1966 And All That My Autobiography:

1966 and All that Geoff Hurst, Michael Hart, 2002-05 Geoff Hurst's unique hat trick in the 1966 World Cup final catapulted him to international superstardom and changed his life forever. Now in this updated edition of his long-awaited and bestselling autobiography he recalls England's greatest sporting moment and reveals the inside story of what it was like playing with and against some of the greatest names in history: Pele, Moore, Beckenbauer and Charlton. His assessment of today's superstars packed with insight from one of the game's true legends must be read as England look to the future with an exciting young squad. Sport as History Tony Collins, 2013-09-13 Published to mark the career of one of sports history's pioneers, this book traces the evolution of sport across three continents. It brings together some of sports history's leading scholars to investigate not only the history of sport but also how that history is written. This Festschrift marks the retirement of Professor Wray Vamplew, an internationally renowned leader in the field of sports history. His 1976 book *The Turf* was one of the very first academic histories of sport, and he has been a prolific writer, scholar, and teacher for almost forty years. No one has played such an important role in the field of sports history across North America, Europe, and Australia. President of the Australian Society of Sports History (ASSH), the British Society of Sports History (BSSH), the European Committee for the History of Sport (CESH), and the International Society for the History of Physical Education and Sport (ISHPES), Vamplew is currently editor of the North American Society for Sports History's NASSH journal, the *Journal of Sport History*. This collection reflects his interests and his appeal across the three continents; the essays deal with sport in America, Australia, Britain, and Ireland and focus on the themes of national and regional identity, gender, trade unionism in sport, and historiographical debates. It is essential reading for anyone who wants to understand the history of sport and how it is studied today. This book was published as a special issue of *Sport in History*. *Football Nation* Andrew Ward, John Williams, 2009-08-03 Football is at the heart of British national identity, intrinsically linked to our social history. Through more than forty fascinating stories, *Football Nation* reveals the hidden and not so hidden history of the game since 1945. From the mass audiences of austerity Britain and the introduction of floodlights at Accrington Stanley in the 1950s through the escalating hooliganism of the 1970s and the arrival of the first all-seater stadium at Coventry in the 1980s to the Hillsborough disaster and the coming of the Premiership, Andrew Ward and John Williams reveal the truth about the national game as it was once and is today in the age of satellite TV, celebrity lifestyle, and extreme wealth. Looking back at the days when footballers were amateurs who travelled to the match with the fans, right through to the present day where top-flight players command a higher weekly wage than the average spectator can earn in a year, *Football Nation* is informed, wryly amusing, often surprising, and always vastly entertaining. It offers an entirely fresh perspective on the history of the beautiful game in Britain. *Escape Emerald* 2 Bill H.
