Strategies of Multinational corporations in the emerging markets China and India Andreas van de Kuil, 2008-10-29 Inhaltsangabe Abstract In recent years China and India have become two of the most important markets in

terms of sales low cost manufacturing and R D operations The future progress will increase the competitive advantage for both countries and attract MNC s from all over the world to invest Nevertheless success is not guaranteed even with the large business opportunities that China and India provide A MNC has to be aware of various challenges that both countries pose such as government interventions underdeveloped infrastructures or copyright violations Hence MNC s need efficient strategies in order to compete and improve their position in these markets Particularly the implementation of an efficient innovation and knowledge strategy has become a crucial aspect Effectiveness in local product adjustments globalizing R D tailoring talent management mastering the complexity of global value chains and managing risks are success factors that have to be considered This however is not an easy task Multiple failures of MNC s in China and India demonstrate that it is important to adapt a company s strategy to the local customer needs and to obtain a competitive advantage in the field of innovation The purpose of this master thesis is to discuss all these aspects and present crucial factors for the implementation of an efficient strategy for the two markets China and India with a focus on innovation and knowledge Obviously there are limits to the scope of this dissertation Some aspects as for example the cultural background of both countries governmental restrictions the role of outsourcing or the availability of financial resources have either not been considered or are only discussed briefly Moreover this dissertation will only provide a general overview as the business environment of MNC s in each market will differ

Introduction In the last 10 to 20 years the term emerging market has become very important in the international business context because countries such as China or India grew heavily and created new enormous market segments Companies from all over the world are seeking to do business in economically developing countries because of their great potential Gross domestic product GDP per capita figures exceeding 10 per cent a year a business environment of over five billion people approximately 80 per cent of the global population a growing domestic customer group of wealthy people excellently educated

Resources in Education, 1998-07 **Reading for Academic Success**

Richard W. Strong, 2002-02-19 Not just for reading teachers, this book is ideal for all secondary content areas. Each chapter includes a wealth of resources such as powerful reading strategies, vivid classroom examples, and Strategies for Struggling Readers sections to help close the achievement gap between proficient and at-risk students. Rachel Billmeyer, Educational Consultant, Author, *Capturing ALL of the Reader Through the Reading Assessment System*. The authors bring together the latest research on many current topics and offer practical strategies that can be readily implemented in the classroom. Practitioners will be thrilled with the clarity and the significance of the examples presented. Anne Grall Reichel, North Cook Intermediate Service Center, Des Plaines, IL. Many secondary teachers do not know how to help students improve their reading skills. This book will definitely help. Margo Marvin, Director of Curriculum and Technology, Windsor Locks Public Schools, CT. This is the best synthesis of reading strategies that I've seen. I will definitely use this book. Jeanelle Bland, Professor of Education, Eastern Connecticut State University. Empower your students with a reading skills and watch achievement soar. Students' mastery of subject matter rests heavily upon their ability to read proficiently. Likewise, a teacher's capacity to cover all the material in a course and cultivate successful learners depends largely on the students' reading skills, as these skills are inextricably linked to problem solving, critical thinking, writing, researching, organizing, ideas, reasoning, and creativity. Through specific examples, real-life scenarios, diagrams, and detailed guidelines, this book vividly conveys the most fundamental and effective means to boost student learning and teacher performance. The wealth of easy-to-use strategies and the authors' warm and encouraging tone further enhance the easy integration of the valuable information provided. Key features include: Exploration of the seven core reading challenges and corresponding strategies for success; Tips for tailoring each strategy to distinct disciplines from science and mathematics to English and social studies; A Strategies for Struggling Readers section in each chapter that highlights ways to meet the needs of students with learning disabilities and other special needs; Practical applications that implement and reinforce research findings, including the five common characteristics of successful readers. Expressly designed for the secondary teacher, the down-to-earth approach and proven methods outlined can have a significant and far-reaching positive impact in any school, turning even average or below-average students into high-achieving, thoughtful readers.
