Recent Advances in Information and Communication

Technology Sirapat Boonkrong, Herwig Unger, Phayung Meesad, 2014-04-12 Computer and Information Technology CIT are now involved in governmental industrial and business domains more than ever. Thus it is important for CIT personnel to continue academic research to improve technology and its adoption to modern applications. The up-to-date research and technologies must be distributed to researchers and CIT community continuously to aid future development. The 10th International Conference on Computing and Information Technology IC 2 IT2014 organized by King Mongkut's University of Technology North Bangkok KMUTNB and partners provides an exchange of the state-of-the-art and future developments in the two key areas of this process: Computer Networking and Data Mining. Behind the background of the foundation of ASEAN it becomes clear that efficient languages, business principles and communication methods need to be adapted, unified and especially optimized to gain a maximum benefit to the users and customers of future IT systems.

Methods for Evaluating Interactive Information Retrieval Systems with Users Diane Kelly, 2009 Provides an overview and instruction on the evaluation of interactive information retrieval systems with users.
