May, 2025-02-04 Who were some of the early pioneers of colonial African American Christianity Were there specific doctrines that shaped colonial African American evangelical theology Did influential colonial African American Christians prioritize their racial identity above and beyond their Christian identity How did some African American Christians construct their Blackness sense of belonging and existence within shared space with the human Other The genuine Christian faith of many colonial evangelical African Americans has been for some time systematically ignored dismissed and neglected The darker aspect of this agenda at least for some is that when these colonial Christians are discussed their existence is typically reinterpreted through contemporary Western racialized politics The greatest protagonists of this sociopolitical drama have been various influential Black scholars within and outside the academy This project serves as an introductory discourse into the theology and authentic faith of various colonial evangelical African Americans who influenced the identity sense of belonging and conceptions of shared space for Christians within and outside the colonial Black church The journey this book will take some through is within the conservative evangelical tradition of African American Christianity *Jesus and the Quest for Meaning* Thomas H. West, A new approach to introducing theology As God's self communication to humans Jesus is the key to the human search for meaning argues Thomas West He therefore introduces the practice of theology through Christology From the question of personal meaning and self constitution and their relationship to transcendent meaning and value he proceeds to discuss the figure and import of Jesus and then the ethical imperative engendered through encounter with him Fresh and clear West's book is an invitation to grapple with one's religious commitments especially in light of recent insights in biblical studies and Continental feminist and liberation theologies This new text will prove an engaging and effective introduction to theological thinking for both undergraduates and Christian adults *Billboard*, 2005-01-08 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends *The Inner Life of Mestizo Nationalism* Estelle Tarica, 2008 The only recent English language work on Spanish American indigenismo from a literary perspective Estelle Tarica's work shows how modern Mexican and Andean discourses about the relationship between Indians and non Indians create a unique literary aesthetic that is instrumental in defining the experience of mestizo nationalism Engaging with narratives by Jess Lara Jos Mara Arguedas and Rosario Castellanos among other thinkers Tarica explores the rhetorical and ideological aspects of

interethnic affinity and connection In her examination she demonstrates that these connections posed a challenge to existing racial hierarchies in Spanish America by celebrating a new kind of national self at the same time that they contributed to new forms of subjection and discrimination Going beyond debates about the relative merits of indigenismo and mestizaje Tarica puts forward a new perspective on indigenista literature and modern mestizo identities by revealing how these ideologies are symptomatic of the dilemmas of national subject formation The Inner Life of Mestizo Nationalism offers insight into the contemporary resurgence and importance of indigenista discourses in Latin America Estelle Tarica is associate professor of Latin American literature and culture at the University of California Berkeley

Chun-chieh Huang,2019-10-31 Among twentieth century Confucians Xu Fuguan 1904 1982 remains preeminent This volume written by Chun chieh Huang an authority on Xu s life and thought offers English speaking readers for the first time an exhaustive analysis of the philosopher s original ideas and research A distinguished member of the group of Contemporary New Confucians Xu made a significant contribution to the revival of Chinese culture and society and the present book outlines the specific features of his legacy in comparison with the views of some of his influential Chinese and Japanese contemporaries The topics covered illustrate an overarching idea namely the innovative way in which Xu Fuguan answers a major question concerning Chinese culture one posed by Chinese intellectuals since the May Fourth Movement how best to approach the modernization of China Xu s work is based on the assumption that Confucian thought and ethics the core of Chinese tradition can be modernized because there is nothing in it which is not compatible with the idea of human dignity or rights in modern society Xu addresses the question of China s modernization by offering arguments in favor

of building a connection between Confucianism and democracy mainly its political dimension Huang places his subject in the vast context of twentieth century Chinese Confucian studies and the history of East Asian thought He compares Xu Fuguan with his most influential opponents Hu Shi 1891 1962 and Fu Sinian 1896 1950 as well as fellow Confucians Tang Junyi 1909 1978 and Mou Zongsan 1909 1995 Huang draws further comparisons between Xu s thought and that of Japanese Enlightenment philosopher Fukuzawa Yukichi 1835 1901 and the father of contemporary Japanese capitalism Shibusawa Eiichi 1840 1931 These contrasts highlight the Chineseness of Xu s theories and the marks left by traditional Chinese thought and culture on his writing and life in the countryside where he spent much of his youth
