Subcommittee on Health and Scientific Research, 1977 Seeing Race in Modern America Matthew Pratt Guterl, 2013 In this fiercely urgent book Matthew Pratt Guterl focuses on how and why we come to see race in very particular ways What does it mean to see someone as a color As racially mixed or ethnically ambiguous What history makes such things possible Drawing creatively from advertisements YouTube videos and everything in between Guterl redirects our understanding of racial sight away from the dominant categories of color away from brown and yellow and black and white and instead insists that we confront the visual practices that make those same categories seem so irrefutably important Zooming out for the bigger picture Guterl illuminates the long history of the practice of seeing and believing in race and reveals that our troublesome faith in the details discerned by the discriminating glance is widespread and very popular In so doing he upends the possibility of a postracial society by revealing how deeply race is embedded in our culture with implications that are often matters of life and death **To Save the Children of Korea** Arissa H Oh, 2015-06-17 The important largely unknown story of American adoption of Korean children since the Korean War with remarkably extensive research and great verve Charles K Armstrong Columbia University Arissa Oh argues that international adoption began in the aftermath of the Korean War First established as an emergency measure through which to evacuate mixed race GI babies it became a mechanism through which the Korean government exported its unwanted children the poor the disabled or those lacking Korean fathers Focusing on the legal social and political systems at work To Save the Children of Korea shows how the growth of Korean adoption from the 1950s to the 1980s occurred within the context of the neocolonial US Korea relationship and was facilitated by crucial congruencies in American and Korean racial thought government policies and nationalisms Korean adoption served as a kind of template as international adoption began in the late 1960s to expand to new sending and receiving countries Ultimately Oh demonstrates that although Korea was not the first place that Americans adopted from internationally it was the place where organized systematic international adoption was born Absolutely fascinating Giulia Miller Times Higher Education Gracefully written Oh shows us how domestic politics and desires are intertwined with geopolitical relationships and aims Naoko Shibusawa Brown University Poignant wide ranging analysis and research Kevin Y Kim Canadian Journal of History Illuminates how the spheres of public and private domestic and political are deeply imbricated and complicate American ideologies about family nation and race Kira A Donnell Adoption Culture **Opportunities for Adoption Act of 1977** United States.
