highways like the Bay Bridge were seismically reinforced and retrofitted I 880 was demolished as was I 280 and the Central Freeway Over the next several years the Bay Area rebuilt and rerouted these highways which cost billions of dollars The unfinished double decker Embarcadero Freeway which had been approved over 30 years before the earthquake despite stiff resistance was also demolished The 1989 Bay Area Earthquake The Story of San Francisco s Second Deadliest Earthquake chronicles one of the most notorious natural disasters in California s history and one of the most important seismic events on record Along with pictures of important people places and events you will learn about the 1989 Bay Area earthquake like never before in no time at all      **The Loma Prieta, California, Earthquake of October 17, 1989** Ruth A.
