Michael Saffle, 2012-10-12 The essays in this collection reflect the range and depth of musical life in the United States during the first half of the twentieth century Contributions consider the rise and triumph of popular forms such as jazz swing and blues as well as the contributions to art music of composers such as Ives Cage and Copland among others American contributions to music technology and dissemination and the role of these forms in extending the audience for music is also a focus Bibliographic Guide to Music New York Public Library. Music Division, 1997 *Follies, Orchestrations by Jonathan Tunick, Part 1* Stephen Sondheim, Jonathan Tunick, Jon Alan Conrad, This edition presents Jonathan Tunick's orchestrations of Stephen Sondheim's musical *Follies* in full score *Follies* is set in 1971 the year of its creation at a reunion of the fictional Weismann *Follies* on the eve of their theater's destruction This scenario gives Sondheim who wrote both music and lyrics the opportunity to create what amounts to two interlocking scores One explores the thoughts and interactions of the guests the music often revealing the lies behind their words The other recalling the *Follies* performances of decades earlier allows Sondheim to evoke the words and music of Irving Berlin Cole Porter and many other popular songwriters from the interwar period The show culminates in a series of fantasy production numbers that unite past and present displaying each of the four principals in his or her own folly using materials evocative of the past to suggest the pain behind popular entertainment and the dangers of nostalgia Publishing the music in full score a rarity for musicals allows a full appreciation of both its detail and Jonathan Tunick's orchestrations This edition is published by permission of Round Hill Carlin previously Carlin America Inc
