Of Good Character James Arthur, 2015-10-19 There has been across the world a resurgence of interest in values education values education is known internationally by a number of names at school education research and policy levels In Australia the Australian Values Education projects led to the government initiating a number of large scale curriculum developments and resources projects as part of its expressed policy to introduce values education programmes in all schools

UNESCO has its own values education programme entitled Living Values that functions in 84 countries In the United Kingdom the introduction of the National Curriculum in England has led to a major effort to develop what is variously described as a moral or ethical perspective In England the education of the moral child has been both an underpinning aspiration of the National Curriculum and a focus of particular curricular subjects most notably citizenship education The purpose of this book is to make a contribution to this emerging field and to do so in two ways First it presents a substantial body of empirical evidence the results of the largest UK study to date of what parents pupils and teachers are thinking and doing in the area of moral education and more specifically character education Second it seeks to elucidate more clearly what those involved in the debate mean by the terms used The terms used in relation to moral and character education are not fixed and are sometimes used apparently in different senses by different contributors and for different purposes As a result of these two features the present work offers some suggestions about possible ways forward in developing concrete proposals for moral education in particular in identifying an appropriate language that can be used by practitioners in situations on the ground

Annual Report American Tract Society,1837 Collective Morality and Crime in the Americas Christopher Birkbeck,2013 This book examines the nature of collective morality as it materializes in public commentary about crime in the Americas and identifies the ways in which the moral community is talked into being and how the imagined moral universe is mapped
