A Bed Called Home Mamphela Ramphele,1993 In the last three years the migrant labor hostels of South Africa particularly those in the Transvaal have gained international notoriety as theaters of violence For many years they were hidden from public view and neglected by the white authorities Now it seems hostel dwellers may have chosen physical violence to draw attention to the structural violence of their appalling conditions of life Yet we should not lose sight of the fact that the majority of hostel dwellers are peace loving people who have over the years developed creative strategies to cope with their impoverished and degrading environment In this challenging study Dr Mamphela Ramphele documents the life of the hostel dwellers of Cape Town for whom a bed is literally a home for both themselves and their families Elaborating the concept of space in its many dimensions not just physical but political ideological social and economic as well she emphasizes the constraints exerted on hostel dwellers by the limited spaces they inhabit At the same time she argues that within these constraints people have managed to find room for manoeuvre and in her book explores the emancipatory possibilities of their environment The text is illustrated with a number of black and white photographs taken by Roger Meintjes in the townships and hostels *Monthly Catalog of United States Government Publications* ,1995 **Monthly Catalogue, United States Public Documents** ,1989 **National Library of Medicine News** National Library of Medicine (U.S.),1986 **Fiscal Year 1993 Department of Veterans Affairs Budget** United States.
