**American Modernism and Depression Documentary** Jeff Allred, 2012-11-01 American Modernism and Depression Documentary surveys the uneven terrain of American modernity through the lens of the documentary book Jeff Allred argues that photo texts of the 1930s stage a set of mediations between rural hinterlands and metropolitan areas between elite producers of culture and the forgotten man of Depression era culture between a myth of consensual national unity and various competing ethnic and regional collectivities In light of the complexity this entails this study takes issue with a critical tradition that has painted the documentary expression of the 1930s as a simplistic and propagandistic divergence from literary modernism Allred situates these texts and the documentary modernism they represent as a central part of American modernism and response to American modernity as he looks at the impoverished sharecroppers depicted in the groundbreaking Let Us Now Praise Famous Men the disenfranchised African Americans in Richard Wright's polemical 12 Million Black Voices and the experiments in Depression era photography found in Life magazine

**Becoming American? The Art and Identity Crisis of Yasuo Kuniyoshi** ShiPu Wang, 2011-05-31 A few short days has changed my status in this country although I myself have not changed at all On December 8 1941 artist Yasuo Kuniyoshi 1889-1953 awoke to find himself branded an enemy alien by the U S government in the aftermath of Japan's attack on Pearl Harbor The historical crisis forced Kuniyoshi an migr Japanese with a distinguished career in American art to rethink his pictorial strategies and to

confront questions of loyalty assimilation national and racial identity that he had carefully avoided in his prewar art As an immigrant who had proclaimed himself to be as American as the next fellow the realization of his now fractured and precarious status catalyzed the development of an emphatic and conscious identity construct that would underlie Kuniyoshi's art and public image for the remainder of his life Drawing on previously unexamined primary sources *Becoming American* is the first scholarly book in over two decades to offer an in depth and critical analysis of Yasuo Kuniyoshi's pivotal works including his anti Japan posters and radio broadcasts for U S propaganda and his coded and increasingly enigmatic paintings within their historical contexts Through the prism of an identity crisis the book examines Kuniyoshi's imagery and writings as vital means for him to engage albeit often reluctantly and ambivalently in discussions about American democracy and ideals at a time when racial and national origins were grounds for mass incarceration and discrimination It is also among the first scholarly studies to investigate the activities of Americans of Japanese descent outside the internment camps and the intense pressures with which they had to deal in the aftermath of Pearl Harbor As an art historical book *Becoming American* foregrounds broader historical debates of what constituted American art a central preoccupation of Kuniyoshi's artistic milieu It illuminates the complicating factors of race diasporas and ideology in the construction of an American cultural identity Timely and provocative the book historicizes and elucidates the ways in which minority artists have been and continue to be both championed and marginalized for their cultural and ethnic difference within the twentieth century American art canon

**African American Artists and the New Deal Art Programs** Mary Ann Calo, 2023-03-20 This book examines the involvement of African American artists in the New Deal art programs of the 1930s Emphasizing broader issues informed by the uniqueness of Black experience rather than individual artists works Mary Ann Calo makes the case that the revolutionary vision of these federal art projects is best understood in the context of access to opportunity mediated by the reality of racial segregation Focusing primarily on the Federal Art Project FAP of the Works Progress Administration WPA Calo documents African American artists participation in community art centers in Harlem in St Louis and throughout the South She examines the internal workings of the Harlem Artists Guild the Guild's activities during the 1930s and its alliances with other groups such as the Artists Union and the National Negro Congress Calo also explores African American artists representation in the exhibitions sponsored by WPA administrators and the critical reception of their work In doing so she elucidates the evolving meanings of the terms race culture and community in the interwar era The book concludes with an essay by Jacqueline Francis on Black artists in the early 1940s after the end of the FAP program Presenting essential new archival information and important insights into the experiences of Black New Deal artists this study expands the factual record and positions the cumulative evidence within the landscape of critical race studies It will be welcomed by art historians and American studies scholars specializing in early twentieth century race relations

In a study that combines archival research a firm grounding in the historical context biographical analysis and sustained attention to specific works of art Amy Lyford provides an account of Isamu Noguchi s work between 1930 and 1950 and situates him among other artists who found it necessary to negotiate the issues of race and national identity In particular Lyford explores Noguchi s sense of his art as a form of social activism and a means of struggling against stereotypes of race ethnicity and national identity Ultimately the aesthetics and rhetoric of American modernism in this period both energized Noguchi s artistic production and constrained his public reputation Ad Reinhardt Michael Corris,2008-03-15 Michael Corris examines Ad Reinhardt s life and work charting the development of his entire oeuvre from abstract paintings to graphic artwork to illustrations and cartoons **Library Catalog** Metropolitan Museum of Art (New York, N.Y.).

**Dark Times, Dire Decisions** Jonathan Frankel,2005-05-19 The newest volume of the annual Studies in Contemporary Jewry series features essays on the varied and often controversial ways Communism and Jewish history interacted during the 20th century The volume s contents examine the relationship between Jews and the Communist movement in Poland Russia America Britain France the Islamic world and Germany *The Social and the Real: Political Art of the 1930s in the Western Hemisphere* ,2006 **Imperialism and the Corruption of Democracies** Herman Lebovics,2006 In this important volume

Herman Lebovics a preeminent cultural historian of France develops a historical argument with striking contemporary relevance empire abroad inevitably undermines democracy at home These essays which Lebovics wrote over the past decade demonstrate the impressive intellectual range of his work Focusing primarily on France and to a lesser extent on the United Kingdom he shows how empire and its repercussions have pervaded and corroded Western cultural intellectual and social life

from the mid nineteenth century to the present Some essays explore why modern Western democratic societies needed colonialism Among these is an examination of the seventeenth century philosopher John Locke s prescient conclusion that liberalism could only control democratic forces with the promise of greater wealth enabled by empire In other essays Lebovics considers the relation between overseas rule and domestic life Discussing George Orwell s tale Shooting an Elephant and the careers of two colonial officers one British and one French he contemplates the ruinous authoritarianism that develops among the administrators of empire Lebovics considers Pierre Bourdieu s thinking about how colonialism affected metropolitan French life and he reflects on the split between sociology and ethnology which was partly based on a desire among intellectuals to think one way about metropolitan populations and another about colonial subjects Turning to the arts Lebovics traces how modernists used the colonial exotic to escape the politicized and contested modernity of the urban West Imperialism and the Corruption of Democracies is a compelling case for cultural history as a key tool for understanding the injurious effects of imperialism and its present day manifestations within globalization
