Timelines of American Literature Cody Marrs,Christopher Hager,2019-01-29 A collection of engaging essays that seeks to uniquely reperiodize American literature It is all but inevitable for literary history to be divided into periods Early American antebellum modern post 1945 such designations organize our knowledge of the past and shape the ways we discuss that past today These periods tend to align with the watershed moments in American history even as the field has shifted its perspective away from the nation state It is high time we rethink these defining periods of American literary history as the drawing of literary timelines is a necessary even illuminating practice In these short spirited and imaginative essays 23 leading Americanists gamely fashion new unorthodox literary periods from 600 B C E to the present from the Age of Van Buren to the Age of Microeconomics They bring to light literary and cultural histories that have been obscured by traditional timelines and raise provocative questions What is our definition of modernism if we imagine it stretching from 1865 to 1965 instead of 1890 to 1945 How does the captivity narrative change when we consider it as a contemporary not just a colonial genre What does the course of American literature look like set against the backdrop of federal denials of Native sovereignty or housing policies that exacerbated segregation Filled with challenges to scholars inspirations for teachers anchored by an appendix of syllabi and entry points for students *Timelines of American Literature* gathers some of the most exciting new work in the field to showcase the revelatory potential of fresh thinking about how we organize the literary past

previous histories of Christianity usually have a European or North American perspective students will find this book useful for its global coverage It can be used in three ways Firstly it can be used chronologically as a continuous global timeline It can also be used as a sampling of Christianity in each country or as an index of significant figures in the history of global Christianity Each section is cross referenced to the timeline making it a valuable resource for historical study 1910s Gail B. Broken Timelines - Book 2: Mesopotamia Jack Stornoway, 2019-04-16 The current conventional Mesopotamian timeline of dynastic Mesopotamia is impossible Believing in it means endorsing the idea the Egyptians lagged thousand years behind the Sumerians technologically during the Middle Kingdom This timeline forces the bronze age Harappan civilization to have existed as recently as 1200 BC even as an iron age civilization had existed on the Ganges since at least 1800 BC It is also not what the ancient Sumerians actually recorded so believing it means believing that modern Assyriologists know more about ancient Sumer than the ancient Sumerians themselves Given that the ancient Sumerians lived through it and all Assyriologists have to go on is random bits of clay tablets and mostly ruined city mounds this seems like an incredible stretch of the imagination The fact is Assyriologists cant and don t need to explain the anachronisms because the Mesopotamian timeline is synchronized with the Egyptian timeline which Egyptologists insist on keeping as short as possible The idea that the ancient Sumerians built their earliest cities in the marshlands of Southern Iraq using stone imported from other countries is entirely illogical they would have simply built them using mud bricks as they did in the later periods As the stone had to have been locally quarried the region could not have been a marshland when the earliest cities built meaning that the oldest levels of Uruk and Eridu must date back to before the region began turning into a marshland circa 9 000 years ago The fact that they switched to using mud bricks simply proves that the water levels rose during the course of Sumerian history flooding their farmlands and ultimately forcing the Mesopotamian cultures to migrate northward to Akkadia Babylonia and Assyria The fact that Assyriologists ignore the ancient Sumerian records of the antediluvian era is probably for the best as they cannot even accept that the 1st Kish Dynasty went back to 25 000 BC even though it has been proven that grains was being farmed in the region at that time Unfortunately the timeline of Egypt and Sumer are the two pillars that ancient history is built around As the early Sumerians were trading with the early Egyptians Assyriologists have been forced to synchronize the Mesopotamian timeline with the preposterous timeline used by Egyptologists While this means that most of Sumerian history is has to be ignored is also effects the timelines of all other Eurasian cultures in contact with the Mesopotamian The Harappan civilization of ancient India was trading with the Sumerians throughout its history and went into decline around the end of the Sumero Akkadian dynastic period which means the entire Harappan civilization is forced to correlate with the short Conventional Mesopotamian Timeline This forced the entire Harappan timeline into a period of 2000 years even though some of the archaeological sites in Pakistan and India have been carbon dated back to over 8000 BC These broken timelines

A Timeline of The Journey of Humankind George A. Brooks, 2024-07-23 The story of humankind begins 13.8 billion years ago when the universe came into being instantly everywhere at the same time There was only darkness until the stars began to light up This begins the long journey of humankind through the formation in supernovae of the elements that will form our bodies to the formation of the sun the earth and the moon until our home brings forth life Our planet has survived numerous events that threatened to extinguish that life but ultimately our most remote ancestors began to walk the plains mountains and valleys of Africa In remote prehistory groups of people migrated out of Africa eventually to populate the whole world The author provides a timeline for the major events that eventually shaped the modern world In the earliest settlements humans domesticated plants and animals Over time they formed city states Civilizations rose and fell passing along little snippets of knowledge to

those who followed The journey acquaints the reader with these great civilizations and the people who gave us the arts and sciences and the rules of law for living together The civilizations of Athens and Rome became the foundation of western civilization In the last two thousand years world history is dominated by the spread of Christianity Therefore the journey takes us through those events in Judea to the kings queens popes and emperors of Europe while events are also unfolding in Africa the Middle East Asia and the Americas The modern world has been largely shaped by the colonial period beginning about 1500 AD Much attention is given to events since then which are proximate to the world we experience today World Wars I and II then shaped most of the modern nation states in which we live The author allows the reader to stand apart and be an observer of the journey of humankind We have taken many different paths to arrive in the modern world with wonderfully diverse appearances languages and traditions but we are all one family The author hopes we will embrace our differences and act together as the family we are while shaping the future The Incarcerated Modern Golnar
