Berkeley at War : The 1960s W.J. Rorabaugh Professor of History University of Washington, 1989-05-04 Berkeley California was the bellwether of the political social and cultural upheaval that made the 1960s a unique period of American history a time when the top down methods of a conservative establishment collided head on with the bottom up grass roots ethos of the civil rights movement and an increasingly well educated and individualistic middle class W J Rorabaugh who attended the graduate school of the University of California at Berkeley in the early 1970s presents a lively and informative account of the events that overtook and changed forever what had once been a quiet conservative white suburb The rise of the Free Speech Movement which gave a voice to disfranchised students the growth and increasing militance of a black community struggling to end segregation the emergence of radicalism and the anti war movement the blossoming of hippie culture with its scorn for materialism and enthusiasm for experimentation with everything from sex and drugs to Eastern philosophies the beginnings of modern day feminism and environmentalism and how all of these coalesced in the explosive conflict over People s Park are traced in a meticulously researched and authoritative narrative At issue was the question of power and the struggle between the establishment and the powerless led to developments that the advocates of a freer society could scarcely have foreseen Ronald Reagan elected governor of California in reaction to the events at Berkeley and Edwin H Meese III who battled against the student movement and People s Park rose to national power in the 1980s without however gaining any popularity in Berkeley where Walter Mondale won 83 percent of the vote in 1984 An invaluable account of its time and place this book anchors the 60s in American history both before and since that colorful decade

Natural Selection Gary Giddins, 2006 Long recognized as America's most brilliant jazz writer the winner of many major awards including the prestigious National Book Critics Circle Award and author of a highly popular biography of Bing Crosby Gary Giddins has also produced a wide range of stimulating and original cultural criticism in other fields With Natural Selection he brings together the best of these previously uncollected essays including a few written expressly for this volume The range of topics is spellbinding Writing with insight humor and a famously deft touch he offers sharp edged perspectives on such diverse subjects as Federico Fellini and Jean Renoir Norman

Mailer and Ralph Ellison Marlon Brando and Groucho Marx Duke Ellington and Bob Dylan horror and noir the cartoon version of Animal Farm and the comic book series Classics Illustrated Giddins brings to criticism an uncommon ability long demonstrated in his music writing to address in very few words an entire career so that we get an in depth portrait of the artist beyond the film book or recording under review For instance Giddins offers a stunning reappraisal of Doris Day who he terms the coolest and sexiest female singer of slow ballads in film history He argues eloquently for a reconsideration of the forgotten German language novelist Soma Morgenstern In a section on comedy he offers fresh perspectives on the three great silent film stars Chaplin Keaton and Lloyd while resurrecting the legendary Jack Benny and reevaluating the controversial Jerry Lewis There s also a memorable look at Bing Crosby s film career he calls Crosby s blockbuster Going My Way a neglected masterpiece and a close examination of Marcel Carne s beloved Children of Paradise Of course Giddins also supplies excellent commentary on jazz major and underrated figures and especially the uses of jazz in film A wonderful gathering of little known treasures Natural Selection will broaden the perception of Gary Giddins as one of our most important cultural critics
