Kemp,2004 The Invention of China in Early Modern England Jonathan E. Lux,2021-11-01 The Invention of China in Early Modern England describes how several different English communities became aware of China It begins by describing how early modern intellectuals used the utopian ideal of China to license all kinds of progressive innovation before chronicling how England s growing commerce in southeast Asia radically changed China s representation in the English discourse community For the new community of English merchants proposing to trade in Chinese goods China became the seminal example in the growing discourse community of English Orientalism It was an absolute or arbitrary authoritarian state associated with crooked business dealings and cloaked in a rhetoric of secrecy and exclusion a dangerous exception to the traditions values and identities of the emergent English speaking states Finally the book points out some of the ways that contemporary English language sources continue to represent this early modern English thought tradition labelling the complexities of modern China with analytical vocabulary perhaps better suited to the pressing political anxieties of the seventeenth century **Chinese Myth: A Treasury of Legends, Art, and History** Philip Wilkinson,2016-04-15 In 1978 faced with the pressure to modernize and a declining budget the Chinese People s Liberation Army PLA reluctantly agreed to join China s economic reform drive expanding its internal economy to market oriented civilian production This work examines PLA s role in the economy up to 1998 **The Oxford Illustrated History of Modern China** Jeffrey N. Guolong, Colin Mackenzie, Haicheng Wang, 2022-10-04 Featuring about 150 loans from China's Hubei Provincial Museum, this exhibition set to open at the Asian Art Museum of San Francisco under the name Lost Kingdoms of Ancient China examines the new finds of Zeng and Chu tombs together to explore the cultural landscape of the southern borderland of the Zhou dynasty. It also reveals the legendary rising story of the phoenix kingdom erased by the Qin, highlighting the importance of the middle Yangtze River region in forming a southern style in Chinese art. For a better understanding of the Zeng and Chu material, the exhibition catalogue consists of seven essays to elaborate the introduction to the remarkable art and culture of this region with entries of about 150 works in six categories: jade, bronze ritual vessels, musical instruments, and weapons; lacquerware for luxury and ceremony; funerary bronze and wood objects and textiles; and artefacts with designs. Seven contributors have written for this catalogue, including five outside scholars with expertise on different subjects. **A History**

of China Wolfram Eberhard, 1969 Myth and Meaning in Early Taoism N. J. Girardot, 1988 Myth and Meaning in Early Daoism examines some of the earliest texts associated with the Daoist tradition, primarily the Daode jing, Zhuangzi, and Huainanzi, from the outlook of the comparative history of religions and finds a kind of thematic and soteriological unity rooted in the mythological symbolism of *hundun*, the primal chaos, being and principle that is foundational for the philosophy and practice of the Dao as *creatio continua* in cosmic, social, and individual life. Dedicated to the proposition that ancient Chinese texts and traditions are often best understood from a broad interdisciplinary and interpretive perspective, this work, when it was written, challenged many prevailing conceptions of the Daode jing and Zhuangzi as primarily philosophical texts without any religious significance or affinity with the later sectarian traditions. While controversial and at times playfully provocative, the methodology and findings of this book are still important for the ongoing scholarship about Daoism in China and the world. **A Galaxy of Immortal Women** Brian Griffith, 2012-05-15 The goddess tradition remakes China and the world.
