FREEFALL: A Collection Of Writings Prachi Prangya Agasti,2024-05-22 A crazy heart stopping roller coaster ride that will take you deeper into its course You close your eyes and jump to get the hang of the moment and sink deep into the abyss of your emotions But when you fall it is without any warning You struggle to pull out and rebound But how far would you fly before you feel you are dangling at the edge of a cord Because you are not graceful but scarred and sometimes forget how heavy your heart is And Freefall is a collection of such writings of a fall that eventually happens in the dotted lines of your life When your happiest thing stumbles you feel the emotion mercilessly equal to being bereft without life Nothing will piece you back together but once you hit the ground you would know exactly why fate dropped you hard Freefall would imprint a mysterious place with an infinite amount of feelings within you

Betrayal and Betrayers Malin Åkerström, Betrayal has a deep fascination It captures our imagination in part because we have all betrayed or been betrayed in small or large ways Despite this there has been little serious work on the subject It was this absence that inspired this book As Akerstrom notes betrayal is something that most people have encountered at some point in their lives She defines betrayal as a breach of trust when information is shared beyond an agreed upon boundary of relations whether that boundary is a pair of friends or a nation Taking as a point of departure Simmers work on secrets and secrecy Akerstrom discusses categories of betrayal and conditions that influence its intensity Sometimes the betrayer is seen as a hero and at other times a traitor and sometimes there are competing loyalties In certain situations she reminds us it is difficult to avoid betrayal or the perception of betrayal Akerstrom discusses strategies people employ to avoid betraying ranging from not telling to making sure one does not know about something in the first place With deft precision she clarifies distinctions and in the process broadens our understanding Initially inspired by insights arising from her research on the criminal informer for which she had done in depth interviews Akerstrom supplements these with interviews with policemen She has also drawn from her experiences in the field of social work particularly with women's and crime shelters Using biographies autobiographies and a broad range of literature related to

spies World War II the McCarthy era and recent literature on whistle blowing Akerstrom has defined a fascinating theme While her illustrations are sometimes dramatic she hopes that readers will perceive obvious parallels with their own experiences Social psychologists sociologists criminologists and others interested in secrecy secrets and those who betray them to others will find this an unusual and absorbing volume *Youth Culture and Net Culture: Online Social Practices* Dunkels, Elza, Franberg, Gun-Marie, Hallgren, Camilla, 2010-12-31 Discusses the complex relationship between technology and youth culture while outlining the details of various online social activities INTERLANGUAGE PRAGMATICS OF INVITATION Lestari Ambar Sukesti, 2014-10-20 Understanding grammar does not guarantee speaking or making utterances appropriately Cohen 1996 Thomas 1983 As pragmatics differs from one culture to other second or foreign language learners should acquire the sociopragmatics and pragmalinguistic rules of the foreign or second language to enable them to make communication effectively with native speakers Miscommunication often occurs due to incident that people make use of the rules of their native pragmatics to express intention in other culture without realizing the difference between these two cultures Thomas 1983 Error in grammar could be tolerable but inappropriateness will affect the communication outcomes The conversation may lead to an awkward situation which is not realized by the learners of the language Invitation is a part of speech acts which reflects the actualization of an illocutionary intention of a speaker through utterances either spoken or written The speech act of invitation emerges when someone asks somebody else to attend to a kind of occasion usually the one that is hosted by the inviter Suzuki s findings in his research on making invitation by native American undergraduate students describe 2 different strategies namely Want W and asking for Willingness AW however based on the writer s findings in her research on interlanguage pragmatics of invitation by Indonesian EFL learners there are three more strategies in making invitation namely Performative P Imperative I and Hoping H Gender also influences in making inviting strategies based on social status and familiarity including the use of deference or solidarity markers Male participants use more various solidarity markers especially when the invitation is addressed to female invitees It might happen as male participants try to touch the invitee emotionally and keep close to the invitees Both male and female participants tend to verbose The more descriptors in the scenarios the more explanations the participants use in inviting others However the most significant finding is that female participants is said to adopt more performative P and hoping strategy H in all situations Female participant is considered expectant to the invitation to be fulfilled by the invitees The contribution of distance power and rank of imposition to the way the participants elicit their politeness strategies was also found in this study When there is a distance between the inveter and the invitee the participants make different ways in making inviting strategies However in the realm of pragmalinguistics the participants cannot differentiate the use of neutral and polite strategies while addressing the invitation to higher level of the invitees It is found out in the use of willingness neutral and imperative strategies by the participants to invitees who are of higher status It might due to the lack of pragmatics
