## 14th Cent Icelandic Verse On:

Fourteenth-century Icelandic Verse on the Virgin Mary Kellinde Wrightson, 2001 FOURTEENTH CENTURY ICELANDIC VERSE ON THE VIRGIN MARY The five skaldic poems in this volume are among the finest examples of medieval literature composed in the vernacular in honour of the Virgin Mary They are part of an extensive corpus of Old Icelandic Marian texts which is significant not merely for its size but more importantly for its contribution to our understanding of the cult of the Virgin in Western Europe Dated to the late fourteenth century the lamentation poem Drapa of Mariugrat and the miracle poems Vitnisvisur of Mariu and Mariuvisur I III are among the earliest extant evidence of Old Icelandic Marian poetry There has been no lack of attention paid to these texts by scholarly editors publishing in languages other than English from Jon Porkelsson's Danish edition of fragments of the poems in 1888 to Bernhard Kahle and Hans Sperber's German editions in 1898 and 1911 respectively through to Finnur Jonsson's Danish edition and translation in 1912 15 and Ernst A Kock's Swedish edition in 1946 49 While valuable in their particular ways for instance both Kahle and Sperber discuss the metrical features in detail these editions have not addressed the main issues associated with this group of Marian vernacular poems These five skaldic poems for example have never been edited as a set on their own separate from other religious poetry yet like so much Marian literature especially the miracles these Old Icelandic texts lend themselves to such treatment Nor did any of the past editions include a glossary for these texts which contain many words and phrases associated with the Mary cult and the monastic culture in which they appear to have been composed Perhaps most significantly no attempt was made by the past editors to place these poems in a broader European context to trace at least some of the source texts which make up the textual history of Drapa af Mariugrat Vitnisvisur af Mariu and Mariuvisur I III and to find a legitimate place for this Old Icelandic contribution in the cult of the Virgin across Western Europe The present edition aims to fill these needs by providing a reliable and accessible text of the five poems while the editor is planning to publish more comprehensive studies of the sources and analogues in article form and is also completing a new critical edition with English translations and commentary of some of the related miracle stories about the Virgin Mary in medieval Icelandic prose see pp xx and x below

The Saints in Old Norse and early Modern Icelandic Poetry Kirsten Wolf, Natalie M. Van Deusen, 2017-01-01 The Saints in Old Norse and Early Modern Icelandic Poetry is a complimentary volume to The Legends of the Saints in Old Norse Icelandic Prose UTP 2013 This volume focuses on Icelandic devotional poetry created during the early modern period The Church in Fourteenth-Century Iceland Erika Sigurdson, 2016-08-09 In The Church in Fourteenth Century Iceland Erika Sigurdson provides a history of the fourteenth century Icelandic Church with a focus on the the social status of elite clerics following the introduction of benefices to Iceland In this period the elite clergy developed a shared identity based in part on universal clerical values but also on a shared sense of interdependence personal networks and connections within the framework of the Church The Church in Fourteenth Century Iceland examines the development of this social group through an analysis of

bishops sagas annals and documents In the process it chronicles major developments in the Icelandic Church after the reforms of the late thirteenth century including its emphasis on property and land ownership and the growth of ecclesiastical bureaucracy

