Blood Ties And Fictive Ties:

Blood Ties and Fictive Ties Kristin Elizabeth Gager, 2014-07-14 In Paris during the sixteenth and seventeenth centuries the practice of adopting children was strongly discouraged by cultural religious and legal authorities on the grounds that it disrupted family blood lines In fact historians have assumed that adoption had generally not been practiced in France or in the rest of Europe since late antiquity Challenging this view Kristin Gager brings to light evidence showing how married couples and single men and women from the artisan neighborhoods in early modern Paris did manage to adopt children as their legal heirs In so doing she offers a new richly detailed portrait of family life civil law and public assistance in Paris and reveals how citizens forged a wide variety of family forms in defiance of social cultural and legal norms Gager bases her work on documents ranging from previously unexplored notarized contracts of adoption to court cases theological treatises and literary texts She examines two main patterns of adoption those privately arranged between households and those of destitute children from the Parisian foundling hospice and the H tel Dieu Gager argues that although customary law rejected adoption and promoted an exclusively biological model of the family there existed an alternative domestic culture based on a variety of fictive ties Gager connects her arguments to current debates about adoption and the nature of the family in Europe and the United States Originally published in 1996 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Senses of Touch: Human Dignity and Deformity from Michelangelo to Calvin Marjorie O'Rourke Boyle, 2021-10-11 Senses of Touch anatomizes the uniquely human hand as a rhetorical figure for dignity and deformity in early modern culture It concerns a valuational shift from the contemplative ideal as signified by the sense of sight to an active reality as signified by the sense of touch From

posture to piety from manicure to magic the book discovers touch in a critical period of its historical development in anatomy and society It features new interpretations of two landmarks of western civilization Michelangelo s fresco of the Creation of Adam and Calvin s doctrine of election It also accords special attention to the typing of women as sensual creatures by using their hands as a heuristic Its alternative interpretations explore in theory and in practice the sensuality the creativity and the plain utility of hands thus integrating biology and culture Doodem and Council Fire Heidi Bohaker,2021-07-20 Providing rare insights into the doodem tradition and the concept of council fires this book explores Indigenous law and the Anishinaabe s holistic approach to governance territoriality family and kinship structures Kinship as Fiction Anindita Majumdar,Yoko Taguchi,2024-10-25 Bringing together emerging ethnographies on kinship in South Asia this book explores the idea of kinship as fiction in intimate relationships Fictions and fictive kinship within anthropology are contested ideas Increasingly research suggests the idea of intimate relationships has to extend beyond the biological assumption of kinship relations The idea of fiction is also not free from the biological imagination or the persistent dichotomy of nature culture nurture nature This edited volume resurrects the idea of fiction and fictive ness to understand how intimate relationships may use these particular labels translate into practices or create an experiential understanding around relationships The chapters in this book reengage the idea of fiction by exploring the ambiguity within household relationships the process of making and engaging with a craft and skill and the intricacies of making children through IVF and third party involvement They challenge societal norms of marriage and being married by reframing shared substances and the relationality they carry and by remembering deceased ties through acts of resurrection Through vivid illustrations of life and living in South Asia each chapter contributes to an understanding of how fiction and reality are mutually creating each other This book will be beneficial to students academics and scholars of anthropology particularly those interested in kinship and the sociology of the family The chapters in this book were originally published as a special issue of Contemporary South Asia Ideas and Frameworks of Governing India Ranabir Samaddar,2016-05-20 Ideas and Frameworks of Governing India and its companion volume Neo liberal Strategies of Governing India tell the story of governance in independent India and address the critical question how is a post colonial democracy governed Further they attempt to understand why the process of governing a post colonial democracy particularly in the neo liberal age should be studied as the central question within the history of post colonial democracy The volumes offer hitherto unexplored analyses of governance political and ideological aspects along with technological characteristics in a historical framework This volume discusses ideas and issues at the core of governance in post colonial India constitution state making and government formation the asymmetrical nature of the anti colonial foundations of governance In breaking new ground in the study of what constitutes the political subject these volumes will be indispensable to scholars researchers and students of politics public administration development studies South Asian studies and modern India Queer Families in Hungary Rita Béres-Deák,2019-08-20 Set against the backdrop of a country which

Defining Community in Early Modern Europe Michael J.

Halvorson,2016-12-05 Numerous historical studies use the term community to express or comment on social relationships within geographic religious political social or literary settings yet this volume is the first systematic attempt to collect together important examples of this varied work in order to draw comparisons and conclusions about the definition of community across early modern Europe Offering a variety of historical and theoretical approaches the sixteen original essays in this collection survey major regions of Western Europe including France Geneva the German Lands Italy and the Spanish Empire the Netherlands England and Scotland Complementing the regional diversity is a broad spectrum of religious confessions Roman Catholic communities in France Italy and Germany Reformed churches in France Geneva and Scotland Lutheran communities in Germany Mennonites in Germany and the Netherlands English Anglicans Jews in Germany Italy and the Netherlands and Muslim converts returning to Christian England This volume illuminates the variety of ways in which communities were defined and operated across early modern Europe as imposed by community leaders or negotiated across society as defined by belief behavior and memory as marked by rigid boundaries and conflict or by flexibility and change as shaped by art ritual charity or devotional practices and as characterized by the contending or overlapping boundaries of family religion and politics Taken together these chapters demonstrate the complex and changeable nature of community in an era more often characterized as a time of stark certainties and inflexibility As a result the volume contributes a vital resource to the ongoing efforts of scholars to understand the creation and perpetuation of communities and the significance of community definition for early modern Europeans

Akenroye,Marcia Mkansi,Godfrey Mugurusi,Aaron L. Nsakanda,2025-09-26 This edited work assembles knowledge on wide ranging indigenous supply chain management SCM theories and practices from different African countries particularly sub Saharan Africa The chapters concentrate on how African culture influences supply chain practices nature operations structures outcomes and value propositions This is essential knowledge to facilitate a better understanding of what SCM might mean in the African context while also serving as an avenue to evaluate similarities and differences between cross country management theories Africans have historically employed indigenous SCM to address the socioeconomic challenges

they face in the coordination of the movement of goods services and all processes that transform raw materials into finished goods By identifying and examining the differences similarities and complementarities between various African indigenous SCM concepts and ideologies this work will inform the development of new models and interventions in response to Africa s complex business management challenges It will forge new ground for researchers and policymakers regarding effective efficient and sustainable solutions to manage global supply chain challenges *Bonds of Alliance* Brett

Rushforth,2013-06-01 In the seventeenth and eighteenth centuries French colonists and their Native allies participated in a slave trade that spanned half of North America carrying thousands of Native Americans into bondage in the Great Lakes Canada and the Caribbean In *Bonds of Alliance* Brett Rushforth reveals the dynamics of this system from its origins to the end of French colonial rule Balancing a vast geographic and chronological scope with careful attention to the lives of enslaved individuals this book gives voice to those who lived through the ordeal of slavery and along the way shaped French and Native societies Rather than telling a simple story of colonial domination and Native victimization Rushforth argues that Indian slavery in New France emerged at the nexus of two very different forms of slavery one indigenous to North America and the other rooted in the Atlantic world The alliances that bound French and Natives together forced a century long negotiation over the nature of slavery and its place in early American society Neither fully Indian nor entirely French slavery in New France drew upon and transformed indigenous and Atlantic cultures in complex and surprising ways Based on thousands of French and Algonquian language manuscripts archived in Canada France the United States and the Caribbean *Bonds of Alliance* bridges the divide between continental and Atlantic approaches to early American history By discovering unexpected connections between distant peoples and places Rushforth sheds new light on a wide range of subjects including intercultural diplomacy colonial law gender and sexuality and the history of race **Men of God** Asunción Lavrin,2025-02 A

Family, Gender, and Law in Early Modern France Suzanne Desan, Jeffrey Merrick, 2010-11-01 *Kinship Relations in the Gospel of John* Joan C. Campbell, 2023-12-06 This monograph examines the relationships between the two families of Jesus in the Fourth Gospel The first family is that of the mother brothers and sisters of Jesus the second is the fictive family of the disciples Using social scientific criticism Campbell proposes that the Gospel depicts a sharp division between these families that is between the biological family the brothers and sisters of Jesus adelphoi and the discipleship family that includes the mother of Jesus

Families and Frontiers Kathryn Edwards, 2021-10-01 The frontier of the Early Modern Burgundies In this book Edwards applies in reverse the American frontier concept in order to understand the local changes in family and community in a Burgundy torn in two after the death of Charles the Bold in 1477 During the late fifteenth and early sixteenth centuries residents of the eastern duchy and the western county of Burgundy were in a place and time of transition and transformation a veritable frontier While France and the Holy Roman Empire vied for political control of the region residents struggled to define their social cultural political and economic relationships to each other In the region of the Sa ne River valley detailed case studies and family reconstruction of specific elites from the cities of Dijon Dole and Besan on are discussed The river ironically acted as a roadway not a barrier and facilitated the fluidity of the residents relationships Thus the Burgundian frontier was marked by a tacit acceptance of permeable boundaries and the ensuing choices interchanges negotiations and flexibility inherent to the region Edwards successfully argues that a frontier develops when a previously united region is divided and offers a provocative alternative interpretation to contrast with the national historiography most frequently used by scholars This book enhances our understanding of how pre modern societies created regional identities

second half of the seventeenth century *A Fond Husband* and *Friendship in Fashion* are lesser known comic gems of the Restoration stage *The Man of Mode* is Etherege's masterpiece and *The Libertine* is Shadwell's experimental and dark version of the Don Juan story The texts are freshly edited using modern spelling There is a critical introduction wide ranging annotation and an informative bibliography which together illuminate the plays cultural context and theatrical potential for reader and performer alike The series should shape the canon in a number of significant areas A splendid and imaginative project Professor Anne Barton Cambridge University

The Afghan-Central Asia Borderland Suzanne Levi-Sanchez, 2016-07-15 Based on extensive long term fieldwork in the borderlands of Afghan and Tajik Badakhshan this book explores the importance of local leaders and local identity groups for the stability of a state's borders and ultimately for the stability of the state itself It shows how the implantation of formal institutional structures at the border a process supported by United Nations and other international bodies can be counterproductive in that it may marginalise local leaders and alienate the local population thereby increasing overall instability The study considers how in this

particular borderland where trafficking of illegal drugs weapons and people is rampant corrupt customs and border personnel and imperfect new institutional arrangements contributed to a complex mix of oppression hidden protest and subtle resistance which benefitted illicit traders and hindered much needed humanitarian work The book relates developments in this region to borderlands elsewhere especially new borders in the former Soviet bloc and argues that local leaders and organisations should be given semi autonomy in co ordination with state border forces in order to increase stability and the acceptance of the state
