sophisticated discussion of what the proper sphere is an aspect of his work that comes through very clearly in this volume Written between 1952 and 1980 the essays range from a discussion of technology to reflections on such fundamental economic concepts as amenity and welfare They include the deeply theoretical as well as the practical and the concrete All are informed by de Jouvenel's insistence that a science which seeks to understand the production and

distribution of goods must be concerned in the first place with the good itself Economics and the Good Life is a companion volume to The Nature of Politics Selected Essays of Bertrand de Jouvenel Like the earlier volume this collection is accompanied by an editor's introduction that places the essays in the wider context of de Jouvenel's work This work is essential to the libraries of economists political theorists historians and sociologists *New Political Ideas in the Aftermath of the Great War* Alessandro Salvador, Anders G. Kjølseth, 2016-11-10 This edited collection presents new research on how the Great War and its aftermath shaped political thought in the interwar period across Europe Assessing the major players of the war as well as more peripheral cases the contributors challenge previous interpretations of the relationship between veterans and fascism and provide new perspectives on how veterans tried to promote a new political and social order Those who had frontline experience of the First World War committed themselves to constructing a new political and social order in war torn Europe shaped by their experience of the war and its aftermath A number of them gave voice to the need for a world order free from political and social conflict and all over Europe veterans imagined a third way between capitalist liberalism and state controlled socialism By doing so many of them moved towards emerging fascist movements and became in some case unwillingly the heralds of totalitarian dictatorships *A Symposium on Bertrand de Jouvenel* Daniel J. Mahoney, Intercollegiate Studies Institute, 2003 Sovereignty Bertrand de Jouvenel, 1998 Who decides Who is the Sovereign What is a good act In quest of answers to these vitally important questions Bertrand de Jouvenel examines successively the nature and history of authority the political good the sovereign and liberty His concern is with the prospects for individual liberty in democratic societies in which sovereignty purportedly resides in the whole people of the body politic His objective is a definition and understanding of the canons of conduct for the public authority of a dynamic society Daniel J Mahoney is Associate Professor of Politics at Assumption College David DesRosiers is Executive Vice President at the Manhattan Institute **Shaping Tomorrow's World** Elke Seefried, 2024-05-01 Shaping Tomorrow's World tells the crucial story of how futures studies developed in West Germany Europe the US and within global futures networks from the 1940s to the 1980s It charts the emergence of different approaches and thought styles within the field ranging from Cold War defense intellectuals such as Herman Kahn to critical peace activists like Robert Jungk Engaging with the challenges of the looming nuclear war the changing phases of the Cold War 1968 and the growing importance of both the Global South and environmentalism this book argues that futures scholars actively contributed to these processes of change This multiple award winning study combines national and transnational perspectives to present a unique history of envisioning forecasting and shaping the future **Jean-Jacques Rousseau: Paradoxes and interpretations** John T. Scott, 2006 Bringing together critical assessments of the broad range of Rousseau's thought with a particular emphasis on his political theory this systematic collection is an essential resource for both student and scholar *The Ethics of Liberty* Murray N. Rothbard, 2015-07-04 The authoritative text on the libertarian political position In recent years libertarian impulses have

increasingly influenced national and economic debates from welfare reform to efforts to curtail affirmative action Murray N Rothbard's classic *The Ethics of Liberty* stands as one of the most rigorous and philosophically sophisticated expositions of the libertarian political position Rothbard's unique argument roots the case for freedom in the concept of natural rights and applies it to a host of practical problems And while his conclusions are radical that a social order that strictly adheres to the rights of private property must exclude the institutionalized violence inherent in the state Rothbard's applications of libertarian principles prove surprisingly practical for a host of social dilemmas solutions to which have eluded alternative traditions *The Ethics of Liberty* authoritatively established the anarcho capitalist economic system as the most viable and the only principled option for a social order based on freedom This classic book's radical insights are sure to inspire a new generation of readers

**The Pure Theory of Politics** Bertrand de Jouvenel, 1963 **Economics and the Good Life** Bertrand de Jouvenel, Dennis Hale, Marc Landy, 1999-01 Written between 1952 and 1980 the essays range from a discussion of technology to reflections on such fundamental economic concepts as amenity and welfare They include the deeply theoretical as well as the practical and the concrete All are informed by de Jouvenel's insistence that a science which seeks to understand the production and distribution of goods must be concerned in the first place with the good itself *Economics and the Good Life* is a companion volume to *The Nature of Politics* Selected Essays of Bertrand de Jouvenel Like the earlier volume this collection is accompanied by an editor's introduction that places the essays in the wider context of de Jouvenel's work

**Colette et Bertrand de Jouvenel** Carl Slevin, **The Politics of Moderation in Modern European History** Ido de Haan, Matthijs Lok, 2019-09-04 This book charts the varieties of political moderation in modern European history from the French Revolution to the present day It explores the attempts to find a middle way between ideological extremes from the nineteenth century *Juste Milieu* and balance of power via the Third Ways between capitalism and socialism to the current calls for moderation beyond populism and religious radicalism The essays in this volume are inspired by the widely recognized need for a more nuanced political discourse The contributors demonstrate how the history of modern politics offers a range of experiences and examples of the search for a middle way that can help us to navigate the tensions of the current political climate At the same time the volume offers a diagnosis of the problems and pitfalls of Third Ways of finding the middle between extremes and of the weaknesses of the moderate point of view

**Fascism, Liberalism and Europeanism in the Political Thought of Bertrand de Jouvenel and Alfred Fabre-Luce** Daniel Knegt, 2017 This book explores the political thought of Bertrand de Jouvenel and Alfred Fabre Luce two French intellectuals journalists and political writers who from 1930 to the mid 1950s moved between liberalism fascism and Europeanism

**The Pursuit of Europe** Anthony Pagden, 2022 The story of the evolution of the European project from the end of the Napoleonic Wars through to Brexit this is also the story of how and why it became possible to imagine that the diverse peoples of Europe might be united in a single political community

**Futures Thinking** Christian Dayé, 2025-07-22 This book starts from the assumption that

futures thinking is difficult yet of existential necessity We live in times where the future of humanity is at stake Thus it is important to understand where the images of the future that currently circulate in our cultures and societies come from This book is about two fields in the social sciences that explicitly concentrate on futures studies and the sociology of the future Informed by sociological theories it applies bibliometric methods to describe these two fields as epistemic tribes and territories After reflecting on the historical reasons for this bipartite academic institutionalization the book explores how the two fields could achieve a diligent division of labor that encourages forms of futures thinking that speak to the societal and civilizational needs of our times

## **Bertrand De Jouvenel Introduction**

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Bertrand De Jouvenel PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Bertrand De Jouvenel PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that

the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Bertrand De Jouvenel free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

### **FAQs About Bertrand De Jouvenel Books**

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone.
