Rodríguez As is befitting a book on Latinas/os at the start of the 21st century the chapters in this volume reflect the contemporary panorama of Latinas/os in the United States Today Latinas/os are the largest minority group They accounted for 12.5% of the total U.S. population in the last decennial census recent estimates showed the Hispanic population to be 41.3 million as of July 1, 2004 or 14% of the nation's total population However this estimate does not include the 3.9 million

residents of Puerto Rico who are also U S citizens and would raise the total to 2 45 2 million This would make the U S population of Latinos the second largest Spanish origin population in the hemisphere after Mexico The growth of this population since 1980 has been dramatic Hispanics Latinos grew more than seven times faster than the population of the nation as a whole increasing by half whereas the white non Hispanic population increased by only 6% between 1980 and 1990 U S Bureau of the Census 1991 Table 1 U S Bureau of the Census 1993 p 2 In the 1990s the Hispanic population increased 58% Moreover between 2003 and 2004 one of every two people added to 3 the nation s population was Hispanic Latino Consequently not only are Latinos a substantial part of the U S population but they account for half its population growth
