Nineteenth- and Twentieth-century European Drawings Richard R. Brettell, 2002 Written in Water Rochelle Gurstein, 2024-05-28 A deeply personal yet broadly relevant exploration of the ephemeral life of the classic in art from the eighteenth century to our own day Is there such a thing as a timeless classic More than a decade ago Rochelle Gurstein set out to explore and establish a solid foundation for the classic in the history of taste To her surprise that history instead revealed repeated episodes of soaring and falling reputations rediscoveries of long forgotten artists and radical shifts in the canon all of which went so completely against common knowledge that it was hard to believe it was true Where does the idea of the timeless classic come from And how has it become so fiercely contested By recovering disputes about works of art from the eighteenth century to the close of the twentieth Gurstein takes us into unfamiliar aesthetic and moral terrain providing a richly imagined historical alternative to accounts offered by both cultural theorists advancing attacks on the politics of taste and those who continue to cling to the ideal of universal values embodied in the classic As Gurstein brings to life the competing responses of generations of artists art lovers and critics to specific works of art she makes us see the same object vividly and directly through their eyes and feel in all its enlarging intensity what they felt **Collecting and Appreciating** Simone Francescato, 2010 The traditional borders between the arts have been eroded to reveal new connections and create new links between art forms Cultural Interactions is intended to provide a forum for this activity It will publish monographs edited collections and volumes of primary material on points of crossover such as those between literature and the visual arts or photography and fiction music and theatre sculpture and historiography History, Practice and Pedagogy Susan Barahal, Elizabeth Pugliano, 2024-11-21 This edited volume explores the historical practical and pedagogical possibilities for expressing and cultivating empathy through works of art While aspects of what we today recognize as empathy has nestled in the artistic experiences and philosophies of all ages the subjective and elusive nature of empathic responses has often resulted in the relegation of empathy to the margins of art historical inquiry Moving into the second quarter of the twenty first century amidst global health crises civic unrest political turmoil and persistent social inequities and injustices this capacity to feel with and as someone or something outside of ourselves is more critical than ever Probing the very notion of empathy contributions address themes ranging from environmental and social justice to identity and inclusion to transdisciplinary pedagogies and practices each with a critical eye to how works of art not only appeal to empathic sensibilities but might play an active role in developing capacities for empathy in viewers **Please Touch** Janine A. Mileaf,2010 Exploring the notion of tactility in dada and surrealism Iews in an Illusion of Paradise Norman Simms, 2017-03-07 The focus of this volume is on essential themes images and generic patterns beginning with a Talmudic legend about four scholars They by means of daring mystical interpretations of Scripture entered a Paradise representing different means of imaginative reading perception memory and application of the law One of them died one went mad another became a heretic and the other came back as a traditional exegete and teacher Based on that legend this book

examines a small group of late 19th and early 20th century European Jewish intellectuals and artists in the light of their dreams writings and moments of crisis These men and women comedians in both the sense of stage actors and clowns or witty performers believed they had entered a new secular and tolerant society but discovered that there was no escape from their Jewish heritage and way of seeing the world This monograph looks into the imperfect mirror of cultural experience discovers a hazy world of illusions dreams and nightmares on the other side of the looking glass and sometimes constructs a midrashic conceit of the comical and grotesque screen between them Art history Michael Hatt, Charlotte Klonk, 2025-03-18 Art History A critical introduction to its methods provides a lively and stimulating introduction to methodological debates within art history Offering a lucid account of approaches from Hegel to post colonialism the book provides a sense of art history s own history as a discipline from its emergence in the late eighteenth century to contemporary debates By explaining the underlying philosophical and political assumptions behind each method along with clear examples of how these are brought to bear on visual and historical analysis the authors show that an adherence to a certain method is in effect a commitment to a set of beliefs and values The book makes a strong case for the vitality of the discipline and its methodological centrality to new fields such as visual culture This book will be of enormous value to undergraduate and graduate students and also makes its own contributions to ongoing scholarly debates about theory and How Divine Images Became Art Cleg Tarasov, 2024-02-09 How Divine Images Became Art tells the story of the method parallel discovery of Russian medieval art and of the Italian primitives at the beginning of the twentieth century While these two developments are well known they are usually studied in isolation Tarasov's study has the great merit of showing the connection between the art world in Russia and the West and its impact in the cultural history of the continent in the pre war period Drawing on a profound familiarity with Russian sources some of which are little known to Western scholars and on equally expert knowledge of Western material and scholarship Oleg Tarasov presents a fresh perspective on early twentieth century Russian and Western art The author demonstrates that during the Belle poque the interest in medieval Russian icons and Italian primitives lead to the recognition of both as distinctive art forms conveying a powerful spiritual message Formalist art theory and its influence on art collecting played a major role in this recognition of aesthetic and moral value of primitive paintings and was instrumental in reshaping the perception of divine images as artworks Ultimately this monograph represents a significant contribution to our understanding of early twentieth century art it will be of interest to art scholars students and anyone interested in the spiritual and aesthetic revival of religious paintings in the Belle poque Pens and Needles Susan Frye, 2011-11-29 The Renaissance woman whether privileged or of the artisan or the middle class was trained in the expressive arts of needlework and painting which were often given precedence over writing Pens and Needles is the first book to examine all these forms as interrelated products of self fashioning and communication Because early modern people saw verbal and visual texts as closely related Susan Frye discusses the connections between the many forms of

women s textualities including notes in samplers alphabets both stitched and penned initials ciphers and extensive texts like needlework pictures self portraits poetry and pamphlets as well as commissioned artwork architecture and interior design She examines works on paper and cloth by such famous figures as Elizabeth I Mary Queen of Scots and Bess of Hardwick as well as the output of journeywomen needleworkers and miniaturists Levina Teerlinc and Esther Inglis and their lesser known sisters in the English colonies of the New World Frye shows how traditional women s work was a way for women to communicate with one another and to shape their own identities within familial intellectual religious and historical traditions Pens and Needles offers insights into women s lives and into such literary texts as Shakespeare s Othello and Cymbeline and Mary Sidney Wroth s Urania American Artists, Authors, and Collectors Bennard B. Perlman, 2012-02-01 Sharing for the first time the life long correspondence between Walter Pach artist author art critic art consultant teacher museum lecturer and many of the most influential members of the literary and art worlds of his day this book reveals Pach to be one of the unsung heroes who promoted European and American modern art during the first half of the twentieth century The Art of JAMA M. Therese Southgate, 2011-03-17 The Art of JAMA Vol III contains selected covers from the Journal of the American Medical Association with accompanying essays that explore the background of the artists and the circumstances under which the work was completed followed by commentary on the work itself Selected and edited by Dr M Therese Southgate JAMA contributing editor
