Berlin Coquette Jill Suzanne Smith, 2014-05-15 During the late nineteenth century the city of Berlin developed such a reputation for lawlessness and sexual licentiousness that it came to be known as the Whore of Babylon Out of this reputation for debauchery grew an unusually rich discourse around prostitution In *Berlin Coquette* Jill Suzanne Smith shows how this discourse transcended the usual clichés about prostitutes and actually explored complex visions of alternative moralities or sexual countercultures including the New Morality articulated by feminist radicals lesbian love and the New Woman Combining extensive archival research with close readings of a broad spectrum of texts and images from the late Wilhelmine and Weimar periods Smith recovers a surprising array of productive discussions about extramarital sexuality women's financial autonomy and respectability She highlights in particular the figure of the *cocotte* *Kokotte* a specific type of prostitute who capitalized on the illusion of respectable or upstanding womanhood and therefore confounded easy categorization By exploring the semantic connections between the figure of the *cocotte* and the act of flirtation of being *coquette* Smith's work presents flirtation as a type of social interaction through which both prostitutes and non prostitutes in Imperial and Weimar Berlin could express extramarital sexual desire and agency *The British National Bibliography* Arthur James Wells, 2001 **Free Berlin** Briana J. market believing that art should be everywhere freed from its confinement in museums and galleries They used art as a way to imagine new forms of social and creative life Smith introduces little known artists including West Berlin feminist collective Black Chocolate the artist duo paint the town red p t t r and the Office for Unusual Events creators of satirical urban political theater as well as East Berlin action art and urban interventionists Erhard Monden Kurt Buchwald and others Artists and artist led urban coalitions in 1990s Berlin carried on the participatory spirit of the late Cold War with more overt forms of protest and collaboration at the neighborhood level The temperament lives on in twenty first century Berlin animating artists resolve to work outside the market and citizens spirited defenses of green spaces affordable housing and collectivist projects With Free Berlin Smith offers an alternative history of art in Berlin detaching artistic innovation from art world narratives and connecting it instead to Berliners historic embrace of care solidarity and cooperation

Confronting Colonial Objects Carsten Stahn,2024-05-23 The treatment of cultural colonial objects is one of the most debated questions of our time Calls for a new international cultural order go back to decolonization However for decades the issue has been treated as a matter of comity or been reduced to a Shakespearean dilemma to return or not to return *Confronting Colonial Objects* seeks to go beyond these classic dichotomies and argues that contemporary practices are at a tipping point The book shows that cultural takings were material to the colonial project throughout different periods and went far beyond looting It presents micro histories and object biographies to trace recurring justifications and contestations of takings and returns while outlining the complicity of anthropology racial science and professional networks that enabled colonial collecting The book demonstrates the dual role of law and cultural heritage regulation in facilitating colonial injustices and mobilizing resistance thereto Drawing on the interplay between justice ethics and human rights Stahn develops principles of relational cultural justice He challenges the argument that takings were acceptable according to the standards of the time and outlines how future engagement requires a re invention of knowledge systems and relations towards objects including new forms of consent provenance research and partnership and a re thinking of the role of museums themselves Following the life story and transformation of cultural objects this book provides a fresh perspective on international law and colonial history that appeals to audiences across a variety of disciplines This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations
