Being American in Europe, 1750-1860 Daniel Kilbride, 2013-05-15 When eighteenth and nineteenth century Americans made their Grand Tour of Europe what did they learn about themselves While visiting Europe In 1844 Harry McCall of Philadelphia wrote to his cousin back home of his disappointment He didn t mind Paris but he preferred the company of Americans to Parisians Furthermore he vowed to be an American heart and soul wherever he traveled but particularly in England Why was he in Europe if he found it so distasteful After all travel in the eighteenth and early nineteenth centuries was expensive time consuming and frequently uncomfortable Being American in Europe 1750 1860 tracks the adventures of American travelers while exploring large questions about how these experiences affected national identity Daniel Kilbride searched the diaries letters published accounts and guidebooks written between the late colonial period and the Civil War His sources are written by people who while prominent in their own time are largely obscure today making this account fresh and unusual Exposure to the Old World generated varied and contradictory concepts of American nationality Travelers often had diverse perspectives because of their region of origin race gender and class Americans in Europe struggled with the tension between defining the United States as a distinct civilization and situating it within a wider world Kilbride describes how these travelers defined themselves while they observed the politics economy morals manners and customs of Europeans He locates an increasingly articulate and refined sense of simplicity and virtue among these visitors and a gradual disappearance of their feelings of awe and inferiority

Protestant Missionaries in the Levant Samir Khalaf, 2012-09-10 Through focusing on the unintended by products of New England Puritanism as a cultural transplant in the Levant this book explores the socio historical forces which account for the failure of early envoys attempts to convert the native population Early failure in conversion led to later success in reinventing themselves as agents of secular and liberal education welfare and popular culture Through making special efforts not to debase local culture the missionaries work resulted in large sections of society becoming protestantized without being evangelized An invaluable resource for postgraduates and those undertaking postdoctoral research this book explores a seminal but overlooked interlude in the encounters between American Protestantism and the Levant Using data from previously unexplored personal narrative accounts Khalaf dates the emergence of the puritanical imagination sparked by sentiments of American exceptionalism voluntarism and soft power to at least a century before commonly assumed

Between Boston and Bombay Jenny Rose, 2019-11-06 A few years after the American declaration of independence the first American ships set sail to India The commercial links that American merchant mariners established with the Parsis of Bombay contributed significantly to the material and intellectual culture of the early Republic in ways that have not been explored until now This book maps the circulation of goods capital and ideas between Bombay Parsis and their contemporaries in the northeastern United States uncovering a surprising range of cultural interaction Just as goods and gifts from the Zoroastrians of India quickly became an integral part of popular culture along the eastern seaboard of the U S so their newly translated religious texts had a considerable impact on American thought Using a wealth of previously unpublished primary sources this work presents the narrative of American Parsi encounters within the broader context of developing global trade and knowledge

Out on Assignment Alice Fahs, 2011-11-17 *Out on Assignment* illuminates the lives and writings of a lost world of women who wrote for major metropolitan newspapers at the start of the twentieth century Using extraordinary archival research Alice Fahs unearths a richly networked community of female journalists drawn by the hundreds to major cities especially New York from all parts of the United States Newspaper women were part of a wave of women seeking new independent urban lives but they struggled to obtain the newspaper work of their dreams Although some female journalists embraced more adventurous reporting including stunt work and undercover assignments many were relegated to the women's page However these intrepid female journalists made the women's page their own Fahs reveals how their writings including celebrity interviews witty sketches of urban life celebrations of being bachelor girls advice columns and a campaign in support of suffrage had far reaching implications for the creation of new modern public spaces for American women at the turn of the century As observers and actors in a new drama of independent urban life newspaper women used the simultaneously liberating and exploitative nature of their work Fahs argues to demonstrate the power of a public voice both individually and collectively May Alcott Nieriker, Author and Advocate Julia Dabbs, 2022-03-01 *May Alcott Nieriker Author and Advocate* examines in depth the writings on art and travel by the youngest sister of famed novelist Louisa May Alcott Like other American women in the later nineteenth century due to her gender May was unable to receive the advanced training and exhibition opportunities in the USA that she needed to become a notable professional painter An additional obstacle was her family's insecure financial status making it difficult to study abroad for training Fortunately thanks to Louisa's generosity May was able to make three extended trips to London and Paris in order to gain further training and eventually attained the honor of having two paintings accepted into the Paris Salon However this book argues that Alcott Nieriker's main contributions to cultural history were not necessarily her artistic creations but rather her publications on travel and art specifically four articles for the *Boston Evening Transcript* and an 1879 guidebook *Studying Art Abroad and How To Do It Cheaply* In these works May sought to transform the art world and social mores through her advocacy for the rights of women to have equal access to a professional artistic career Monthly Catalog of United States Government Publications, 1998 *Monthly Catalogue, United States Public Documents*, 1981 **The Poetics of the Antarctic** William E. Lenz, 2021-03-19 The thesis of this book is that the 19th century interest in the Antarctic functions for modern scholars as an important index to American self discovery and self definition from the 1830s onward According to the author American hopes for confirming identity came to be focused on an unlikely goal the discovery of the illusive Antarctic continent By examining in detail one literary product of the U S Exploring Expedition 1838-1842 to Antarctica James C. Palmer's epic poem *Thulia A Tale of the Antarctic* 1843 and its revision *The Antarctic Mariner's Song* 1868 and by locating these works within their cultural context Lenz reveals the significance and changing meaning of exploration to emerging American