**Poetry in Sagas of Icelanders** Margaret Clunies Ross, 2022 First full analysis of the skaldic verse appearing in the family sagas of Icelanders considering why and how it is deployed Sagas of Icelanders also called family sagas are the best known of the many literary genres that flourished in medieval Iceland most of them achieving written form during the thirteenth and early fourteenth centuries Modern readers and critics often praise their apparently realistic descriptions of the lives loves and feuds of settler families of the first century and a half of Iceland's commonwealth period c AD 970 1030 but this ascription of realism fails to account for one of the most important components of these sagas the abundance of skaldic poetry mostly in dróttkvætt court metre which comes to saga heroes lips at moments of crisis These presumed voices from the past and their integration into the narrative present of the written sagas are the subject of this book It investigates what motivated Icelandic writers to develop this particular mode and what particular literary effects they achieved by it It also looks at the various paths saga writers took within the evolving prosimetrum a mixed verse and prose form and explores their likely reasons for using poetry in diverse ways Consideration is also given to the evolution of the genre in the context of the growing popularity in Iceland of romantic and legendary sagas A final chapter is devoted to understanding why a minority of sagas of Icelanders do not use poetry at all in their narratives what particular literary effects they achieved by it It also looks at the various paths saga writers took within the evolving prosimetrum a mixed verse and prose form and explores their likely reasons for using poetry in diverse ways Consideration is also given to the evolution of the genre in the context of the growing popularity in Iceland of romantic and legendary sagas A final chapter is devoted to understanding why a minority of sagas of Icelanders do not use poetry at all in their narratives what particular literary effects they achieved by it It also looks at the various paths saga writers took within the evolving prosimetrum a mixed verse and prose form and explores their likely reasons for using poetry in diverse ways Consideration is also given to the evolution of the genre in the context of the growing popularity in Iceland of romantic and legendary sagas A final chapter is devoted to understanding why a minority of sagas of Icelanders do not use poetry at all in their narratives

**Dominican Resonances in Medieval Iceland**, 2021-08-16 Dominican Resonances in Medieval Iceland explores the life and legacy of Jón Halldórsson Bishop of Skálholt 1322-39 a Dominican who had studied the liberal arts in Paris and canon law in Bologna Combining different disciplinary approaches literary and intellectual history manuscript studies musicology this book aims to examine

the conditions under which literate culture thrived in 14th century Scandinavia The studies included in this volume consider Jón Halldórsson's educational background and his contributions as a storyteller to Old Norse literature focusing especially upon legendary sagas such as *Clari saga* and examining their link to the Dominican tradition of exempla The volume also includes critical studies of manuscripts that contain tales and adventures secular law and canon law administrative writings as well as music and liturgy from the province of Nidaros Combining these various analytical perspectives results in rich insights with broad implications for our understanding of medieval Nordic culture Contributors are Astrid Marner Christian Etheridge Embla Aae Gisela Attinger Gottskálk Jónsson Gunnar Hararson Hjalti Snorrarson Karl G. Johansson Stefan Drechsler Vádis Ragnheiðardóttir and Viðar Pálsson *Saints and Their Legacies in Medieval Iceland* Kirsten Wolf, Dario Bullitta, 2021

Icelanders venerated numerous saints both indigenous and from overseas in the Middle Ages However although its literary elite was well acquainted with contemporary Continental currents in hagiographic compositions theological discussions and worship practices much of the history of the learned European networks through which the Icelandic cult of the saints developed and partially survived the Lutheran Reformation remains obscure The essays collected in this volume address this lacuna by exploring the legacies of the cult of some of the most prominent saints and holy men in medieval Iceland the Virgin Mary along with SS Agnes of Rome Benedict of Nursia Catherine of Alexandria Dominic of Caleruega Michael the Archangel John of Holar orlókr of Skálholt Laurentius of Holar and Guomundr the Good using evidence drawn from Old Norse Icelandic and Latin hagiographic literature homilies prayers diplomas sacred art place names and church dedications By placing the medieval Icelandic cult of the saints within its wider European context the contributions trace new historical routes of cultural transmission and define the creative processes of the accommodation and adaptation of foreign hagiographic sources and models in medieval and early modern Iceland They provide a clear picture of an Icelandic hagiographic literature and culture that celebrates the splendour of the saints they also show how an engaging literary genre which became immensely popular on the island throughout the Middle Ages and beyond was created *Denmark and Europe in the Middle Ages, c.1000–1525* Kerstin Hundahl, Lars Kjær, Niels Lund, 2016-05-23

Where medieval Denmark and Scandinavia as a whole has often been seen as a cultural backwater that passively and belatedly received cultural and political impulses from Western Europe Professor Michael H. Gelting and scholars inspired by him have shown that the intellectual religious and political elite of Denmark actively participated in the renaissance and reformation of the central and later medieval period This work has wide ramifications for understanding developments in medieval Europe but so far the discussion has taken place only in Danish language publications This anthology brings the latest research in Danish medieval history to a wider audience and integrates it with contemporary international discussions of the making of the European middle ages
