**Metamorphoses** Ovid, 2018-04-13 Ovid's *Metamorphoses* is one of the most influential works of Western literature inspiring artists and writers from Titian to Shakespeare to Salman Rushdie. These are some of the most famous Roman myths as you've never read them before: sensuous, dangerously witty, audacious, from the fall of Troy to birth of the minotaur and many others that only appear in the *Metamorphoses*. Connected together by the immutable laws of change and metamorphosis, the myths tell the story of the world from its creation up to the transformation of Julius Caesar from man into god. In the ten beat unrhymed lines of this now legendary and widely praised translation, Rolfe Humphries captures the spirit of Ovid's swift and conversational language, bringing the wit and sophistication of the Roman poet to modern readers. This special annotated edition includes new comprehensive commentary and notes by Joseph D. Reed, Professor of Classics and Comparative Literature at Brown University.

**The Complete Works of William Shakespeare In Plain and Simple English** William Shakespeare, 2013-08-30 If you've always wanted to read Shakespeare but are intimidated by the older language, then this is the perfect edition for you. Every single Shakespeare play is included in this massive anthology. Each play contains the original language with modern language underneath.

*The Vincetalin Legacy Retaliation: Book 6 The Veekeren Element* Vanda Denton, 2015-09-27 The glorious Emperor, ex-slave to the Vincetalin, could prove to be their one enemy capable of destroying them. And he does not think small. Believing he has the means to save humanity, to say nothing of wreaking vengeance on his evil tormentors, Pakow Lam Fellen leads an attack on the Vincetalin Home World. Only the raving, traumatised psychiatrist can see the flaw in his plan, because only he has come to understand the nature of the beasts. The retaliatory strike on the Vincetalin increases hugely in complexity and scale, and horror, as a simple surgical strike turns into a mass attack on a number of solar systems.

**The Creatures' Realm** Salaha Kleb, 2015-11-17 There, where I stood, I awoke to the beauty of the realm. I wandered, and yet death seemed to be hovering above me, the deeper I dared to go. When traveling tribes happen on a vast, until then unruled region in quest of a place to settle, they claim the entire land, theirs all, but conscious of the realm they have entered, that of beasts. Three years later, Artias, the first man ever to have survived an encounter with a man-eater, decides to apprise everyone of these great critters that wake at the absence of light. Unfortunately, he is unaware of the events that are to follow his arrival at a small village where, just recently, a beast prowled about. Though set to aid the people, even vowing to ward them, he cannot keep the creature from falling upon a man in the dead of night. Blamed for the fellow's passing, Artias faces the cruelty of human nature, losing his temper no sooner than being accused of having ill intentions. Elsewhere, vengeful men, all of whom have committed many a misdeed, are in search of him. Nevertheless, however vile they are deemed to be, it happens that Artias is much alike these fellows, because he too has led himself astray. Although he finds heaven in their company, many are the men who want them dead, for Artias has unintentionally interfered with the doings of fiends, hindering them in their task, which eventually leads to the discovery of a