concepts of nationhood The volume also considers the tradition of American sea fiction in the works of such writers as James Fenimore Cooper Edgar Allan Poe and Herman Melville arguing that for these writers the Antarctic was a locus of symbolic meaning while for Palmer it was a process of individual and collective perception The 1868 version of the Palmer poem is attached here as an appendix A useful bibliography follows that appendix

Culture/Contexture E. Valentine Daniel, Jeffrey M. Peck, 2023-11-15 The rapprochement of anthropology and literary studies begun nearly fifteen years ago by such pioneering scholars as Clifford Geertz Edward Said and James Clifford has led not only to the creation of the new scholarly domain of cultural studies but to the deepening and widening of both original fields Literary critics have learned to anthropologize their studies to ask questions about the construction of meanings under historical conditions and reflect on cultural situatedness Anthropologists have discovered narratives other than the master narratives of disciplinary social science that need to be drawn on to compose ethnographies Culture Contexture brings together for the first time literature and anthropology scholars to reflect on the antidisciplinary urge that has made the creative borrowing between their two fields both possible and necessary Critically expanding on such pathbreaking works as James Clifford and George Marcus's *Writing Culture* and Marcus and Michael M J Fischer's *Anthropology as Cultural Critique* contributors explore the fascination that draws the disciplines together and the fears that keep them apart Their topics demonstrate the rich intersection of anthropology and literary studies ranging from reading and race to writing and representation incest and violence and travel and time This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1996

A Reference Guide for English Studies Michael J. Marcuse, 1990-01-01 This ambitious undertaking is designed to acquaint students teachers and researchers with reference sources in any branch of English studies which Marcuse defines as all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature Within each of 24 major sections Marcuse lists and annotates bibliographies guides reviews of research encyclopedias dictionaries journals and

reference histories The annotations and various indexes are models of clarity and usefulness and cross references are liberally supplied where appropriate Although cost conscious librarians will probably consider the several other excellent literary bibliographies in print such as James L Harner s Literary Research Guide Modern Language Assn of America 1989 larger academic libraries will want Marcuse s volume Jack Bales Mary Washington Coll Lib Fredericksburg Va Library Journal Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1972 *Crimes of Writing* Susan Stewart,1991-08-15 From the origins of modern copyright in early eighteenth century culture to the efforts to represent nature and death in postmodern fiction this pioneering book explores a series of problems regarding the containment of representation Stewart focuses on specific cases of crimes of writing the forgeries of George Psalmanazar the production of fakelore the ballad scandals of the eighteenth and nineteenth centuries the imposture of Thomas Chatterton and contemporary legislation regarding graffiti and pornography In this way she emphasizes the issues which arise once language is seen as a matter of property and authorship is viewed as a matter of originality Finally Stewart demonstrates that crimes of writing are delineated by the law because they specifically undermine the status of the law itself the crimes illuminate the irreducible fact that law is written and therefore subject to temporality and interpretation
