Israel Yearbook on Human Rights, Volume 36 (2006) Yoram Dinstein, Fania Domb, 2006-11-01 The Israel Yearbook on Human Rights an annual published under the auspices of the Faculty of Law of Tel Aviv University since 1971 is devoted to publishing studies by distinguished scholars in Israel and other countries on human rights in peace and war with particular emphasis on problems relevant to the State of Israel and the Jewish people The Yearbook also incorporates documentary materials relating to Israel and the Administered Areas which are not otherwise available in English including summaries of judicial decisions compilations of legislative enactments and military proclamations The highlight of Volume 36 of the Israel Yearbook on Human Rights is a reproduction of the full text and commentary of a new Manual relating to Non International Armed Conflicts prepared by a Drafting Committee under the aegis of the San Remo International Institute of Humanitarian Law This is a sequel to the well known San Remo Manual on International Law Applicable to Armed Conflicts at Sea published in 1995 The new Manual reflects the results of a larger Project launched by the Institute the background papers of which were printed in full in volume 30 2000 of the Yearbook The sphere of non international armed conflicts is gaining increasing importance and attention due to the growing frequency and menace of internal wars The imperative need to come up with an authoritative restatement of the law governing these conflicts has become obvious This is a first attempt of its kind and it is bound to arouse interest and debate

Naval Coalition Warfare Bruce A. Elleman, S.C.M. Paine, 2007-08-23 This is the first scholarly book examining naval coalition warfare over the past two centuries from a multi national perspective Containing case studies by some of the foremost naval historians from the US Great Britain and Australia it also examines the impact of international law on

coalitions Together these collected essays comprise a comprehensive examination of the most important naval coalitions of the nineteenth and twentieth centuries Chapters are arranged chronologically beginning with the Napoleonic Wars and ending with the second Gulf War and each makes use of new research and methodologies to address the creation of the coalition its actions and its short and long term repercussions The editors draw contemporary lessons from the book s historical case studies These findings are used to discuss the likelihood and character of future naval coalition for example the likelihood and possible outcome of an anti PRC coalition in defence of Taiwan Naval Coalition Warfare will be of great interest to students of naval history strategic studies international history and international relations in general *The Gulf War 1990-91 in International and English Law* Peter Rowe, 2005-10-05 There is no doubt that international law was of major importance during the Gulf conflict of 1990 91 Military and other actions were repeatedly justified through reference to international law and disputes about interpretation were frequent This book provides a definitive legal analysis of the conflict with reference both to international and to English law Some have been tempted to argue that international law is an ineffective means of controlling the activities of a state and its armed forces from the fact that there were no war crimes trials of the leaders of Iraq or of any other state International law does however provide a set of norms either a agreed to by individual states through the ratification of or accession to a treaty or b which apply to all states by the operation of customary international law and other secondary sources This book determines these norms in order to judge the manner in which individual states recognized the binding nature of them in the conduct of their operations The contributors include lawyers from each of the three British armed services
