Many of the Biblical Gospels never made sense to John and he couldn't fully commit to Jesus. Read John's story to find out how God worked in his life to identify the real authors of the Gospels and how this solidified his faith. Following this investigation, John committed 100% to Jesus. Apply the five-step process he describes to firm up your faith and eliminate your doubts in Jesus just as he did.

**Perfect Girls, Starving Daughters** Courtney E. Martin, 2014-02-27 Based on extensive research and in-depth interviews with women from various socio-economic backgrounds, *Perfect Girls, Starving Daughters* lays bare a stark new world culture of eating disorders, food and body issues that affect virtually all of today's women. Though eating disorders first came to be recognised about 25 years ago, Martin's book shows how the issues surrounding body image have only become more complex, more dangerous and more difficult to treat. The current epidemic of obesity is simply the flip side of the same coin. Drawing from interviews with sufferers, psychologists, nutritionists and other experts, Courtney Martin's book reveals a whole new generation of perfect girls who have been conditioned from a young age to over-achieve, self-sacrifice and hate their own bodies, despite being raised by a generation of mothers well-versed in the lessons of feminism. Filled with vivid and often heartbreaking personal stories, *Perfect Girls, Starving Daughters* is both a shocking exposé and a call to arms, offering hope for a new beginning, one young girl at a time.

Where are the Dead? Peter Moore, 2016-09-13 Where are the dead? What are they doing? What kind of a process is dying? What relationships exist among the dead themselves and between the dead and those in the world they have left behind? Modern philosophers argue that the idea of disembodied survival, to which many believers pay lip service, is incoherent and that there can be evidence neither for nor against something incoherent. By contrast, this book argues the idea of an embodied survival, albeit a form of embodiment differing from our present embodiment, makes perfect sense in itself and fits much better with the alleged evidence for post-mortem survival. Exploring post-mortem survival, *Where are the Dead?* uses a variety of empirical data alongside mythological, legendary and purely fictional material to illustrate how the less familiar idea of embodied post-mortem survival might actually work in some real afterlife environment. By asking questions about the nature and whereabouts of the afterlife and about what it might be like to be dead, the book explores themes nowadays relatively neglected even in disciplines explicitly concerned with ideas about death, dying and life after death.
