*Ritual as a Missing Link* J. David Knottnerus, 2016-01-08 Up to now ritual has been under utilised for studying human behaviour This book narrows the gap in our understanding of the social causes and consequences of our actions by focusing on the ritualised behaviours that define much of our daily lives Knottnerus breaks new ground by comprehensively describing structural ritualistic theory He shows how structural reproduction has occurred throughout the world how rituals can be strategically used and how power can influence rituals and how the disruption and reconstitution of ritual is of crucial importance for human beings This book shows that ritual provides a missing link in sociology and helps us better explain the extreme complexity of human action and social reality *Le grand livre des témoins* Irène Michine, 2005 Testimony from the Nazi Camps Margaret-Anne Hutton, 2005 This book focuses on a little known corpus of testimonial accounts published by French women deported to Nazi camps and will be of interest to those studying modern French literature women s studies and the Holocaust
